1 APOLOGIES/LEAVE OF ABSENCE

This item on the agenda allows Council the opportunity to receive apologies/leave of absence from Councillors unable to attend the meeting.

2.1 - Condolences Report

DATE: Wednesday 8 December 2021

TO: Ordinary Council Meeting

AUTHOR: Tailah Jensen - Governance and Administration Officer

RESPONSIBLE OFFICER: Rodney Ferguson - Chief Executive Officer

PRESENTED FOR: Information

ATTACHMENTS

Nil

PURPOSE

To acknowledge and observe a minute silence for the recently deceased throughout the Whitsunday Region.

OFFICER'S RECOMMENDATION

That Council observe one (1) minute silence for the recently deceased.

BACKGROUND

Bereavement cards have been forwarded to the families of the deceased by the Mayor and Chief Executive Officer on behalf of the Whitsunday Regional Council.

CONCLUSION

Councillors, committee members, staff, general public and anyone participating in the meeting are to stand and observe a minute silence for the recently deceased.

3 DECLARATIONS OF INTEREST

This item on the agenda allows Councillors the opportunity to either declare a conflict of interest or material personal interest, in accordance with sections 175E and 175C respectively of the Local Government Act 2009 (the Act), in a matter that is to be discussed at this meeting of Council that is not an ordinary business matter.

Any such declarations will be managed during the meeting as required in accordance with the relevant sections of the Act.

4 MAYORAL MINUTE

This item on the agenda allows the Mayor to introduce, by a signed minute, a matter for consideration at the meeting. In accordance with Council's Standing Orders, such a matter takes precedence over all other matters for consideration at the meeting and may be adopted by a motion moved by the Mayor without the need for the motion to be seconded.

5 MAYORAL UPDATE

A verbal update will be provided by the Mayor at the meeting.

6.1 - Confirmation of Minutes

DATE: Wednesday 8 December 2021

TO: Ordinary Council Meeting

AUTHOR: Tailah Jensen - Governance and Administration Officer

AUTHORISING OFFICER: Rodney Ferguson - Chief Executive Officer

PRESENTED FOR: Decision

ATTACHMENTS

Nil

PURPOSE

At each Council meeting, the minutes of the previous meeting must be confirmed by the councillors present and signed by the person presiding at the later meeting. The Minutes of Council's Ordinary Council Meeting held on 24 November 2021 are provided for Councils review and confirmation.

OFFICER'S RECOMMENDATION

That Council confirms the Minutes of the Ordinary Meeting held on 24 November 2021.

BACKGROUND

In accordance with s272 of the Local Government Regulation 2012, minutes were taken at Council's Ordinary Council Meeting held on 24 November 2021 under the supervision of the person presiding at the meeting. These unconfirmed minutes once drafted were submitted to the Chief Executive Officer for review and are available on Council's website for public inspection.

DISCUSSION/CURRENT ISSUE

Council's options are:

Confirm the Minutes of the Ordinary Council Meeting held on 24 November 2021.

If Council is satisfied that the unconfirmed minutes are an accurate representation of what occurred at the meeting held on 24 November 2021 and comply with legislative requirements outlined in this report, no further action is required other than to confirm the minutes as per the recommendation.

Confirm the Minutes of the Ordinary Council Meeting held on 24 November 2021 with amendments.

If Council is not satisfied that the unconfirmed minutes are an accurate representation of what occurred at the meeting held on 24 November 2021 and comply with legislative requirements outlined in this report, then they move a motion that they be confirmed but with a list of amendments to ensure they are correct and compliant.

STATUTORY/COMPLIANCE MATTERS

In accordance with the Act, Council must record specified information in the minutes of a meeting regarding any declared material personal interests or conflicts of interest. At the Ordinary Council Meeting held on 24 November 2021, the following interests were declared and recorded in the minutes:

Councillor/Officer	Prescribed or Declarable	Report No.	Particulars of the interest
Andrew Willcox (Mayor)	Prescribed COI	13.2.6	<i>Mayor Andrew Willcox advised of a prescribed conflict of interest in item 13.2.6 regarding the Lease 12 Reibels Road, Delta Lot 5 on DK1242 (as per section 150EQ) of the Local Government Act 2009, as a consequence of his sibling being a Director of Born Farms.</i> <i>Mayor Willcox had considered his position and advised the meeting that he will leave the room while this matter is discussed and voted on.</i>
Cr Grundy	Prescribed COI	13.3.4	<i>After previously declaring a prescribed conflict of interest at the Ordinary Council Meeting of 22 September 2021, Cr Grundy left the meeting at 10.03am taking no part in the discussion or vote on the matter.</i>

Additionally, the chairperson of a local government meeting must also ensure that details of an order made against a Councillor for unsuitable meeting conduct at a Council meeting are recording in the minutes of the meeting. At the Ordinary Council Meeting held on 24 November 2021, the following orders were made:

Councillor	Order Made
<i>No orders made for this meeting.</i>	

Local Government Regulation 2012

Section 272 of the Regulation stipulates that the Chief Executive Officer must ensure that minutes of each meeting of a local government are taken under the supervision of the person presiding at the meeting.

Minutes of each meeting must include the names of councillors present at the meeting and if a division is called on a question, the names of all persons voting on the question and how they voted.

At each meeting, the minutes of the previous meeting must be confirmed by the councillors present and signed by the person presiding at the later meeting.

A copy of the minutes of each meeting must be available for inspection by the public, at a local government's public office and on its website, within 10 days after the end of the meeting. Once confirmed, the minutes must also be available for purchase at the local government's public office(s).

FINANCIAL IMPLICATIONS

The price for a member of the public to purchase a copy of the minutes must not be more than the cost to the local government of having the copy printed and made available for purchase, and if the copy is supplied to the purchaser by post, the cost of the postage.

TABLED MATTERS

Unresolved Tabled Matters			
Date of Meeting	Resolution Number	Summary	Resolved
13/05/2020	20191416 - Development Permit for Material Change of Use - Showroom - 2-12 Central Avenue Cannonvale - Yoogalu Pty Ltd 2020/05/13.07	That the application lie on the table as the applicant has 'Stopped the Clock.	On hold pending the outcome of the intersection funding and discussion with DTMR - Corner Galbraith Park Road and Shute Harbour Road.
13/05/2020	20140012 - Request to Extend Currency Period - Reconfiguration of A Lot One (1) Lot into Two (2) Lots - 106 Patullo Road, Gregory River - 12 Rp744909 2020/05/13.08	That the application lie on the table until the application is properly made.	Completed The Ministerial Covid-19 Extension applied to the currency period of this application, extending the expiry date to 9 June 2021. The survey plan was submitted, sealed and released on 9 June 2021, therefore removing the requirement for this Extension Request.
25/11/2020	Cantamessa Road Bridge 2020/11/25.27	That the item be tabled pending further investigations for temporary access, replacement, or closure of the bridge and to seek further information regarding funding.	The Cantamessa Road Bridge was briefed on the 21st July 2021. The date of the report to come back to Council will be further advised pending more investigations by Council officers.

CONSULTATION

Director Corporate Services
Manager Governance & Administration

DISCLOSURE OF OFFICER'S INTERESTS

No officer involved in the preparation of this report has an interest to declare in accordance with the provisions of the Local Government Act 2009 or the Staff Code of Conduct.

CONCLUSION

These minutes from the Ordinary Council Meeting held on 24 November 2021 are therefore submitted for adoption of their accuracy by the Councillors at this meeting of Council.

7 BUSINESS ARISING

This item on the agenda allows Councillors the opportunity to seek clarification or updates on business arising from the minutes of the previous meeting.

8 DEPUTATIONS

This item on the agenda allows for deputations to be presented as per Councils Standing Orders and Meeting Procedures Policy.

9 PETITIONS

This item on the agenda allows for the Mayor, Councillors or Council's Chief Executive Officer to present a petition to the meeting. In accordance with Council's Standing Orders, no debate on or in relation to the tabled petition shall be allowed and the only motion which may be moved is that the petition either be received, referred to a Committee or Council officer for consideration and report back to Council, or not be received because it is deemed invalid.

10 NOTICES OF MOTION

In accordance with Council's Standing Orders, Councillors may give notice of any business they wish to be discussed at an Ordinary Meeting by way of a Notice of Motion. This item on the agenda allows Councillors to introduce and move any motions they have submitted to the Chief Executive Officer for inclusion in the agenda.

11 QUESTIONS ON NOTICE

This item on the agenda is for the inclusion of any responses prepared by officers in response to questions taken on notice at previous meetings of Council.

12 QUESTIONS FROM THE PUBLIC GALLERY

Excerpt from Council's Standing Orders:

1. In each Meeting, time shall be set aside to permit members of the public to address the Council on matters of public interest related to local government.
2. Questions from the Public Gallery will be taken on notice and may or may not be responded to at the Meeting.
3. The time allotted shall not exceed fifteen (15) minutes and no more than three (3) speakers shall be permitted to speak at any one (1) meeting.
4. Any person addressing the Council shall stand, state their name and address, act and speak with decorum and frame any remarks in respectful and courteous language.

13 OFFICERS REPORTS

13.1 Office of the Mayor and CEO

13.1.1 - Whitsunday Coast Airport Restaurant/Cafe

DATE: Wednesday 8 December 2021

TO: Ordinary Council Meeting

AUTHOR: Craig Turner - Chief Operating Officer – Aviation and Tourism

AUTHORISING OFFICER: Rodney Ferguson - Chief Executive Officer

PRESENTED FOR: Decision

ATTACHMENTS

Nil

PURPOSE

This report is to present the recommendation to enter into a lease to operate the restaurant and café at Whitsunday Coast Airport.

OFFICER'S RECOMMENDATION

That Council authorise the Chief Executive Officer to, in relation to the Whitsunday Coast Airport Cafe enter into negotiations and execute a part of land lease Lot 50 on CP HR808298 with Fish D'Vine Pty Ltd in accordance with Section 236 of the Local Government Regulation 2012.

BACKGROUND

Prior to Covid-19 an Expression of Interest (EOI) for the Whitsunday Coast Airport (WCA) restaurant facility was advertised. However, the Covid 19 pandemic was declared soon after and the EOI process was subsequently terminated due to the closure of the airport. As a result of the WCA now fully operational, tenders were readvertised but due to ongoing Covid 19 and financial impacts within the hospitality industry, no tender submissions were received.

In accordance with section 236 Local Government Regulation 2012 the Chief Operating Officer for Aviation and Tourism contacted local operators, Fish D'Vine and KC's Bar & Grill to ascertain their interest in submitting a proposal to operate the airport restaurant. As a result, two formal proposals were received and were presented at the 1 December 2021 Briefing Session - Option A Fish D'Vine (Whitsunday Coast Airport Catering Pty Ltd T/A Taste of Whitsundays) and Option B – KC's Bar & Grill.

DISCUSSION/CURRENT ISSUE

The current Whitsunday Coast Airport Cafe lease expires on 31st January 2022 with notification sent to the current lessee from McKays Solicitors in line with the disclosure requirements of the Retail Tenancies Act. Given the timelines required to have a restaurant operational by 1 February 2022 it is a priority for council to decide on a catering proposal to allow the new operator sufficient time to bump in and be operational by 1 February 2022.

STATUTORY/COMPLIANCE MATTERS

Section 236 Local Government Regulation 2012.

STRATEGIC IMPACTS

Manage the aviation and tourism activities of the region as the gateway to the Whitsundays.

FINANCIAL IMPLICATIONS

In the event that Council does not support the recommendation proposed, it is likely that a café will not be operational from the 1 February 2022 which will have a significant impact on the Whitsunday Coast's Airports revenue. Furthermore, the recommended proposition would deliver the strongest financial return from the café operations at the Whitsunday Coast Airport.

CONSULTATION/ENGAGEMENT

Chief Executive Officer
Executive Manager Procurement, Property & Fleet

RISK ASSESSMENT

If the recommended proposition is not resolved, it will have a detrimental impact to the Whitsunday Coast Airport and region. The current lessee will cease trading on 31 January 2022 leaving no food or drink vendors for the passengers who will be passing through the airport daily. Continuing from this, there is reputational risk to council and stakeholders.

TIMINGS/DEADLINES

The approval of the recommended proposal is of a critical nature due to the impending termination of the current lease on 31 January 2022.

CONFLICT OF INTEREST DECLARATION

Council officers contributing to the preparation and approval of this report have no conflicts of interest to declare.

HUMAN RIGHTS IMPACT

N/A

ALTERNATIVES CONSIDERED

Options	Description	Positives	Negatives
Option 2	KC's Bar & Grill	A) Local business B) Ability to open by due date	A) No Rent Offering B) Low Revenue Turnover % C) Poor Proposal
Option 3	Whitsunday Regional Council Operated	A) Higher Revenue B) Operational Control	A) Not a Core Aspect of Business B) Staffing C) Timing D) Training & Experience

KC's Bar & Grill's (Option 2) proposal was not the recommended option as their proposal was below market financial return to Whitsunday Coast Airport and did not provide any detail in what their exact offering to passengers would be.

The option for the Council to run the facility (Option 3) was also considered however this is not a core aspect of business for the Whitsunday Regional Council. As a result, it was decided to seek an experienced external operator to offer passengers a high level of food and beverage options at the terminal whilst also delivering a strong financial return to the Whitsunday Regional Council via rent and gross turnover rent.

13.1.2 - Funding Opportunity - 2022-23 Cycle Network Local Government Grants Program

DATE: Wednesday 8 December 2021

TO: Ordinary Council Meeting

AUTHOR: Elouise Lamb - Project Officer Economic Development and Major Grants

AUTHORISING OFFICER: Craig Turner – COO Aviation, Tourism and Economic Development

PRESENTED FOR: Decision

ATTACHMENTS

1. 21025 Dwgs Rev A [13.1.2.1 - 4 pages]
-

PURPOSE

The purpose of this report is to provide information to Council on the opportunity to apply for funds to increase cycle networks and infrastructure in the region and attain commitment for required co-contributions.

OFFICER'S RECOMMENDATION

That Council resolves to:

1. Support a submission to the 2022/23 Cycle Network Local Government Grants Program seeking \$1,077,765 for the Renwick Road Cycle Network project in Proserpine; and
 2. Support the proposed Council co-contribution, should the project application be successful, for \$1,077,765 from the 2022-2023 General Revenue budget; and
 3. Note the total project cost is \$2,155,530 for this grant program.
-

BACKGROUND

The 2022/23 Cycle Network Local Government Grants Program funding is being targeted at delivering the Highest Priority Routes (HPR) identified in the Priority Route Maps and Action Plans for each Region's Principal Cycle Network Plan (PCNP). Council attained approval for the Whitsunday Regional Council Priority Route Maps (PRMs), addendum to the Mackay Isaac Whitsunday PCNP in October 2021, which has provided a range of new high priority routes across the region that are now eligible under this program.

Projects for the 2022/23 Cycle Network Local Government Grants Program can include infrastructure or planning projects for:

- off-road exclusive use bikeways
- on-road bicycle lanes that are physically separated from motorised traffic (also called cycle tracks)
- off-road shared paths
- bicycle streets
- on-road facilities, including bike lanes, shoulder widening, line marking, lane and intersection reconfiguration and priority signalling
- crossing provisions including at-grade treatments (for example, raised priority crossings), bridges and or underpasses

- mid-trip facilities and end-of-trip facilities
- wayfinding and signage
- lighting of bicycle paths and bikeways - data collection for the purposes of monitoring and reporting on the performance of cycling infrastructure, for example installation of data counters

A minimum 50% funding contribution is required except for Priority Design Treatments (no contribution required). There are no limits to funding amounts.

DISCUSSION/CURRENT ISSUE

Council have been successful in attaining 50% funding from previous rounds of this program including Dodd St Proserpine, Queens Rd & Argyle Park Rd Bowen, Golf Links Rd Bowen and Catalina Shared Path Project Bowen.

A review of the current Cycle infrastructure projects in the Whitsunday PCNP has been undertaken. The cycle network project for Renwick Road is recommended for submission in the 2022-2023 round as per the attachment.

STATUTORY/COMPLIANCE MATTERS

Projects must be selected from the Region's Principal Cycle Network Plan (PCNP)

STRATEGIC IMPACTS

Improve our transport network with a focus on meeting the economic needs for the region including road safety, road building, maintenance processes, and renewal of aging infrastructure.

Provide a fantastic experience for our community and visitors when using our open spaces, natural features, and facilities.

FINANCIAL IMPLICATIONS

Project cost estimate: \$2,155,530 (30% contingency)

WRC Contribution required: \$1,077,765 (to be sought from 22/23 budget bid from General Revenue).

CONSULTATION/ENGAGEMENT

Director Infrastructure Services
 Chief Operating Officer Aviation, Tourism and Economic Development
 Coordinator Capital Project Delivery
 Coordinator Transport Planning & Assets
 Economic Development Manager

RISK ASSESSMENT

N/A

TIMINGS/DEADLINES

Close date: 17 December 2021

Projects announced: June 2022

Projects must be complete over 2 years.

CONFLICT OF INTEREST DECLARATION

Council officers contributing to the preparation and approval of this report have no conflicts of interest to declare.

HUMAN RIGHTS IMPACT

No

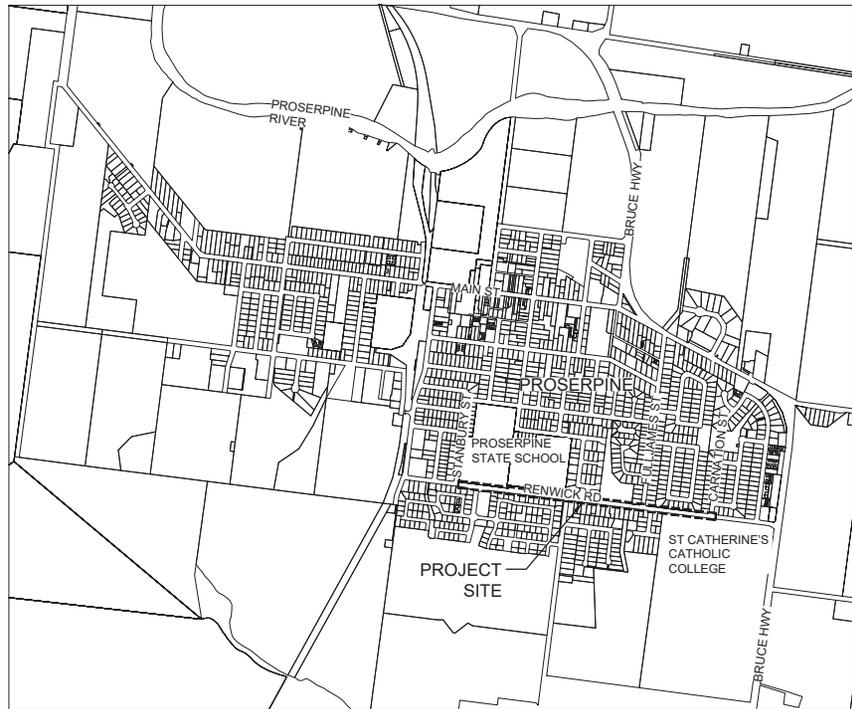

ALTERNATIVES CONSIDERED

Projects within the Region's Principal Cycle Network Plan (PCNP) were reviewed for program eligibility and priority for community. The Renwick Road project was selected due to capacity to be submitted and delivered in the timeframes and community benefits.

13.1.3 - New Funding Opportunity - Preparing Australian Communities - Local Stream

DATE: Wednesday 8 December 2021

TO: Ordinary Council Meeting

AUTHOR: Elouise Lamb - Project Officer Economic Development and Major Grants

AUTHORISING OFFICER: Craig Turner – COO Aviation, Tourism and Economic Development

PRESENTED FOR: Decision

ATTACHMENTS

Nil

PURPOSE

The purpose of this report is to provide information about the Preparing Australian Communities - Local Stream program available to Council and propose a project for submission.

OFFICER'S RECOMMENDATION

That Council resolves to support a submission to round 1 of the Preparing Australian Communities - Local Stream program seeking \$120,000 to deliver the Community Resilience program.

BACKGROUND

The Federal Government have opened a new disaster resilience funding program - *Preparing Australian Communities - Local Stream Program*. The fund provides \$600M over 4 rounds (across 6 years) for locally identified and locally led projects with up to \$10 million per project available to improve the resilience of communities against natural hazards.

The objectives of the Preparing Australia Program are to:

- improve the long-term resilience of Australian communities and households to natural hazards including bushfires, floods and tropical cyclones
- deliver disaster risk reduction projects that reduce hazard exposure or vulnerability and are aligned with the recommendations of the Royal Commission into National Natural Disaster Arrangements and the National Disaster Risk Reduction Framework

The Whitsundays has been identified as one of approximately 200 priority regions eligible for the funds as the region is classified as being at a greater risk of natural hazards, including bushfires, floods and tropical cyclones.

Projects must fall into one of the categories below:

Planning	Assessment of risk, vulnerability, resilience and disaster risk reduction activities, investment/business case, or technical feasibility	No contribution required.
Awareness and capacity	Increasing disaster risk and resilience awareness and capacity building activities. No contribution required.	No contribution required.
Infrastructure	Delivery of built and/or natural infrastructure, including new or upgraded infrastructure.	50% required for projects over \$100,000

DISCUSSION/CURRENT ISSUE

Officers across departments in Council that may have resilience related projects were requested to put forward suggestions for funding now and for future years. The following project was recommended as priority 1 for submission in the first round of the program:

Project Name	Community Resilience programs
Project Summary	<p>Engagement of an Officer to deliver community programs and initiatives over a 1-year term. The role will: Proactively engage with the community across a range of stakeholders; Empower Community led disaster management initiatives that build preparedness capacity and increase social capital; Work alongside community leaders to understand local issues, identify resources and facilitate opportunities to enhance resilience; Facilitate and deliver workshops to help community groups develop emergency plans; Facilitate Community Response and Recovery Exercises; Ensure disaster management programmes meet the special needs of vulnerable communities; Deliver against agreed plans and programmes and Build, foster and manage community networks. Education is key to informing and empowering communities. Education and engagement programs should account for changing risk profiles and community demographics to ensure that they are fit for purpose and support individual and community resilience to natural disasters. Programs must have all of the information people need to make informed decisions.</p> <p>The objectives of the program would be that the Whitsunday community:</p> <ol style="list-style-type: none">1. Understand the potential disaster risks we face2. Work together to better manage disaster risk3. Seek new opportunities to reduce disaster risk4. Continually improve how we prepare for, respond to and recover from disasters <p>Cost: \$120k Funding Amount Requested: \$120k WRC Contribution: 0 Ongoing Operational Costs: Nil additional costs</p>

STATUTORY/COMPLIANCE MATTERS

N/A

STRATEGIC IMPACTS

Maintain a high level of preparedness, capability, and responsiveness to respond to and recover from natural disasters that impact on our local communities and infrastructure.

FINANCIAL IMPLICATIONS

Infrastructure projects only require a 50% co-contribution by Council. The project selected does not require a co-contribution.

CONSULTATION/ENGAGEMENT

Director Infrastructure Services
Manager Innovation & Technology
Coordinator Natural Resource Management & Climate
Chief Operating Officer Aviation, Tourism and Economic Development
Disaster Management Coordinator
Manager Economic Development

TIMINGS/DEADLINES

Close date: 06 Jan 2022 05:00 PM AEDT.
Projects must be complete: 31 March 2025.

CONFLICT OF INTEREST DECLARATION

Council officers contributing to the preparation and approval of this report have no conflicts of interest to declare.

HUMAN RIGHTS IMPACT

No

ALTERNATIVES CONSIDERED

Multiple projects were reviewed. The second highest priority project identified for year 1 funding was the *Coastal Resilience Planning Project*. This project includes investigation of the viability of Council pursuing artificial reefs/rock walls in future to address storm surge that will impact beach environments and communities with the project targeting Queens Beach and Airlie Foreshore Beach as the first areas for review. Officers will continue to identify opportunities to seek funds for this project.

13.1.4 - New Funding Opportunity – 2022-2023 Walking Local Government Grants

DATE: Wednesday 8 December 2021

TO: Ordinary Council Meeting

AUTHOR: Elouise Lamb - Project Officer Economic Development and Major Grants

AUTHORISING OFFICER: Craig Turner – COO Aviation, Tourism and Economic Development

PRESENTED FOR: Decision

ATTACHMENTS

1. WRC Options [13.1.4.1 - 6 pages]
-

PURPOSE

The purpose of this report is to provide information about the new Queensland Government's Walking Local Government Grants Program available to Council, propose projects for submission and attain commitment for required co-contributions.

OFFICER'S RECOMMENDATION

That Council resolves to:

1. Support a submission to the 2022-2023 Queensland Government's Walking Local Government Grants Program seeking \$20,000 to contribute to walking network planning; and
 2. Approve the proposed Council co-contribution, should the submission be successful for \$20,000 from the 21/22 Infrastructure Services Operational Budget; and
 3. Note the total project cost is \$40,000 for this grant program.
-

BACKGROUND

The Queensland Government has established new Walking Local Government Grants (WLGG) as part of the implementation of the Queensland Walking Strategy. The program seeks to increase the number of people walking by improving networks to everyday destinations like schools, public transport stops, shops and parks. To achieve this networks need to be accessible, comfortable, safe, attractive and convenient.

Grants will initially support walking network planning (WNP) only. The department indicate that future funding rounds will provide funds to support delivery of WNP's developed. The 2022-23 program will provide 50:50 matched funding to deliver WNP's that:

- create more walkable communities and places
- improve walking access to, and around primary destinations with connected, comfortable, safe and accessible walking environments

The Department have a suggested process for developing WNP's and provided an indicative budget with a total cost of \$40k.

DISCUSSION/CURRENT ISSUE

The following project is proposed for submission for the 2022-23 round:

Project Name	Whitsunday Priority Walking Network Plan
Project Summary	<p>Development of a Walking Network Plan as per the process developed by TMR inclusive of the following steps:</p> <ul style="list-style-type: none"> • Identify a primary destination that is, or could, attract high levels of walking (town centres, school/s, public transport). • Prepare a draft walking network plan in a catchment around the destination (up to 2km) (GIS-based). • Engage relevant stakeholders to audit and test the draft plan (workshop-based). • Finalise the walking network plan. • Develop a works program (including options, high level cost estimates and priorities). • Support preparation of required materials for Council approval. • Prepare evaluation metrics to assess the implementation of the plan and program. <p>The primary routes for the 2022/23 WLGG project submission have not been determined for recommendation. Options within the following 6 potential areas are under review:</p> <ol style="list-style-type: none"> 1. Collinsville CBD 2. Bowen CBD 3. Cannonvale Whitsunday Shopping Centre 4. Cannonvale Whitsunday Plaza 5. Airlie Beach Main St 6. Proserpine CBD <p>See Attachment: WNP Areas for Consideration</p>

STATUTORY/COMPLIANCE MATTERS

N/A

STRATEGIC IMPACTS

Improve our transport network with a focus on meeting the economic needs for the region including road safety, road building, maintenance processes, and renewal of aging infrastructure.

FINANCIAL IMPLICATIONS

The funding program does require a 50% co-contribution by Council. If the project is successful, it would require a total co-contribution of \$20,000.

CONSULTATION/ENGAGEMENT

Director Infrastructure Services
Chief Operating Officer Aviation & Tourism
Coordinator Capital Project Delivery
Coordinator Transport Planning & Assets
Economic Development Manager

RISK ASSESSMENT

If Council do not participate in this activity, there will be reduced opportunity to apply for funds from future rounds of this State funding program to deliver walking network infrastructure.

TIMINGS/DEADLINES

Submissions Close: 17 December 2021
Projects announced: June 2022
Projects must be delivered over 12 months.

13.2.1 - Unconfirmed Minutes - Audit and Risk Committee Meeting

DATE: Wednesday 8 December 2021

TO: Ordinary Council Meeting

AUTHOR: Melanie Douglas - Governance and Councillor Support Officer

AUTHORISING OFFICER: Jason Bradshaw - Director Corporate Services

PRESENTED FOR: Decision

ATTACHMENTS

1. Unconfirmed Audit and Risk Committee Meeting Minutes [13.2.1.1 - 18 pages]
-

PURPOSE

Council is required to review and consider the recommendations of the Audit & Risk Committee. The minutes will also be confirmed by this Committee at the next available meeting.

The Audit & Risk Committee does not have decision-making authority and any recommendations it makes must be endorsed and approved by Council resolution prior to implementation or action.

OFFICER'S RECOMMENDATION

That Council endorse the Unconfirmed Minutes of the Audit & Risk Committee Meeting held on 23 November 2021.

BACKGROUND

Whitsunday Regional's Council's Audit & Risk Committee met on 23 November 2021. Minutes were recorded from this meeting and are provided to Council to consider and review the Committee's recommendations, in accordance with section 211(1)(c) of the Local Government Regulation 2012.

The primary objective of the Audit & Risk Committee is to promote good corporate governance through the provision of independent assurance, oversight and advice to Council on matters relating to:

- Internal Audit;
- External Audit;
- Financial Reporting;
- Risk Management;
- Internal Controls; and
- Legislative and Organisational Compliance.

DISCUSSION/CURRENT ISSUE

The following priorities were presented at the meeting of the 23 November 2021 and voted in support by the Committee

1. Audit Recommendations Update - to receive the audit actions progress update Management
2. Audit and Risk Committee Priority Guide and 2022 Meeting date - to receive the priorities guide for 2022 and adopt the meeting dates schedule for 2022
3. Monthly Financial report - to receive copies of the unaudited financial statements, Foxdale report, Whitsunday waste and water operational report, and Shute harbour and Disaster recovery
4. Internal Audit Report - to receive the internal Audit activity report and endorse the Strategic Internal Audit Plan 2022-2024
5. Workplace Health and Safety Update and Human Resources - to receive the reports for noting
6. Corporate Governance Review - to receive the Governance Review report and endorse the Governance Improvement Action Plan
7. Risk management Information Update - to receive the risk information report, revised risk management framework, endorse the Risk management Policy and endorse the revised Strategic risk register.
8. Asset management Governance - to receive the final Asset management Governance review report

Council has the following options;

- Support the recommendations. Council can endorse the Committee's recommendations, receive the minutes of the Audit & Risk Committee's 23 November 2021 meeting and approve actions arising from that meeting; or
- Seek to amend the recommendations. If on review, Council require clarification on any of the recommendations or actions arising and wishes to amend them, then this is the appropriate opportunity to address any concerns or issues with the minutes and the recommendations and actions arising therein.

STATUTORY/COMPLIANCE MATTERS

Audit and Risk Committee Charter clause 3.9.

STRATEGIC IMPACTS

Support the organisation in ensuring appropriate compliance with legislation and to support the elected council in its decision-making processes and obligations as a local government.

Alignment to Corporate Plan Outcome 1.1: Our Leadership engages with the community and provides open, accountable and transparent local government.

Alignment to Operational Plan KPI: The Mayor and Councillors are provided with relevant, accurate and timely advice and support in accordance with approved levels of service.

FINANCIAL IMPLICATIONS

Financial Implications are managed within the existing budgets and delegations.

CONSULTATION/ENGAGEMENT

Audit and Risk Committee Chairman

RISK ASSESSMENT

Council risks non-compliance with the Audit & Risk Committee Constitution if they do not consider and review the recommendations of the Committee.

TIMINGS/DEADLINES

Minutes are to be presented to the next available Council Meeting. This happens to be the final meeting for 2021, and Committee will not meet again until February 2022.

CONFLICT OF INTEREST DECLARATION

Council officers contributing to the preparation and approval of this report have no conflicts of interest to declare.

HUMAN RIGHTS IMPACT

No

#### 4.1 AUDIT AND RISK COMMITTEE OPERATIONS

##### 4.1.1 2021/11/24.03 CHIEF EXECUTIVE OFFICER BRIEFING UPDATE

#### PURPOSE

At this time of the meeting the Chief Executive Officer will provide a verbal update to the Committee.

#### RESOLUTION

**That the Audit and Risk Committee receive the verbal update from the Director Corporate Services Mr Jason Bradshaw delivered in Mr Ferguson's absence as follows;**

*"Mr Chairman and members,*

*My apologies for being unable to attend today as there is a clash with the second of a series of regional round table meetings in Mackay attended by a range of senior government and industry representatives. I provide an update for the committee's information.*

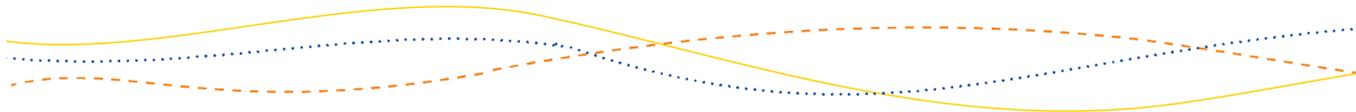

#### Previous Matters

1. **Operational Plan** - Work was completed on development of performance measures and KPI's with consultant Scott Greensill and all members of the ELT and Middle Management Group. The first quarter review of the Operational Plan was received by Council at the Ordinary Meeting of the 7<sup>th</sup> November, 2021..
2. **Bravus - Stratford Road** - a meeting was held on Monday 15<sup>th</sup> November where it was agreed to carry out site testing of sections of the road that were identified in December, 2020 as requiring re-work. .
3. **Safety** - Switch On program - over 300 staff, the Mayor and 2 Councillors have now completed the program with follow up workshops commencing on 16<sup>th</sup> November for new staff and those that missed the earlier sessions.
4. **Economic Development Strategy** - the draft was received by Council and it was released for public consultation. That process closed recently and a report will be to Council on the 8<sup>th</sup> December, 2021 seeking adoption of the Strategy.
5. **CEO Performance review** - this has been completed with an external person facilitating the process. A report closing out the process was presented to Council by the Mayor on 28<sup>th</sup> October 2021.
6. **Enterprise Bargaining** - the process continues, two meetings to date with two more planned in November to try and close it out. Unions representing outdoor workforce are seeking two agreements, no strong reasoning presented to date and WRC has maintained desire to remain with one agreement.

#### Legal

Lagoon Pool - state Workplace Health and Safety case has been deferred until February 2022.

1. Lagoon Pool - personal claim before the court for mediation on 17<sup>th</sup> November 2021. .
2. Whitsunday Paradise - Planning appeal - applicants lodged required documents to the courts on 19<sup>th</sup> November 2021.

### **Contracts**

**a) Proserpine Entertainment Centre** - on target/on budget but latest Covid mandates around un-vaccinated not being allowed in entertainment venues, including staff, and this may create some hurdles.

**b) Flagstaff Hill** - 'officially opened' but awaiting reparations of defects. Previously engaged external interest withdrew their interest in running the café so an EOI has now been issued seeking interested parties to run café or the café/conference centre.

### **Covid 19 update**

1. Covid 19 government mandate effective 17<sup>th</sup> December 2021 – several discussions at ELT and recent Council discussion regards how to apply restrictions across local government facilities. To date, apart from entertainment facilities, no local government venues are included but as an employer Council has an obligation to protect both its employees and its customers. Hoping for clarity from Government/LGAQ in coming weeks.

2. There is some strong business community feedback on the difficulties in implementing the mandate e.g. young casual staff dealing with irate customers; existing difficulties in attracting staff; dealing with multiple versions of exemptions as to not being required to vaccinate (some fraudulent); the elderly not understanding the technology, etc etc.

3. Information below provided by Director of Infrastructure Services providing some further examples of complexity of the issue:

**a. Unvaccinated attending Christmas Carols, Fireworks, Outdoor movies:**

Yes. Unticketed, outdoor, community events (e.g. movie in the park, carols in the park, new year fireworks on the beach) are not in scope for the rules around events and entertainment.

**b. Unvaccinated attending markets:**

Yes, you can attend farmers, craft, Christmas and other community based markets.  
No festivals

**c. Local Government Facilities**

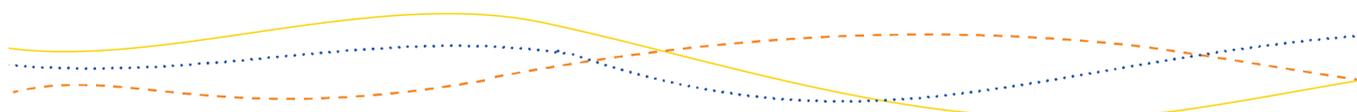

Still no update on whether unvaccinated can attend local government facilities such as Council buildings or libraries and the website still mentions Queensland Health are working with us, however cinemas and indoor entertainment venues are a no for the unvaccinated (PEC).

**d. Other:**

The website still mentions that the unvaccinated can visit essential services and activities such as grocery stores, pharmacies, post offices, newsagents and clothing stores, shopping centres food courts, bottle shops, fast food outlets (but cannot dine in) and participate in activities like going to the gym for exercise.

**e. Unvaccinated can stay in hotels for accommodation for work and/or leisure (If the accommodation contains a hospitality venue such as pub restaurant or night clubs they cannot enter that part).**

### **General Matters**

1. *Workforce Plan - the HR Manager has developed a Workforce Plan for the consideration of Council, looking at current and future trends within the workforce. Expected to Council shortly.*
2. *Governance - you will see from the agenda the significant work being carried out by Manager of Governance James Ngoroyemoto. Commendations to James, a fresh approach to the governance role that is providing a positive change across the organisation.*

Rod Ferguson - Chief Executive Officer

4.2 FINANCIAL REPORTING

4.2.1 2021/11/24.06 MONTHLY FINANCIAL REPORT

PURPOSE

To inform the committee of Council's financial performance and position for the relevant period.

RECOMMENDATION

That the Audit and Risk Committee receive the:

- a) unaudited financial statements for the period ended 30 September 2021 for the Financial Year 2021/22.
- b) Foxdale Quarry Report - September 2021
- c) Whitsunday Water and Waste Operational Report - September 2021
- d) Shute Harbour and Disaster Recovery Funding Arrangements Project Capital Progress Report - September 2021

RESOLUTION

Moved By: Mr J FINLAY

Seconded By: Mr G WEBB

That the Audit and Risk Committee receive the:

- a) **unaudited financial statements for the period ended 30 September 2021 for the Financial Year 2021/22.**
- b) **Foxdale Quarry Report - September 2021**
- c) **Whitsunday Water and Waste Operational Report - September 2021**
- d) **Shute Harbour and Disaster Recovery Funding Arrangements Project Capital Progress Report - September 2021**

MEETING DETAILS:

Discussion

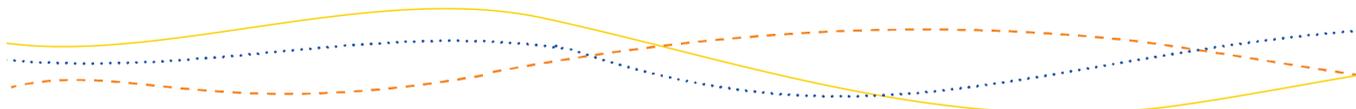

JB - commented on the minor deficit on the quarry and stock on hand; continue to monitor business units, water and sewer and waste and are heading towards record flights; Shute Harbour is heading towards operational stage with minor deficit showing. Proserpine Dam and the camping operations and commercial activities have also commenced.

GW raised regarding Shute Harbour, should a cyclone impact further on the development his concerns to what has already been achieved to date, will insurance be a issue with NDRRA funding given this project is still outstanding?

JB replied and advised the assets are reinsured. AW reiterated. JB commenting on the resilience that has gone into the facility even where it has been rebuilt. The new facility is built to modern standards and much less risky than what we had originally.

JF commented (*referred to page 72*) reseal program, 8637 is last years program, updated budget will be 8904 is the 2021/22 project? JB replied that yes it is correct, AW also

This is page 11 of the Minutes of Council's Audit & Risk Committee Meeting - 23 November 2021

commented that some works were deferred so that other TMR works in Airlie Beach could be completed, and that was brought to the table by Infrastructure, for Council awareness.

~~~~~

**4.3 INTERNAL AUDIT**

**4.3.1 2021/11/24.07 INTERNAL AUDIT REPORT**

**PURPOSE**

To present the Committee with the reports prepared by Council's internal auditors O'Connor Marsden Associates for consideration and review of the content of the Strategic Internal Audit Plan and Internal Activity Report.

**RECOMMENDATION**

That the Audit and Risk Committee

1. Receive the Internal Audit Activity Report from O'Connor Marsden Associates
2. Endorse the Strategic Internal Audit Plan 2022-2024

**RESOLUTION**

**Moved by: CR J COLLINS**

**Seconded by: MR J FINLAY**

**That the Audit and Risk Committee**

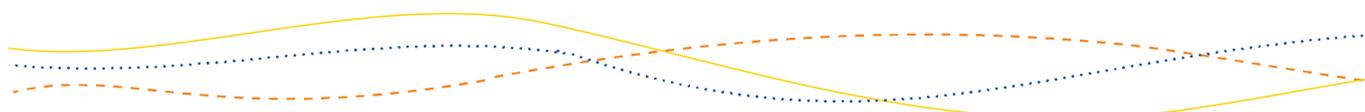

- 1. Receive the Internal Audit Activity Report from O'Connor Marsden Associates**
- 2. Endorse the Strategic Internal Audit Plan 2022-2024**

**MEETING DETAILS:**

**Discussion**

WG commented they have commenced two activity reviews on financial controls and Human Resources retention of key skill sets. Subject to approval to the internal audit plan, they are scheduled to come visit and begin insurance review and finalise HR review. WG commented on the volume of outstanding findings, 5 finalised with appropriate evidence.

WG touched on the Internal Audit plan; three-year internal Audit Plan, roll out engaged with key officers proposing to undertake reviews on fraud and corruption,

cyber risk, procurement and contract management including an operational review of the Quarry. Budget perspective won't impact Council being swapped around.

GW questioned governance issues around purchasing policy - delegating to the CEO annually. WG commented that the procurement review looks at Local Government Act, looking at quotes and contracts, procurement reports prepared where a volume of transactions have occurred.

- 

### **PURPOSE**

To present to Council for consideration the Evaluation Panel's Recommendation to award the contract 500.2021.0070 Preferred/Prequalified Supplier Arrangements for the Provision of Plant and/or Equipment Hire.

### **OFFICER'S RECOMMENDATION**

That Council award Contract 500.2021.0070 Preferred/Prequalified Supplier Arrangements for the Provision of Plant and/or Equipment Hire to the following Tenderers for the two-year contract period (with an additional twelve-month extension at Council discretion):

1. Addison (Aust) Pty Ltd T/AS 1300 Meteor Rentals
2. Adam Stroud Enterprises Pty. Ltd. T/As Adams Earthworks
3. Airlie Excavations Pty Ltd
4. Beauchamp Excavating Pty Ltd
5. Berry Excavations Pty Ltd
6. BJM Contracting Pty Ltd
7. Fynbat Pty Limited & PD Hillery Family Trust T/As Bowen Industrial Hire
8. B.J Hourn & M.J Wiencke T/As Bowen Positrack & Tipper Hire
9. G & R Brown & Sons Pty Ltd T/As Brown Contractors
10. Coates Hire Operations Pty Limited
11. B.J Collett & B.L Collett T/As Collett Building Services
12. Colls Earthmoving Pty Ltd
13. Beddaws Pty Ltd T/AS Copp & Co Plant Hire
14. A.N Crisp & J.T Crisp (Crisp Excavations)
15. D J Brazil Pty Ltd
16. EQUIPPEDASSIST Pty Ltd T/As Davies Cranes Whitsunday
17. GJ Daniels & AM Douglas T/AS Doyawana Truck Hire
18. Durack Civil Pty Ltd
19. The Trustee for S & J Family Trust (Essjay Contracting Pty Ltd)
20. Flexihire Pty. Ltd.
21. C.J Reents & G.C Reents T/As Garry Reents Backhoe Services
22. Haber Excavations Pty Ltd

23. Harry Edward Humphries
24. Hastings Deering (Australia) Limited
25. Humphries Pty Ltd
26. Hydro Excavac Pty Ltd
27. James's Laser Services Pty Ltd
28. John's Plumbing Serv Trust
29. K Goldspink & L.R Jackson T/As KMG Dingo Hire
30. K V S Cartage Pty Ltd
31. LD & LJ Hillery Pty Limited
32. Luke Morris Plumbing Pty Ltd
33. Moongunya Pty Ltd T/AS Coalfield Services
34. David Moulding T/As Moulding Excavations
35. North West Services Pty Ltd
36. Mirthill Pty. Ltd. T/As Pat McDonnell Earthmoving
37. Pattel's Collinsville Transport Pty Ltd
38. Powerup Project Reticulation Pty Ltd
39. Precise Plumbing & Excavations Pty Ltd
40. The Trustee for The Baxter Family Trust (R.C. Baxter Grader Hire Pty Ltd)
41. Raymond's Truck and Plant Hire Pty Ltd
42. Rollers Australia Pty Limited
43. RPH Industries (QLD) Pty Ltd
44. Sarina Crane Hire Pty Ltd
45. Seaforth Civil Pty Ltd
46. Searles Transport Pty Ltd
47. Sherrin Rentals Pty Ltd
48. Talbot's Earthmoving & Bulk Haulage Pty. Ltd.
49. The trustee for The TFH Hire Trust T/As TFH Hire Services Pty Ltd
50. The Trustee for The Rob Stoneham Family Trust
51. Total Drain Cleaning Services Pty Ltd
52. B.A Holditch & T.W Holditch (Tipper Hire)
53. Tutt Bryant Hire Pty Ltd
54. Whitsunday Civil Pty Ltd

Refer to the following Appendices for the final panel listings:

- a) Appendix A – Preferred Wet Hire Panel (including rankings)
- b) Appendix B – Prequalified Wet Hire Panel; and
- c) Appendix C – Prequalified Dry Hire Panel.

---

## **BACKGROUND**

Whitsunday Regional Council (Council) is recalling its Panel of Suppliers to provide plant and/or equipment (including wet and dry hire) in excess of its current fleet to assist in providing services to maintain operations in the Whitsunday Region.

Several amendments were implemented by Councils Contracts team for this new arrangement which included changes:

- a) From lessons learnt from previous arrangement,
- b) To assist with compliance and efficiency,
- c) To align with Council's Department needs and requirements; and
- d) To have a more user-friendly arrangement for both Council Personnel and Contractors.

Consultation with various departments (including Roads and Drainage Depots, Whitsunday Water & Waste, and Parks and Gardens) who utilise this arrangement on a regular basis, to ensure these changes were efficient and to better understand where problems and difficulties occurred with the original arrangement.

Some of these changes included:

- a) Introducing a new Preferred/Prequalified Wet Hire Panel Arrangement which means:
  - i. Preferred Wet Hire Panel capped at 10 ranked Contractors per category and area.
  - ii. Prequalified Wet Hire Panel for all those conforming Contractors who have missed out due to the capping, which if the Preferred Wet Hire Panel is exhausted Council Personnel can then conduct an RFQ with the Prequalified Wet Hire Panel.
  - iii. Both Preferred and Prequalified Wet Hire Panel Contractors who have indicated in their Tender Submission would like to be a part of any minor work projects (have the ability to fully supervise and manage the project) will be included in RFQ processes Council conduct for these minor work projects; and
  - iv. Wet Hire Panel is now a Prequalified Panel only.
- b) Areas split into each Roads & Drainage Depot's responsible Road Maintenance Performance Contract (TMR) areas with minor splits to the complex remote locations:
  - i. Area 1 – Proserpine/Airlie Beach.
  - ii. Area 2 – Bowen.
  - iii. Area 3 – Collinsville.
  - iv. Area 4 – Mt Coolon; and
  - v. Area 5 – Gumlu.

Maps of these areas were compiled and included in the Tender Documents.

- a) More user-friendly pricing schedule for both Council personnel and Contractors.
- b) More relevant equipment categories to align with Council's requirements; and
- c) Other minor definitions and operational requirements.

Information sessions were conducted by Council's Contracts team in all locations (Proserpine, Collinsville, and Bowen) with Contractors once the Tender was released, to explain the changes and how they can register with Council's new tendering portal, eTenderBox, or if they had any issues or concerns, they may have or wished to raise.

A much larger evaluation panel, including various levels of personnel from Roads and Drainage, Whitsunday Water and Parks and Gardens (refer to Clause 3.1), was organised to ensure the personnel that are the regular users of the arrangement could be included and provide input to accurately evaluate the Tender Submissions.

Once the Contracts are awarded, it is the Contracts Department's intention to conduct further information sessions with the Contractors on how to do business with Council now they are on the panel, which may include the Disaster Recovery Team and other Council

personnel. Sessions with Council personnel will also be conducted to explain the operational, expectation and compliance for this new panel arrangement.

## **PROCESS**

### **Tender Release**

A Request for Tender (RFT) was released on 7<sup>th</sup> July 2021 and as advertised as follows in accordance with *Local Government Regulation 2012 S228*:

- a) eTenderBox;
- b) Newspapers:
  - i. Whitsunday News; and
  - ii. Townsville Bulletin.
- c) Council's website.

Supplier information sessions were also advertised and held in Bowen, Collinsville, and Proserpine during the Tender advertising period.

### **Tender Evaluation Panel**

The Tender Evaluation Panel (TEP) comprised:

- a) Works Coordinator Collinsville – Infrastructure Services
- b) Administration Assistant Collinsville Depot – Infrastructure Services
- c) Maintenance Supervisor – Infrastructure Services
- d) Administration Assistant Bowen Depot – Infrastructure Services
- e) Works Coordinator – Bowen – Infrastructure Services
- f) Works Supervisor – Bowen – Infrastructure Services
- g) Team Leader - Cannonvale Parks – Infrastructure Services
- h) Works Supervisor – Proserpine – Infrastructure Services
- i) Works Coordinator – Proserpine – Infrastructure Services
- j) Works Supervisor – Cannonvale – Infrastructure Services
- k) Asset Inspector – Infrastructure Services
- l) Manager W&S Network Operations – Infrastructure Services
- m) Coordinator Network Operations – Infrastructure Services
- n) Contracts Coordinator– Corporate Services
- o) Contracts Officer – Corporate Services

### **Summary of Tenders Received**

The following tenders were received by the closing date of time on Wednesday 4<sup>th</sup> August 2021:

- a) Addison (Aust) Pty Ltd T/AS 1300 Meteor Rentals
- b) Adam Stroud Enterprises Pty. Ltd. T/As Adams Earthworks
- c) Beauchamp Excavating Pty Ltd
- d) Berry Excavations Pty Ltd

- e) BJM Contracting Pty Ltd
- f) B.J Hourn & M.J Wiencke T/As Bowen Positrack & Tipper Hire
- g) Coates Hire Operations Pty Limited
- h) B.J Collett & B.L Collett T/As Collett Building Services
- i) Colls Earthmoving Pty Ltd
- j) Beddaws Pty Ltd T/AS Copp & Co Plant Hire
- k) A.N Crisp & J.T Crisp (Crisp Excavations)
- l) D J Brazil Pty Ltd
- m) EQUIPPEDASSIST Pty Ltd T/As Davies Cranes Whitsunday
- n) Durack Civil Pty Ltd
- o) Ellis Profiling (QLD) Pty Ltd
- p) The Trustee for S & J Family Trust (Essjay Contracting Pty Ltd)
- q) Flexihire Pty. Ltd.
- r) C.J Reents & G.C Reents T/As Garry Reents Backhoe Services
- s) Haber Excavations Pty Ltd
- t) Harry Edward Humphries
- u) Hastings Deering (Australia) Limited
- v) Humphries Pty Ltd
- w) James's Laser Services Pty Ltd
- x) John's Plumbing Serv Trust
- y) K V S Cartage Pty Ltd
- z) LD & LJ Hillery Pty Limited
- aa) Luke Collingwood
- bb) Luke Morris Plumbing Pty Ltd
- cc) Moongunya Pty Ltd T/AS Coalfield Services
- dd) David Moulding T/As Moulding Excavations
- ee) North West Services Pty Ltd
- ff) Mirthill Pty. Ltd. T/As Pat McDonnell Earthmoving
- gg) Powerup Project Reticulation Pty Ltd
- hh) Precise Plumbing & Excavations Pty Ltd
- ii) Raymond's Truck and Plant Hire Pty Ltd
- jj) Rollers Australia Pty Limited
- kk) RPH Industries (QLD) Pty Ltd
- ll) Sarina Crane Hire Pty Ltd
- mm) Seaforth Civil Pty Ltd
- nn) Searles Transport Pty Ltd
- oo) Sherrin Rentals Pty Ltd
- pp) Talbot's Earthmoving & Bulk Haulage Pty. Ltd.

- qq) The trustee for The TFH Hire Trust T/As TFH Hire Services Pty Ltd
- rr) The Trustee for The Rob Stoneham Family Trust
- ss) Total Drain Cleaning Services Pty Ltd
- tt) Tutt Bryant Hire Pty Ltd
- uu) Whitsunday Civil Pty Ltd

The following late submissions were received:

- a) Airlie Excavations Pty Ltd
- b) Fynbat Pty Limited & PD Hillery Family Trust T/As Bowen Industrial Hire
- c) G & R Brown & Sons Pty Ltd T/As Brown Contractors
- d) GJ Daniels & AM Douglas T/AS Doyawana Truck Hire
- e) Hydro Excavac Pty Ltd
- f) K Goldspink & L.R Jackson T/As KMG Dingo Hire
- g) Pattel's Collinsville Transport Pty Ltd
- h) The Trustee for The Baxter Family Trust (R.C. Baxter Grader Hire Pty Ltd)
- i) RPQ Mackay Pty Ltd
- j) B.A Holditch & T.W Holditch (Tipper Hire)

All late submissions were accepted by the evaluation panel as this will be beneficial for Council.

Note: An initial compliance check was conducted on the tender submissions to identify if the responses were non-conforming with the requirements of the RFT. This included compliance with contractual requirements and provision of requested information.

The following tenderers were deemed non-conforming:

- a) Luke Collingwood as they did not provide a completed submission or any detail on proposed plant/equipment for this panel. After numerous emails issued and a phone call requesting the required information and no response received, they were therefore marked non-conforming.
- b) Ellis Profiling (QLD) Pty Ltd and RPQ Mackay Pty Ltd as they did not submit any plant/equipment that are required by Council or form part of this panel.

All of the other Tenderers were marked conforming and progressed to the qualitative criteria assessment on the basis that all the terms, conditions, and mandatory requirements of the RFT had been met.

### **Evaluation of Tenders**

During the evaluation, a thorough and lengthy review of all requirements were conducted to ensure all information and documentation was provided by all Tenderers. A number of clarifications were conducted with Tenderers in regard to pricing, insurances, registrations, financials, and equipment details.

Responses were received from most of the Tenderers and incorporated into the final evaluation results.

The Tenderers were assessed against the qualitative selection criteria. The qualitative criteria were weighted according to their importance as perceived and agreed by members of the Tender Evaluation Panel (TEP). Relative weightings were published within the RFT as per below:

| <b>Criteria</b>                               | <b>Weighting</b> |
|-----------------------------------------------|------------------|
| Relevant Experience & Key Personnel           | 20%              |
| Organisational Structure & Management Systems | 15%              |
| Tenderers' Plant and Equipment                | 25%              |
| Local Supplier                                | 10%              |
| Pricing (Wet Hire only)                       | 30%              |

### **Summary of Evaluation Scores**

The qualitative criteria assessment was carried out by the TEP members individually on all the information provided by the Tenderers according to the level of response and compliance to the requirements of the contract to determine the overall capability and best value for money for Council.

The evaluation of the conforming tenders involved an assessment of the level of each Tenderers responses to each of the criterion and was given a score between 0-10 with each criterion having an overall % weighted proportionally of the total evaluation score.

### **Combined Weighting Summary**

The Evaluation Panel recommends that the following tenderers be appointed to the Preferred/Prequalified Supplier Arrangements for the Provision of Plant and/or Equipment Hire for the two-year contract period (with an additional twelve-month extension at Council discretion) as it represents the most advantageous outcome to Whitsunday Regional Council.

- a) Addison (Aust) Pty Ltd T/AS 1300 Meteor Rentals
- b) Adam Stroud Enterprises Pty. Ltd. T/As Adams Earthworks
- c) Airlie Excavations Pty Ltd
- d) Beauchamp Excavating Pty Ltd
- e) Berry Excavations Pty Ltd
- f) BJM Contracting Pty Ltd
- g) Fynbat Pty Limited & PD Hillery Family Trust T/As Bowen Industrial Hire
- h) B.J Hourn & M.J Wiencke T/As Bowen Positrack & Tipper Hire
- i) G & R Brown & Sons Pty Ltd T/As Brown Contractors
- j) Coates Hire Operations Pty Limited
- k) B.J Collett & B.L Collett T/As Collett Building Services
- l) Colls Earthmoving Pty Ltd
- m) Beddaws Pty Ltd T/AS Copp & Co Plant Hire
- n) A.N Crisp & J.T Crisp (Crisp Excavations)
- o) D J Brazil Pty Ltd
- p) EQUIPPEDASSIST Pty Ltd T/As Davies Cranes Whitsunday
- q) GJ Daniels & AM Douglas T/AS Doyawana Truck Hire
- r) Durack Civil Pty Ltd
- s) The Trustee for S & J Family Trust (Essjay Contracting Pty Ltd)

- t) Flexihire Pty. Ltd.
- u) C.J Reents & G.C Reents T/As Garry Reents Backhoe Services
- v) Haber Excavations Pty Ltd
- w) Harry Edward Humphries
- x) Hastings Deering (Australia) Limited
- y) Humphries Pty Ltd
- z) Hydro Excavac Pty Ltd
- aa) James's Laser Services Pty Ltd
- bb) John's Plumbing Serv Trust
- cc) K Goldspink & L.R Jackson T/As KMG Dingo Hire
- dd) K V S Cartage Pty Ltd
- ee) LD & LJ Hillery Pty Limited
- ff) Luke Morris Plumbing Pty Ltd
- gg) Moongunya Pty Ltd T/AS Coalfield Services
- hh) David Moulding T/As Moulding Excavations
- ii) North West Services Pty Ltd
- jj) Mirthill Pty. Ltd. T/As Pat McDonnell Earthmoving
- kk) Pattel's Collinsville Transport Pty Ltd
- ll) Powerup Project Reticulation Pty Ltd
- mm) Precise Plumbing & Excavations Pty Ltd
- nn) The Trustee for The Baxter Family Trust (R.C. Baxter Grader Hire Pty Ltd)
- oo) Raymond's Truck and Plant Hire Pty Ltd
- pp) Rollers Australia Pty Limited
- qq) RPH Industries (QLD) Pty Ltd
- rr) Sarina Crane Hire Pty Ltd
- ss) Seaforth Civil Pty Ltd
- tt) Searles Transport Pty Ltd
- uu) Sherrin Rentals Pty Ltd
- vv) Talbot's Earthmoving & Bulk Haulage Pty. Ltd.
- ww) The trustee for The TFH Hire Trust T/As TFH Hire Services Pty Ltd
- xx) The Trustee for The Rob Stoneham Family Trust
- yy) Total Drain Cleaning Services Pty Ltd
- zz) B.A Holditch & T.W Holditch (Tipper Hire)
- aaa) Tutt Bryant Hire Pty Ltd
- bbb) Whitsunday Civil Pty Ltd

Refer to the following Appendices for the final listings:

- a) Appendix A – Preferred Wet Hire Panel (including rankings)
- b) Appendix B – Prequalified Wet Hire Panel; and

c) Appendix C – Prequalified Dry Hire Panel.

### **STATUTORY/COMPLIANCE MATTERS**

The Preferred/Prequalified Supplier arrangements for Wet and Dry Hire plant services is in accordance with Section 232 and 233 Local Government Regulation 2012.

### **STRATEGIC IMPACTS**

Lead and improve the organisation's procurement, property, and fleet functions across the organisation, including managing the centralised and specialised services to enable and achieve the operational and long-term objectives of Council.

### **FINANCIAL IMPLICATIONS**

The panel when awarded is based upon a schedule of rates which will allow equipment to be hired on an as required basis from available budgets.

### **CONSULTATION/ENGAGEMENT**

Executive Manager Procurement, Property & Fleet – Corporate Services  
Contracts Coordinator – Corporate Services  
Contracts Officer – Corporate Services

### **RISK ASSESSMENT**

The adoption of the recommendation report and subsequent formation of the Panels will provide Council with strong risk mitigation strategies in safety, value, and quality.

### **TIMINGS/DEADLINES**

The awarding of the panel is required to ensure the continuation of Council operations in the engagement of operational plant and fleet.

### **CONFLICT OF INTEREST DECLARATION**

Council officers contributing to the preparation and approval of this report have no conflicts of interest to declare.

### **HUMAN RIGHTS IMPACT**

No

### **ALTERNATIVES CONSIDERED**

No other options have been considered at this time. The panel approach offers the best value outcomes for Council in the current environment.

### 13.2.3 - Delegation of Authority - Chief Executive Officer Christmas Closure

**DATE:** Wednesday 8 December 2021

**TO:** Ordinary Council Meeting

**AUTHOR:** Peter Shuttlewood - Executive Manager Procurement, Property & Fleet

**AUTHORISING OFFICER:** Jason Bradshaw - Director Corporate Services

**PRESENTED FOR:** Decision

#### **ATTACHMENTS**

Nil

---

#### **PURPOSE**

To allow the Chief Executive Officer to award large-sized contracts in the period of time that Council will not be conducting scheduled Ordinary Council Meetings due to the Christmas and New Year break, noting that all contracts awarded during this time will be presented to Council for endorsement at the first meeting of 2022.

#### **OFFICER'S RECOMMENDATION**

That Council delegate to the Chief Executive Officer or Acting Chief Executive Officer if applicable, the authorisation to approve large-sized contracts for goods and services in accordance with the Local Government Regulation 2012 for the period of 9 December 2021 to the 24 January 2022.

---

#### **BACKGROUND**

Council will be holding the last Ordinary Council Meeting for 2021 on Wednesday 8 December 2021 with the first meeting in 2022 being held on Wednesday 25 January 2022. Large-sized contracts for goods and services as per the Local Government Act 2009 is defined as contracts over \$200,000 (excluding GST) that require inviting for public tender in accordance with section 228 of the Local Government Regulation 2012 unless an exemption as provided under sections 230-235 of the Local Government Regulation 2012 are determined to apply.

#### **DISCUSSION/CURRENT ISSUE**

Tenders that may be advertised and close during the Council Christmas break period, may be required to be awarded prior to the next Council meeting date. Providing the Chief Executive Officer with the authorisation to approve these large-sized contracts during this time, will ensure there are limited delays in the contract awarding process, and works can be progressed in a timely manner.

The following contracts are forecast to be at the stage of award during this period however others may be required for emergent works or emergencies.

- 500.2021.0117 Cinema Equipment Fit-Out – Proserpine Entertainment Centre (PEC)
- 500.2021.0034 Implementation of an Integrated Management System
- 500.2021.0132 Shute Harbour Marine Terminal Advertising
- Sealing of Tondara Road
- Gravel Supply for Bowen and Collinsville Depot

Other significant contracts are also closing and will likely be presented to Council at the January 2022 meeting for consideration:

- 500.2021.0103 Design and Construct - Water and Sewage Relocation Paluma to Tropic Road
- 500.2021.0130 Shute Harbour Redevelopment – Construction of Tourism and Storage Facility (TSF) Building

## **STATUTORY/COMPLIANCE MATTERS**

Section 257 *Local Government Act 2009* allows for the delegation of a local government power to the Chief Executive Officer by a resolution of Council.

Sections 228, 230-235 *Local Government Regulation 2012* outline Council's requirements regarding tenders and entering into large-sized contracts.

## **STRATEGIC IMPACTS**

Lead and improve the organisation's procurement, property and fleet functions across the organisation, including managing the centralised and specialised services to enable and achieve the operational and long-term objectives of Council.

Further, this authority will streamline processes to meet Capital Works Delivery targets and ensure budget, time, and quality is maintained across projects.

## **FINANCIAL IMPLICATIONS**

Financial Implications – any contracts awarded during this period will be in accordance with Council's 2021/2022 budget.

## **CONSULTATION/ENGAGEMENT**

Chief Executive Officer

## **RISK ASSESSMENT**

Risk Management Implications – Prior to the awarding of contracts by the Chief Executive Officer, any of the project risks will be identified and treated in accordance with contract conditions and/or specific management practices.

## **TIMINGS/DEADLINES**

The approval is required prior to the commencement of the Christmas break for 2021.

## **CONFLICT OF INTEREST DECLARATION**

Council officers contributing to the preparation and approval of this report have no conflicts of interest to declare.

## **HUMAN RIGHTS IMPACT**

No.

## **ALTERNATIVES CONSIDERED**

1. Council can always hold over the consideration and awarding of these contracts until the first meeting in January 2022, but this could also delay the timing and sequencing

of works and services in the contracts outlined for decision during that period or hold a Special Council Meeting during this stage.

2. In accordance with the Standing Orders and Meeting Procedures Policy, clause 1.3.1, Council can call a special meeting at any time to consider urgent and important matters such as Contracts if the need arises.

## 13.2.4 - Sole Source Supplier Listing - 2021/2022

**DATE:** Wednesday 8 December 2021

**TO:** Ordinary Council Meeting

**AUTHOR:** Billie Davis - Senior Commercial Officer

**AUTHORISING OFFICER:** Jason Bradshaw - Director Corporate Services

**PRESENTED FOR:** Decision

### ATTACHMENTS

1. Sole Supplier Register 2021/2022 FY [13.2.4.1 - 5 pages]
- 

### PURPOSE

To present Council with the updated listing of Sole Suppliers for consideration and approval in accordance with section 235 of the Local Government Regulation 2012.

### OFFICER'S RECOMMENDATION

That Council:

- a) Resolves in accordance with section 235(a) and 235(b) of the Local Government Regulation 2012 that it is satisfied that the nominated suppliers listed in Attachment 1 of the Report are Sole Suppliers and that they be added to the Sole Supplier Register for the 2021/22 financial year; and
  - b) Delegates authority to the Chief Executive Officer in accordance with the *Local Government Act 2009* to enter into contracts, negotiate, finalise, and execute any and all matters associated with or in relation to Sole Suppliers subject to Council's normal procurement policies and practices.
- 

### BACKGROUND

The Local Government Regulation 2012 'the Regulation' require written quotations or tenders be invited for procurement of works or the supply of goods or services that are greater than \$15,000 (medium sized contracts) or \$200,000 (large sized contracts) respectively. Council's Procurement Policy contains provisions or guidelines for obtaining quotes for less than \$15,000.

The Regulation acknowledges that there are instances when it is not always possible to meet these procurement guidelines in the market and therefore it provides a number of exceptions, including the following under Sections 235(a) and 235(b):

- s235(a) – "The local government resolves it is satisfied that there is only one supplier who is reasonably available."
- s235(b) – "The local government resolves that, because of the specialised or confidential nature of the services that are sought, it would be impractical or disadvantageous for the local government to invite quotes or tenders".

There may still be occasions where it will be necessary to present an individual Council report during the year if an unforeseen need arises for a Sole Supplier. To be listed as a Sole Supplier, Council officers must provide evidence that the supplier is the only supplier that can reasonably provide a particular good or service required. The emphasis is on the word "reasonably".

The purchase of goods and services from a sole source to support the service and maintenance of existing assets from an original equipment manufacturer who has proprietary rights can also be deemed a sole supplier.

The commentary to Section 235(a) and 235(b) of the Regulation states that this section might be applied where Council wishes to upgrade a proprietary computer software program to add functionality. There is generally only one possible supplier and the calling of tenders or quotes “would be a manifest waste of time and resources”. This interpretation of the legislation has also been used to support and validate the inclusion of a number of sole supplier recommendations with regards to ICT software.

Section 235(a) and 235(b) of the Regulation allows an exemption to inviting written quotes or tenders where Council resolves that there is only one sole/ unique supplier or a specialised supplier who is reasonably available to meet operational needs.

Sole Suppliers are used in instances where only one supplier is available due to specialised or unique services, or where services are confidential in nature that makes it disadvantageous or impractical to undertake a competitive procurement process.

## **DISCUSSION/CURRENT ISSUE**

On 30 June 2021 Council adopted the current Sole Supplier listing in accordance with Section 235 the Regulations. Every six months Council will review the listing and remove or add suppliers as required. The attached listing includes new suppliers only and no suppliers are proposed to be removed since its adoption.

There are a number of current or proposed engagements which Council is required to engaged suppliers where the stipulated legislated process for seeking quotes or tenders is not practical due to warranty, intellectual property or maintenance requirements.

The nomination of the listed suppliers as Sole Suppliers is for term of twelve months only and provides Council with the capacity to engage suppliers where it would be impractical or where others do not exist, whilst satisfying Councils legislative responsibilities.

Council has collated a listing of sole suppliers which have currently been assessed as requirements to ensure the effective operations of Council.

Council will present every six months a report on the Sole Supplier register listing to update and/or remove suppliers should they no longer be required, or no other suppliers enter the market.

## **STATUTORY/COMPLIANCE MATTERS**

Section 235 Local Government Regulation 2012  
Section 104 *Local Government Act 2009*

## **STRATEGIC IMPACTS**

Lead and improve the organisation’s procurement, property and fleet functions across the organisation, including managing the centralised and specialised services to enable and achieve the operational and long-term objectives of Council.

Support the organisation in ensuring appropriate compliance with legislation and to support the elected council in its decision-making processes and obligations as a local government.

## **FINANCIAL IMPLICATIONS**

The procurement under these arrangements will be undertaken as provided for in the budget and against operational areas as allocated. Any new arrangements will be subject to revised budget changes.

## **CONSULTATION/ENGAGEMENT**

Manager Innovation & Technology  
Executive Manager Procurement, Property & Fleet  
Chief Operating Officer Whitsunday Water  
Chief Operating Officer Aviation & Tourism  
Manager Communication and Marketing

## **RISK ASSESSMENT**

Risk assessments have been undertaken in the formation of this list noting that some procurement for proprietary systems and services will be subject to ongoing risk assessment and mitigation.

## **TIMINGS/DEADLINES**

The listing of sole and specialist suppliers will be revisited each six months to ensure ongoing and current arrangements are maintained.

## **CONFLICT OF INTEREST DECLARATION**

Council officers contributing to the preparation and approval of this report have no conflicts of interest to declare.

## **HUMAN RIGHTS IMPACT**

No.

## **ALTERNATIVES CONSIDERED**

Given the specialist nature of the procurements there are limited other options outside of recurrent and ongoing procurement process which are inefficient and as such these have not been considered.

Attachment 13.2.4.1 Sole Supplier Register 2021/2022 FY

| No | Supplier Name                          | ABN            | Description of Product/service                                                                                                                         | Justification for Sole Supplier                                     |
|----|----------------------------------------|----------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------|
| 1  | ABB                                    |                | Instrumentation (e.g. flow switches, pressure sensors, vibration sensors, etc.) & technical support for this equipment, including training.            | Water and Sewerage specialist supplier for maintenance and support. |
| 2  | Advanced Aquarium Technologies Pty Ltd | 52 105 692 028 | Maintenance and fish supply - Whitsunday Coast Airport                                                                                                 | Supplier and maintenance of aquarium                                |
| 3  | Auma Group                             |                | Decanter actuator & technical support for this equipment, including training.                                                                          | Water and Sewerage specialist supplier for maintenance and support. |
| 4  | Avdata Pty Ltd                         | 25 008 556 723 | Flight data billing and charging - Whitsunday Coast Airport                                                                                            | Airport industry recognised specialist                              |
| 5  | Burkert                                |                | Solenoids & technical support for this equipment, including training.                                                                                  | Water and Sewerage specialist supplier for maintenance and support. |
| 6  | Designa Australia Pty Ltd              | 87 160 442 062 | Car Park system maintenance - Whitsunday Coast Airport                                                                                                 | Maintenance to support currently installed infrastructure           |
| 7  | Emerson Electric Co.                   |                | Valves, actuators, regulators, positioners & technical support for this equipment, including training.                                                 | Water and Sewerage specialist supplier for maintenance and support. |
| 8  | Endress & Hauser                       |                | Instrumentation (e.g. flowmeters, nutrient analysers, turbidity analysers, etc.), reagents & technical support for this equipment, including training. | Water and Sewerage specialist supplier for maintenance and support. |
| 9  | Euro SEW                               |                | Motors & gearboxes & technical support for this equipment, including training.                                                                         | Water and Sewerage specialist supplier for maintenance and support. |
| 10 | Grant Broadcasters Pty Ltd             | 65 000 667 470 | Target marketing based on audience demographic and reach                                                                                               | Industry specialist with engagements with Tourism Whitsunday        |
| 11 | Grundfos                               |                | Dosing pumps & technical support for this equipment, including training.                                                                               | Water and Sewerage specialist supplier for maintenance and support. |
| 12 | IFM                                    |                | Instrumentation (e.g. flow switches, pressure sensors, vibration sensors, etc.) & technical support for this equipment, including training.            | Water and Sewerage specialist supplier for maintenance and support. |
| 13 | Innovative Filtration Solutions (IFS)  |                | Dewatering screw press & technical support for this equipment, including training.                                                                     | Water and Sewerage specialist supplier for maintenance and support. |
| 14 | Krohne                                 |                | Instrumentation (e.g. flowmeters) & technical support for this equipment, including training.                                                          | Water and Sewerage specialist supplier for maintenance and support. |
| 15 | KSB Pumps                              |                | Submersible pumps & technical support for this equipment, including training.                                                                          | Water and Sewerage specialist supplier for maintenance and support. |
| 16 | Lime Intelligence Pty Ltd              | 73 642 088 346 | Monthly flight data and commercial data tracking system                                                                                                | Industry specialist                                                 |

## 13.2.5 - Finance Report - FY 2021/22 - Period ending November 2021

**DATE:** Wednesday 8 December 2021

**TO:** Ordinary Council Meeting

**AUTHOR:** Julie Moller - Manager Strategic Finance

**AUTHORISING OFFICER:** Jason Bradshaw - Director Corporate Services

**PRESENTED FOR:** Information

### ATTACHMENTS

1. Monthly Financial Report November 2021 [**13.2.5.1** - 6 pages]
  2. Financial Statements for the period ending 30 th November 2021 [**13.2.5.2** - 17 pages]
  3. Capital Delivery Report as at 30 th November 2021 [**13.2.5.3** - 4 pages]
- 

### PURPOSE

To inform Councillors of Council's financial performance and position for the relevant period.

### OFFICER'S RECOMMENDATION

That Council receive the unaudited financial statements for the period ended 30 November 2021 for the Financial Year 2021/22.

---

### BACKGROUND

The financial statements are being prepared and presented in keeping with the requirements of the Local Government Act and Regulations and Australian Accounting Standards.

### DISCUSSION/CURRENT ISSUE

This report provides the estimated financial performance and position of Council for the relevant period in the current financial year.

The key financial sustainability indicators (ratios) are within acceptable and expected parameters (see Attachment 1 for more details). Council holds cash and equivalents of approximately \$78.6M, which is in excess of minimum required levels. The higher level of cash can be contributed to 1<sup>st</sup> half rates notice collections.

70% of the capital budget, totalling \$31M, has been delivered for the month of November 2021. This is a similar percentage completed for October at 71% of their respective period to date budgets.

Rates & charges owed has reduced from \$11.9M in October to \$7.3M in November. General Debtors balance is \$8.2M compared to \$7.5M the previous month. General Debtors vary depending upon when invoices have been issued within the month. Recovery measures are currently in progress through a professional debt recovery agency for both Rates and General Debtors.

Q2 Budget 10 - year long term budget packs have been opened for the period ending December 2021 and released to Responsible Officers for review, closing in early January 2022.

2020-21 Consolidated Data Collection return has been completed by all departments and sent to the Department of State Development, Infrastructure, Local Government and Planning by the due date of 19 November 2021.

2022-23 Capital bids and Fees & Charges have been opened in preparation for the 2022/23 annual budget.

Rates Water meter reading for the period ending December will commence around the 6 December. It is expected that the water accounts will be issued late January or early February 2022.

Attachment 1 contains a summary of the financial performance with commentary around key figures and indicators.

Attachment 2 contains the full set of financial statements, including notes thereto.

Attachment 3 details the capital delivery for the period.

## **STATUTORY/COMPLIANCE MATTERS**

### *Local Government Act 2009 (LGA)*

#### **152 Financial report**

- (1) The local government must prepare a financial report.
- (2) The chief executive officer must present the financial report -
  - (a) if the local government meets less frequently than monthly - at each meeting of the local government; or
  - (b) Otherwise - at a meeting of the local government once a month.
- (3) The financial report must state the progress that has been made in relation to the local government's budget for the period of the financial year up to a day as near as practicable to the end of the month before the meeting is held.

## **STRATEGIC IMPACTS**

Maximise the organisation's financial performance, achieving a high level of customer service, productivity and efficiency through strategic direction, expert advice and leadership.

## **FINANCIAL IMPLICATIONS**

Presentation of this report aligns with maintaining transparency of Council activities and financial position. It also ensures that Council is compliant with the requirements of the Local Government Act 2009.

## **CONSULTATION/ENGAGEMENT**

Director Corporate Services  
Management Accountant

## **RISK ASSESSMENT**

If actuals exceeded budget, financial risk may apply. These risks will either be managed on a project basis or through the operational arms of Council.

## **TIMINGS/DEADLINES**

Mandatory as per Section 152(2) (a) of the Local Government Act 2009.

## **CONFLICT OF INTEREST DECLARATION**

Council officers contributing to the preparation and approval of this report have no conflicts of interest to declare.

## **HUMAN RIGHTS IMPACT**

No

## **ALTERNATIVES CONSIDERED**

N/A

# FINANCIAL REPORT

**Financial Year: 2021/22**  
**Period Ending: 30 November 2021**

## BACKGROUND

This report provides the estimated financial performance and position of Whitsunday Regional Council (Council) for the relevant period in the current financial year.

## INCOME & EXPENDITURE

What was charged to our ratepayers/customers compared to what was spent in delivering our services. For the period under review, Council's operating surplus stood at just under \$3.8M, after charging depreciation (What We Set-aside for Asset Renewals) of \$11M.

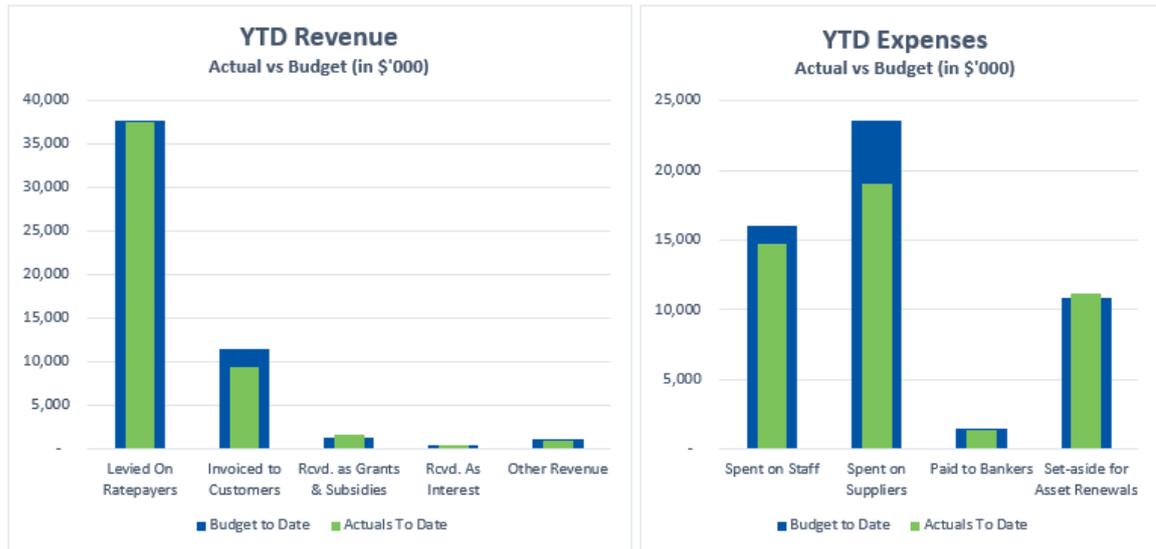

Table 1 : Statement of Income & Expenditure

| What We Spent on Our Suppliers            | 49,479,806         | 23,512,400             | 19,004,166        | 81%                     |
| <b>Our Total Direct Spend</b>             | <b>84,929,992</b>  | <b>39,545,504</b>      | <b>33,719,155</b> | <b>85%</b>              |
| What We Paid Our Bankers                  | 4,309,478          | 1,447,429              | 1,397,291         | 97%                     |
| What We Set-aside for Asset Renewals      | 28,627,639         | 10,883,040             | 11,170,582        | 103%                    |
| <b>Our Operating Surplus/(Deficit)</b>    | <b>6,018,908</b>   | <b>70,863</b>          | <b>3,794,502</b>  | <b>5355%</b>            |
| Our Capital Revenue                       | 75,015,560         | 36,534,725             | 19,296,826        | 53%                     |
| Our Capital Expenses                      | 21,839,062         | 16,210,318             | 467,772           | 3%                      |
| <b>Our Capital Surplus/(Deficit)</b>      | <b>53,176,498</b>  | <b>20,324,406</b>      | <b>18,829,054</b> | <b>93%</b>              |
| <b>Our Net Earnings</b>                   | <b>59,195,406</b>  | <b>20,395,269</b>      | <b>22,623,556</b> | <b>111%</b>             |

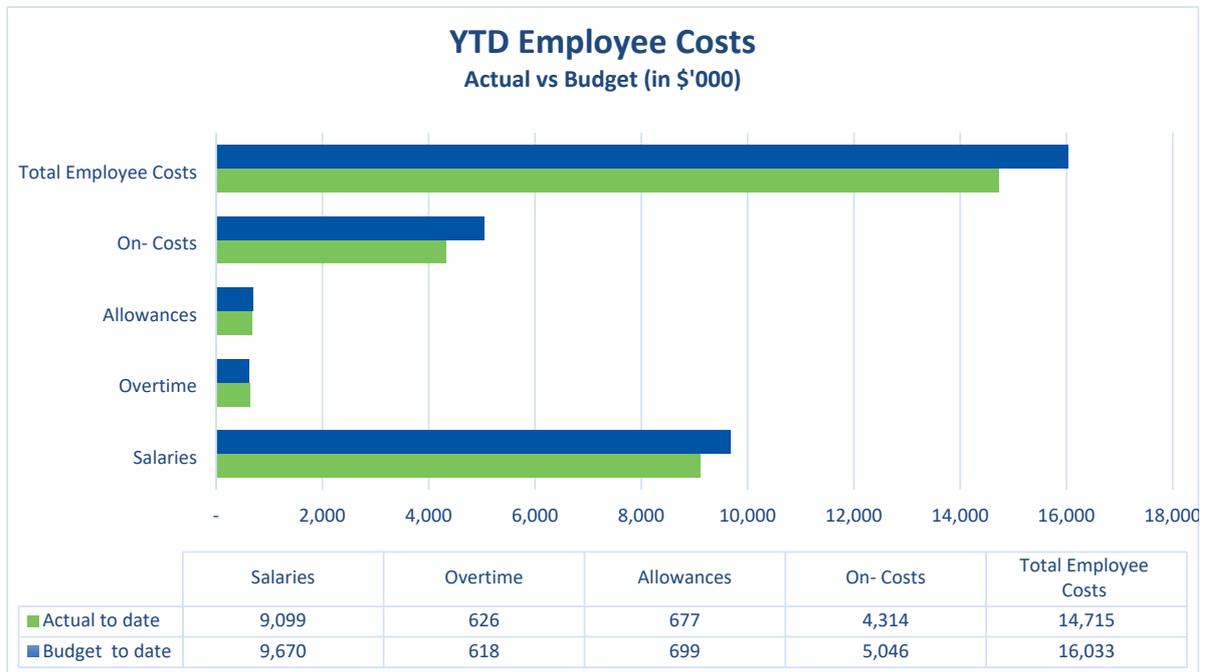

- Total Recurrent Earnings is almost on target against period to date budget for 2021/22.
- Total direct spend is below YTD budget due to current vacancies in staff and under spend in materials and services (\$4.5M). This will be monitored at each quarterly review and depends upon when operational projects are scheduled to commence. This is comparable to our prior year spend for the period.
- The net result of these variations is that the Operating Surplus is above budget by around \$3.8M. which is primarily due to the underspend in materials & services.

Attachment 13.2.5.1 Monthly Financial Report November 2021

Additional details of revenue and expenditure and their comparison to budget are graphically presented below:

Employee costs continue to be monitored each pay period and the current vacancies continue to be managed in line with planned needs and in conjunction with the new Workforce Plan. Certified Agreement negotiations are ongoing although not expected to be concluded until 2022.

**COMMUNITY WEALTH**

The value of resources Council has, to service our community. Net Community wealth at the end of the period stood marginally over \$1.18B.

Table 2 : Statement of Financial Position

| Bowen STP 20/21       | 1.80% | 5,336,203         |
| <b>TOTAL</b>          |       | <b>77,535,554</b> |

| What We Have Available to Borrow |       |                   |
|----------------------------------|-------|-------------------|
| Facility                         | Rate  | Limit             |
| Working Capital Facility         | 0.10% | 20,000,000        |
| Term Loans                       |       | -                 |
| <b>TOTAL</b>                     |       | <b>20,000,000</b> |

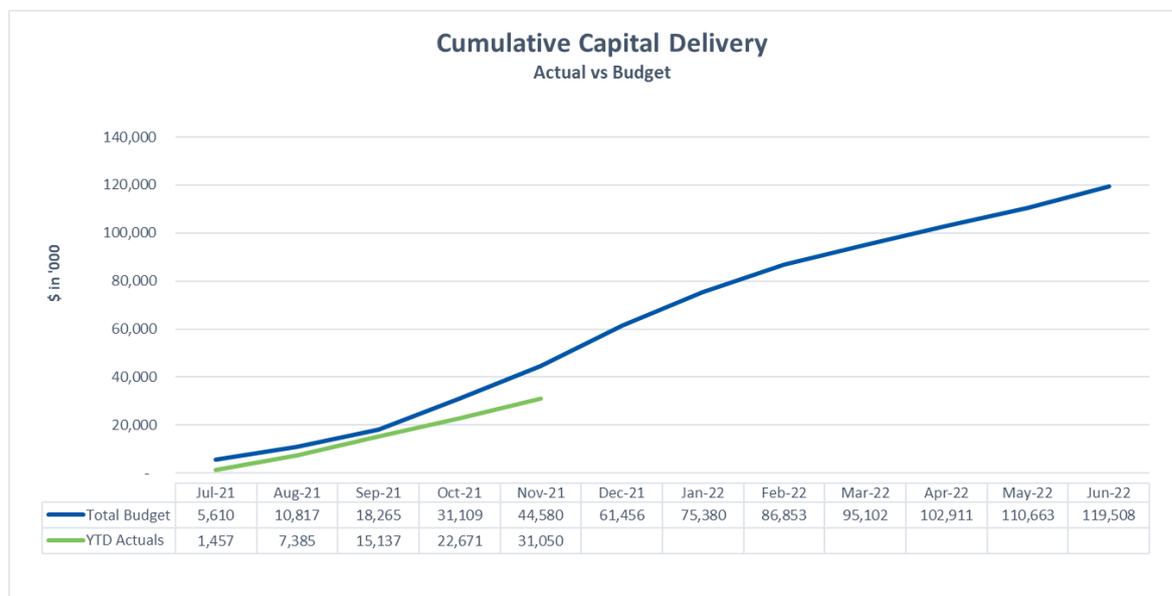

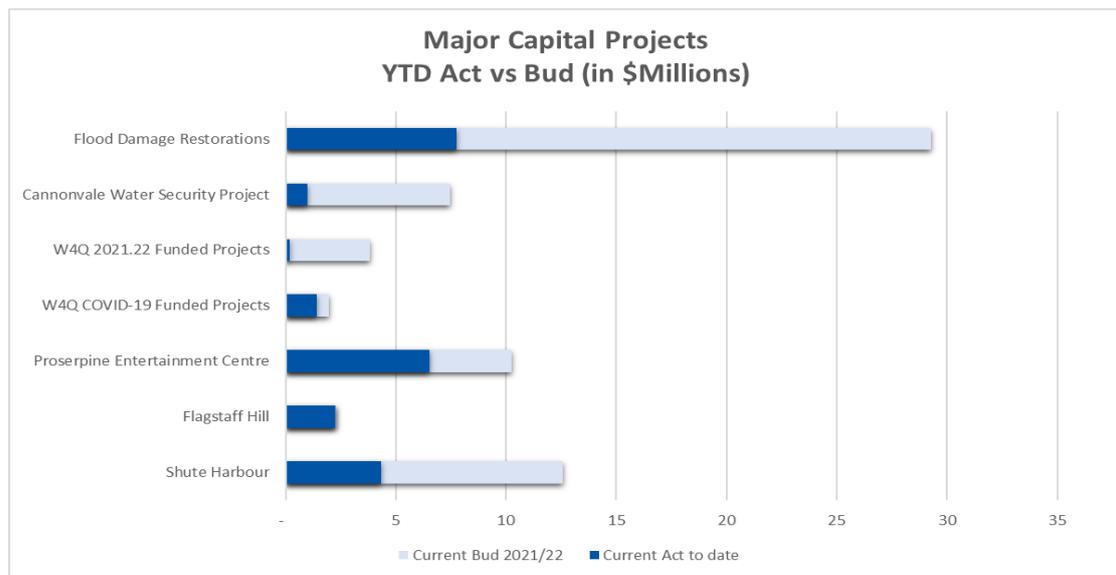

- Rates & charges outstanding have reduced from \$11.9M in October to \$7.3M in November. General Debtors balance is \$8.2M compared to \$7.5M the previous month. General Debtors vary depending upon when invoices have been issued within the month. Recovery measures are currently in progress through a professional debt recovery agency for both Rates debtors and General debtors.

Investments

|                                 | Prev. Yr   | Current    |
|---------------------------------|------------|------------|
| Queensland Treasury Corporation | 78,617,064 | 78,640,373 |

- All excess cash is invested with Queensland Treasury Corporation (QTC), as QTC has been providing the best returns among the acceptable counterparty institutions.

**CAPITAL DELIVERY**

- \$31M or 70% of the planned YTD capital budget of \$44.6M has been delivered up to 30 November 2021. Cash forecasts have been reset based on budget review 1 and included carry over projects.

**FINANCIAL CAPACITY**

These Ratios indicate Council’s financial capacity to fund operations and repay debt obligations, in the short to the medium term. All ratios are within the acceptable ranges.

| <p><b>OPERATING SURPLUS RATIO</b></p>                                                                                       | <p><b>NET FINANCIAL LIABILITIES RATIO (ADJUSTED)</b></p>                                   | <p><b>INTEREST COVERAGE RATIO</b></p>                                            | <p><b>ASSET SUSTAINABILITY RATIO</b></p>                                                              |
|-----------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------|
| <p><i>Net Operating Surplus/(Deficit) divided by Total Operating Revenue</i></p>                                            | <p><i>Total Liabilities less Current Assets divided by Total Operating Revenue</i></p>     | <p><i>Net Interest Expense divided by Total Operating Revenue</i></p>            | <p><i>Expenditure on Replacement Assets divided by Depreciation Expense</i></p>                       |
| <p><b>Target:</b> 0 - 10%<br/><b>Nov Act:</b> 7.58%<br/><b>Budget:</b> 0.37%</p>                                            | <p><b>Target:</b> &lt; 60%<br/><b>Nov Act:</b> 35.10%<br/><b>Budget:</b> 20.29%</p>        | <p><b>Target:</b> &lt; 5%<br/><b>Nov Act:</b> 1.77%<br/><b>Budget:</b> 1.42%</p> | <p><b>Target:</b> Avg. 90%<br/><b>Nov Act:</b> 170.17%<br/><b>Budget:</b> 256.40%</p>                 |
| <p>Due to the Operating Surplus being above budget, this ratio is well above budget, but still within the target range.</p> | <p>Above budget and maintained at a steady level below the maximum recommended levels.</p> | <p>Well below the recommended maximum threshold and in line with budget.</p>     | <p>Will continue to remain above target levels due to continuing substantial reconstruction work.</p> |

**BUDGET ACHIEVEMENT**

Council's ability to meet annual budgeted revenue, contain costs within budgeted expenditure parameters and manage cash flows.

| Item                 | Prev. Yr<br>Act vs Bud | Curr. Yr. to date | Flag                                                                                |
|----------------------|------------------------|-------------------|-------------------------------------------------------------------------------------|
| Our Earnings         | 103%                   | 37%               |  |
| Our Expenditure      | 98%                    | 35%               |  |
| Our Capital Delivery | 97%                    | 70%               |  |
| Our Cash on Hand     | 100%                   | 128%              |  |

- All critical indicators are within expected ranges as at 30 November 2021, Capital delivery is still below projected monthly spend and this is set to improve as major projects are finalised towards the end of the calendar year and early 2022.

**OTHER MATTERS**

- Q2 Budget – 10 - year long term budget packs have been opened for the period ending December 2021 and released to Responsible Officer for review, closing by early January 2022.
- 2020/21 Consolidated Data Collection return has been completed by all departments and sent to the Department of State Development, Infrastructure, Local Government and Planning by the due date of 19 November 2021.
- 2022/23 Capital bids and Fees & Charges have been opened in preparation for the 2022/23 annual budget workings.
- Rates Water meter reading for the period ending December will commence around the 6 December. It is expected that the water accounts will be issued late January or early February 2022.
- A submission was provided to the State Government's discussion paper on the 'Sustainability Framework' with commentary focused on effectiveness of the measures and comparative groupings of Councils in addition to the need for additional time for implementation to be considered.

## 13.2.6 - Corporate Services Monthly Report - November 2021

**DATE:** Wednesday 8 December 2021

**TO:** Ordinary Council Meeting

**AUTHOR:** Stacie Thomas - Administration Coordinator - Corporate Services

**AUTHORISING OFFICER:** Jason Bradshaw - Director Corporate Services

**PRESENTED FOR:** Information

### ATTACHMENTS

1. Corporate Services Monthly Report November 2021 [13.2.6.1 - 22 pages]
- 

### PURPOSE

To provide an overview the Corporate Services Directorate for the month of November 2021.

### OFFICER'S RECOMMENDATION

That Council receive the Corporate Services Monthly Report for November 2021.

---

### BACKGROUND

The Corporate Services Directorate provides leadership to support the service delivery arms of Council through organisational support to the functions of Finance and Asset Management, Procurement, Fleet, Property and Facilities, Information, Communications and Technology, Information Management and Governance and Administration.

### DISCUSSION/CURRENT ISSUE

The month of November 2021 sees the commencement of new year preparations from a financial perspective with the second Budget Review work commencing and the planning for the 2022/23 budget underway. Finance staff are busying with the end of year works being completed and payments looking to be made in a timely manner as we head into the Christmas – New Year break.

The first budget review was adopted in November by Council, and this has been communicated across Council with changes in capital carryover forecast into the annual capital planning and cashflow forecasting revisited to better match the planned progress over the balance of the financial year. Outstanding rates and charges continue to be actioned and those debts where payment arrangements have failed or ceased will be taken to the next stage of the recovery process. Rates staff are preparing for the next water billing cycle, with reading to commence in mid-December, and billing scheduled to be sent in February 2022.

While procurement training has been a focus over the last few months, there is also increasing activity of this team with a significant number of tenders currently released to market or under assessment. While some will be completed in the period to Christmas, other will be considered and determined into the new year.

The Innovation and Technology team continue to deliver outcomes across Council, with the Asset Management Governance Review completed and an action plan developed for implementation. This work will be overseen by the Asset Management Steering Committee

and any matters required further input will come through to the CEO and Council as required. This is a significant step forward in simplifying and consolidating the efforts right across Council. The Bowen Boardroom has also seen a technology upgrade to utilise the same systems as the Proserpine Boardroom to improve live-streaming and video-conferencing capability.

The Audit and Risk Committee met during the month with a focus on internal reports and progress being made on key initiatives that are underway. The Committee has recently been through an external review and a number of improvements will continue to be pursued over the coming 12 months, noting that the Committee has been working at a mature level with a comprehensive oversight of the organisation and its performance.

A Governance Review has been completed and an improvement plan has been developed to chart the priorities for the coming 12 months and beyond to ensure a structured approach to compliance and performance and improved internal support and processes to support decision making at all levels across Council.

Time was directed this month to drafting a response to the State Government's 'Local Government Sustainability Framework' discussion paper which identifies a new framework to assess local Councils in respect of financial and asset sustainability ratios against a set of agreed principles and benchmarked with other local governments. Council offered commentary on alternate ways Councils could be grouped and additional measures that could be considered. Overall, the timing for any changes should be extended a further 12 months to allow additional time for preparing audit and data requirements to ensure a successful commencement in 2023/24 year. Council shared its submission with our neighbours in the Greater Whitsunday Council of Mayors (GMCoM).

## **STATUTORY/COMPLIANCE MATTERS**

This report is provided to support enhanced transparency and accountability in accordance with the local government principles outlined in the Local Government Act 2009.

## **STRATEGIC IMPACTS**

Maximise the organisation's financial performance, achieving a high level of customer service, productivity and efficiency through strategic direction, expert advice and leadership.

## **FINANCIAL IMPLICATIONS**

Managed within existing budget allocations as amended.

## **CONSULTATION/ENGAGEMENT**

Director Corporate Services  
Executive Manager of Procurement & Assets  
Team Leader Operational Accounting  
Rates Coordinator  
Assets and Project Management Coordinator  
Information Technology Manager  
Manager Governance & Administration  
Manager Strategic Finance

## **RISK ASSESSMENT**

Regular reporting on the Department's progress and achievements ensures accountability and fosters a positive culture, whilst managing identified corporate risks.

## **TIMINGS/DEADLINES**

The deadlines for reports have meant that some information will be provided in the January Report to cover both November and December 2021.

## **CONFLICT OF INTEREST DECLARATION**

Council officers contributing to the preparation and approval of this report have no conflicts of interest to declare.

## **HUMAN RIGHTS IMPACT**

No

## **ALTERNATIVES CONSIDERED**

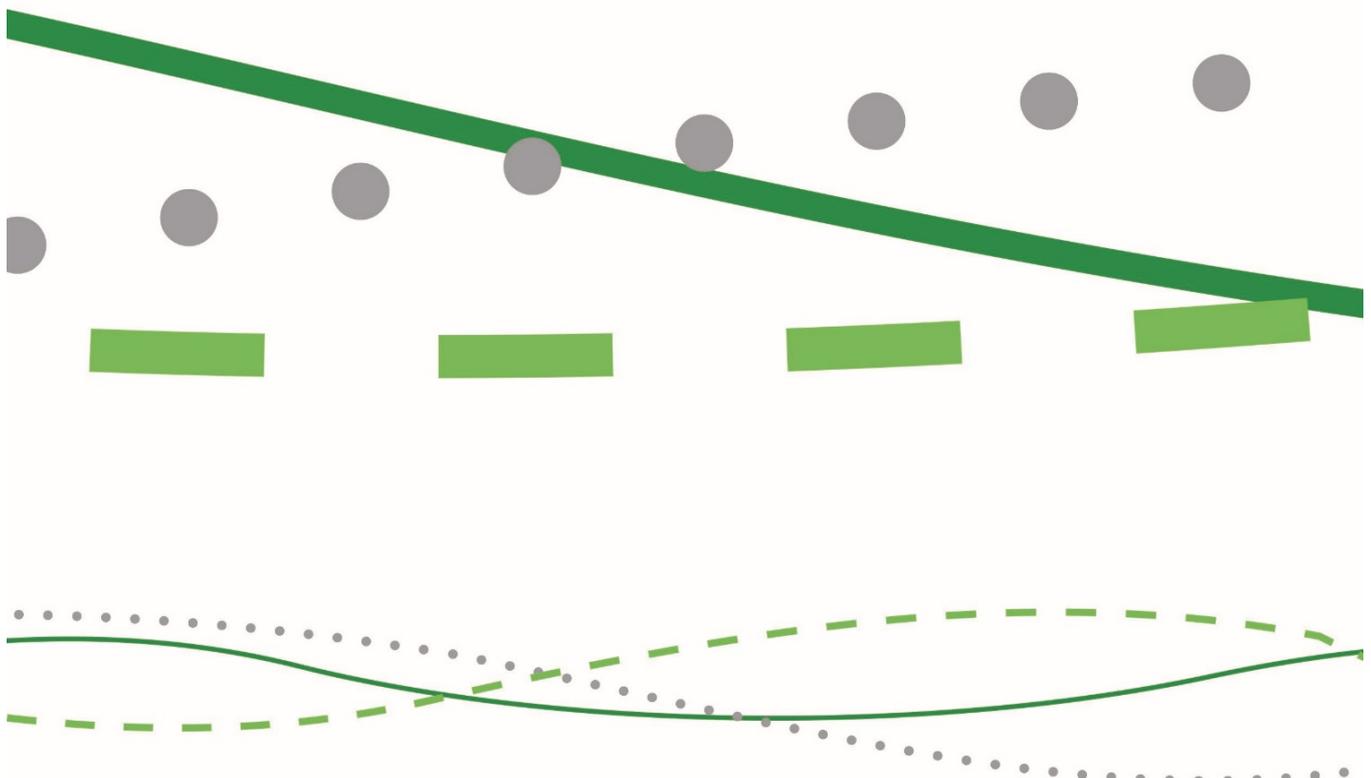

N/A

## CORPORATE SERVICES

Information Technology  
Information Management  
Strategic Finance  
Project and Asset Management  
Procurement  
Property & Facilities  
Fleet Management  
Governance and Administration

## Directors Report

The month of November 2021 sees the commencement of new year preparations from a financial perspective with the second Budget Review work commencing and the planning for the 2022/23 budget underway. Finance staff are busying with the end of year works being completed and payments looking to be made in a timely manner as we head into the Christmas – New Year break.

The first budget review was adopted in November by Council, and this has been communicated across Council with changes in capital carryover forecast into the annual capital planning and cashflow forecasting revisited to better match the planned progress over the balance of the financial year. Outstanding rates and charges continue to be actioned and those debts where payment arrangements have failed or ceased will be taken to the next stage of the recovery process. Rates staff are preparing for the next water billing cycle, with reading to commence in mid-December, and billing scheduled to be sent in February 2022.

While procurement training has been a focus over the last few months, there is also increasing activity of this team with a significant number of tenders currently released to market or under assessment. While some will be completed in the period to Christmas, other will be considered and determined into the new year.

The Innovation and Technology team continue to deliver outcomes across Council, with the Asset Management Governance Review completed and an action plan developed for implementation. This work will be overseen by the Asset Management Steering Committee and any matters required further input will come through to the CEO and Council as required. This is a significant step forward in simplifying and consolidating the efforts right across Council. The Bowen Boardroom has also seen a technology upgrade to utilise the same systems as the Proserpine Boardroom to improve live-streaming and video-conferencing capability.

The Audit and Risk Committee met during the month with a focus on internal reports and progress being made on key initiatives that are underway. The Committee has recently been through an external review and a number of improvements will continue to be pursued over the coming 12 months, noting that the Committee has been working at a mature level with a comprehensive oversight of the organisation and its performance.

A Governance Review has been completed and an improvement plan has been developed to chart the priorities for the coming 12 months and beyond to ensure a structured approach to compliance and performance and improved internal support and processes to support decision making at all levels across Council.

Time was directed this month to drafting a response to the State Government's 'Local Government Sustainability Framework' discussion paper which identifies a new framework to assess local Councils in respect of financial and asset sustainability ratios against a set of agreed principles and benchmarked with other local governments. Council offered commentary on alternate ways Councils could be grouped and additional measures that could be considered. Overall, the timing for any changes should be extended a further 12 months to allow additional time for preparing audit and data requirements to ensure a successful commencement in 2023/24 year. Council shared its submission with our neighbours in the Greater Whitsunday Council of Mayors (GMCoM).

Further submissions are being worked on for completion by mid to late December 2021.

The Department continues to work towards delivering better solutions to ensure efficient and effective support to the operational and service delivery departments of Council.

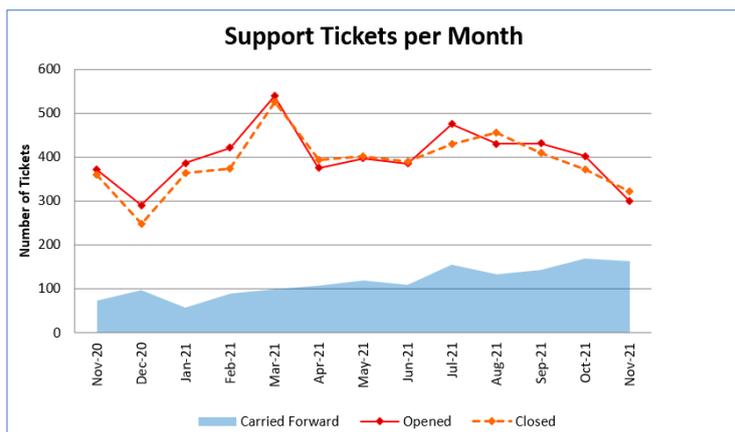

**Jason Bradshaw**

| This project aims to modernise the recordkeeping systems to improve usability and compliance across the organisation. |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| <b>Review and recommendation</b>                                                                                      | Investigation of available systems against Council's current applications architecture and functionality. A business requirements specification report has been reviewed by the ICT Governance committee and progressed to undertaking a proof of concept of the preferred solution. Proof of concept is complete with findings and recommendation to go to the January ICT Governance/Steering Committee. Approval provided to commence project. Planning activities commenced on the new records system and procurement underway. Detailed review completed of requirements for extraction of records from existing records system. Finalising procurements and plans with vendors. |

| <b>Name and Address Data Improvement Project</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                           |                                                                                                                                   |

| This project aims to implement software that will improve the quality of customer and address data captured and maintained in Council's systems. It does this by forcing validation on addresses when they are entered, running processes to identify duplicate records, and facilitating merging, standardizing the method of data presentation, and adding addition checks to prevent duplicate data entry. This will improve customer experience as we will have better quality information available for communication and reduce administrative overhead as we will spend less time fixing incorrect address details. |                           |                                                                                                                                   |
| <b>NAR data formatting cleanse</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                           |                                                                                                                                   |

The Geographic Information Systems strategic review to drive organisational direction in spatial systems and information is completed. The GIS team focus is developing a new spatial layer catalogue, updating the road register with the Road design team, and finalising mapping amendments for the town planning scheme.

The records team has focussed on procurement and planning activities for the SharePoint records system project and making improvements in operational processes for customer requests and some licensing modules.

| Update Queensland Treasury Corporation (QTC) Financial Forecast Model to ensure Council maintains its 2020 credit rating of Moderate with a Neutral outlook.                                                                                                                                                                                                                                                                                          |        | QTC financial forecast model updated September 2021.                                 |

The annual financial statements audit plan will be submitted to the Audit Committee Meeting early in 2022.

### Budgeting

#### 2021/22 Budget

Q2 Budget – 10 - year long term budget packs have been opened for the period ending December 2021 and released to Responsible Officer for review, closing by early January 2022.

### Borrowings & Treasury Management

All non-operating cash is invested with the Queensland Treasury Corporation (QTC).

QTC has completed the review of Council's Credit Review and Council has retained its rating of "Moderate" with a "Neutral" outlook. QTC financial forecast model was completed by Council in October.

### Systems

In keeping with the action identified in the Operational Plan, automation of the Accounts Payable function to align with the federal government's Digital Business Plan, and the ATO requirements of being compliant with the PEPPOL e-invoicing standard will be progressed during the first half of the financial year.

### Debtor Management

Note: The above amounts are net of rates credits.

Council will continue to receive and assess any payment arrangements that may be proposed by ratepayers.

Water meters are being read in December and accounts will be issued in February 2022. Second half of the annual rates notices will be also issued in early February 2022 with a 40-day discount period allowed.

Infringement Debtors

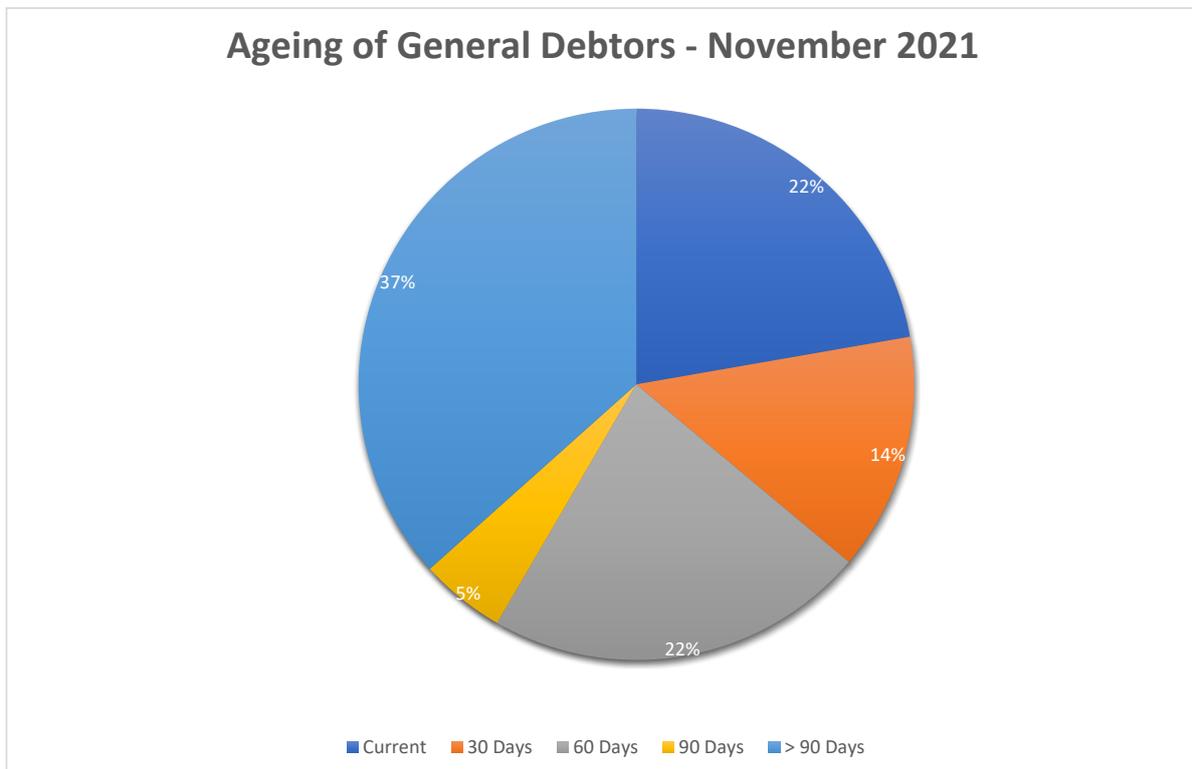

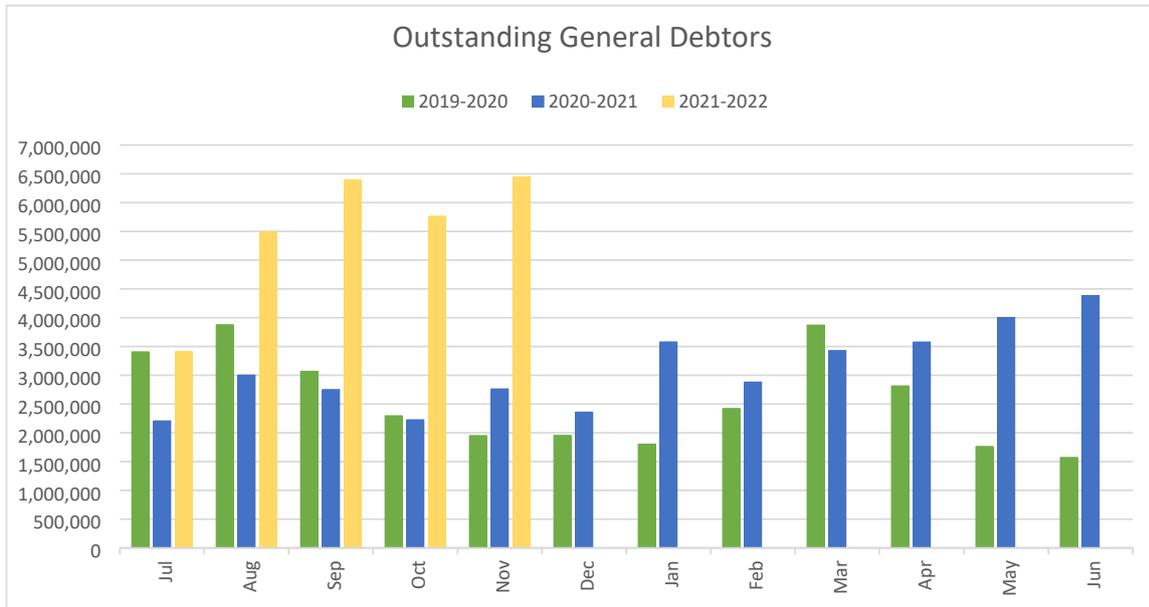

Collection of overdue infringement debtors is a long-drawn-out process through the State Penalties Enforcement Register (SPER). Director of Communities and Environment submitted a report to Council where Council have approved the write-off of the long outstanding SPER accounts held in the register. Most of the write-offs have been completed in the registers which was funded out of the provisions taken up through the audit process.

General Debtors

Full provision was made in the financial statements of 2020-21 for the debts owed to Council from the Virgin Australia Group (including Tiger Airways), prior to the organisation going into receivership. Council continues to liaise with the administrators on these debts, but no specific information has been received from the administrators (Deloitte Touche Tohmatsu Limited) to date on the likely payout to unsecured creditors.

# Asset Management

## Capitalisation

Capitalisations, including incorporation of contributed and found assets, have recommenced for the year 2021-22 with \$7,596,994 being capitalised to date, with \$2,279,372 of assets resulting from new and renewed asset from Capital Projects. \$13,093 was capitalised from projects as the concentration of November's work was on Contributed Developments and found assets.

| Recognition Type | Capital Value       |
|------------------|---------------------|
| New Assets*      | 1,918,554.67        |
| Renewals*        | 360,817.61          |
| Found            | 993,749.73          |
| Contributed      | 4,323,871.88        |
| <b>Total</b>     | <b>7,596,993.89</b> |

\*Total Capitalised below

## Capital Project Delivery

As at end November 2021, capital delivery progress was as follows:

|                                 |             |
|---------------------------------|-------------|
| 2022 Current Budget             | 119,508,155 |
| Original Budget deliverable YTD | 44,579,827  |
| Value of Capital Delivered *    | 31,049,407  |
| % Of YTD Budget                 | 70%         |

\*Actual expenditure excludes commitments.

## Asset Management Improvement Program

The Asset Management Improvement Program (AMIP) based on three separate studies undertaken by external consultants (as below). Each study involved extensive engagement with stakeholders.

- AM Maturity Assessment - G7 Asset management
- GIS Systems - Insight GIS
- AM Systems Review - Strategic Directions

AMIP constitutes a program of work of 26 action items covering the five key areas of Governance, Process, Data, Staffing, & Technology. The program has been divided in to three phases (the last phase may see further sub-division) stretching over two financial years.

| Phase        | Gov.     | Process  | Data     | Staffing | Tech.    | Total     | Broad Timeframes           |
|--------------|----------|----------|----------|----------|----------|-----------|----------------------------|
| 1A           | 2        | 2        | 0.5      | -        | -        | 5         | 3 Months (Jul - Sep 21)    |
| 1B           | 1        | 2        | 2.5      | 2        | -        | 7         | 9 Months (Oct 21 - Jun 22) |
| Subsequent   | 3        | 4        | 3        | 2        | 2        | 14        | 12 Months (FY 2022-23)     |
| <b>Total</b> | <b>6</b> | <b>8</b> | <b>6</b> | <b>4</b> | <b>2</b> | <b>26</b> |                            |

Progress on the above actions will be reported through this report, over the next 2 years.

### AMIP Progress to Date

#### AM Maturity Assessment - G7 Asset management

G7 is currently engaged to work on the Strategic Asset Management Plan (SAMP) which is currently being merged with works from Strategic Directions. This work is still currently in progress.

#### GIS Systems - Insight GIS

The Insight GIS System report will be presented to the next ICT Committee on the 2<sup>nd</sup> of December.

#### AM Governance and Systems Review – Strategic Directions

The Asset Management Governance Report was presented to ELT and Council will be scheduled in November. Additional works with Communities and Fleet were scheduled in November.

## Valuation Plans

Council is currently reviewing a four-year rolling valuation plan, which encompasses condition ratings, and valuations on Council assets over a four-year period to meet requirements from Local Government Regulations 2012, and Australian Accounting Standards.

This plan also is also beneficial due to provide:

- Pre-cyclone evidence for Disaster Relief Funding Arrangement Claims,
- Asset Conditions for renewal and upgrade budgets,
- Valuations.

## Lease Update

During the month of November 2021, Council continued to finalise the leases for the Shute Harbour Marine Terminal. The leases commence on the 01 December 2021.

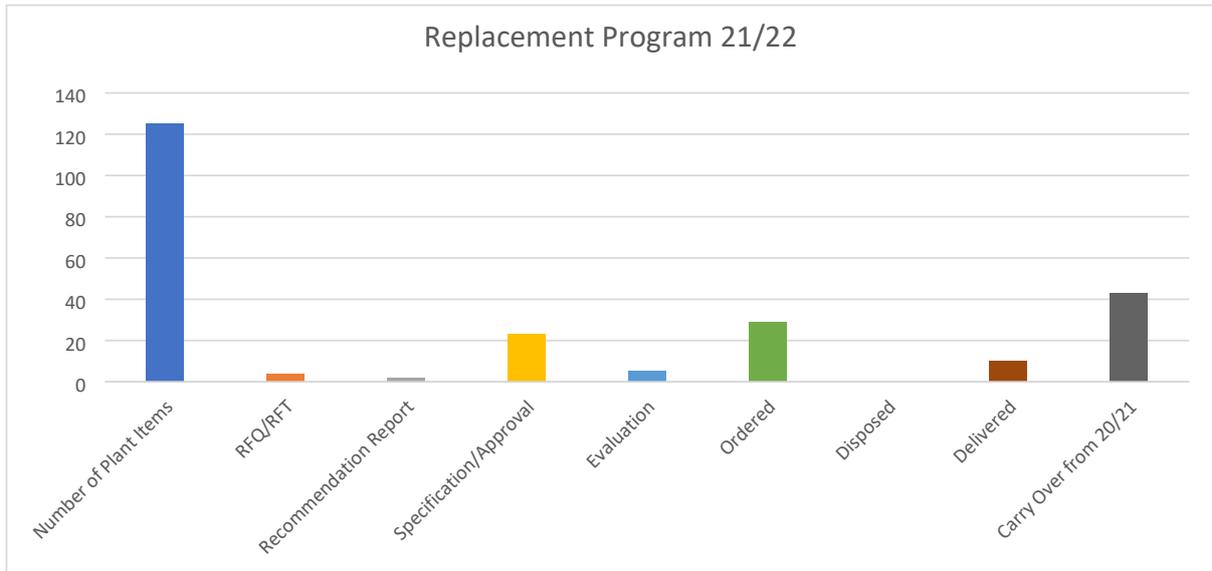

A lease with the State Government of Queensland was finalised for the installation of a new telecommunications shed at the Water Reservoir in Bowen. This will see more emergency services telecommunication infrastructure being built to improve their services within the region.

Council is currently under negotiations for an agistment lease at the Collinsville Aerodrome that was awarded through a tender process.

# Fleet Management

## Fleet Replacement Program

## Preventative Maintenance

# Governance & Administration

---

## Policy Framework Review

The Governance team has been working with the middle management group and executive leadership team to review the policy framework. Internal workshops and discussion papers have been prepared to encourage an open and proactive approach to identifying issues and developing policy framework. Once consultation is complete, a paper will be submitted to Council.

## Strategic Internal Audit Plan Review

Through the Audit and Risk Committee, the Governance team has been working with the Internal Auditors to review the Committee's priority guide for the 2022 calendar year. The priority guide has been reviewed and updated to capture any actions arising from reports to the Committee, and from the independent review conducted on the Audit and risk Committee meeting.

In addition, the governance team has assisted the Internal Auditors to develop and review the Strategic Internal Audit Plan (1 January 2022 to 31 December 2024), including a detailed Annual Internal Audit Plan for the calendar year ending 31 December 2022. The Strategic Audit Plan covers a three-year period, however, is reviewed and revised annually to ensure it remains consistent. The internal audit planning process provides a multitude of benefits to Council. Much of the risk assessment phase during planning identifies key risks that may or may not have been addressed already. Fine-tuning the internal audit planning process year after year can expose risks that pose a major threat to Council. The planning phase is also an opportunity to alert executive management of these risks and communicate the audit plan so that business and strategic objectives remain aligned. Effective internal audit planning can significantly reduce inefficiencies in the execution of the audit later down the line and in turn decrease costs. Spending the time to establish a clear audit plan enhances the purpose and objective of the audit engagement.

## Governance Framework Development

To ensure the level of consistency required, excellence in governance needs to be based on several principles and practices that emphasise clarity of goals, ownership of processes, opportunity to participate, goodwill, roles and relationships and accountability. To this effect the Governance team is in the process of developing a Governance Framework. The purpose of this document is to bring together the major processes, systems, roles and relationships that are involved in governance at Whitsunday Regional Council. It underpins the confidence people can have in the way the Council leads and can be used for a variety of purposes such as:

- it provides the community with an insight into the complexities of local government and the role of Councillors
- it affirms good governance principles that are integral to Council and the Administration
- it provides an addition to the induction kit for new Councillors

This framework draws on the legislative requirements, strategic direction, and organisational culture that the Council operates in accordance with, to create standard principles of corporate governance. These standard principles of corporate governance guide Elected Members and staff in their decision making and service delivery. This document functions as an overarching framework for good governance. The framework will be presented to Council for endorsement and will reflect the practices and principles Elected Members and staff will adhere to when making decisions and delivery services. The proposed framework reinforces and expands on legislative requirements, policy statements and established practices.

Statistics for the month were as follows:

15. State Interest Review Local Area Plans Memo [13.3.1.15 - 9 pages]

#### PURPOSE

The purpose of this report is for Council to consider policy positions in response to advice from the state interest review of the Planning Scheme Major Amendment and endorse public consultation as the next step subject to Ministerial approval.

#### OFFICER'S RECOMMENDATION

That Council:

- (a) review and consider policy amendments within the proposed Planning Scheme Major Amendment V4.1;
- (b) adopt the policy positions outlined in this report in response to State Interest Review (SIR) comments;
- (c) endorse the proposed Major Amendment Package and Administrative Local Government Infrastructure Plan Amendment V4.1 of the Planning Scheme;
- (d) endorse the Administrative Amendments in V4.1, including:
  - i. removal of Climatic Regions mapping;
  - ii. include Walkable Neighbourhoods regulation; and
  - iii. include New Telecommunications Requirements;

- (e) give notice in accordance with Chapter 2, Part 4, Section 17.4 of the Ministers Guidelines and Rules 2020 to the Minister to advise of the amendments to the proposed Planning Scheme Major Amendment V4.0;
  - (f) provide the Minister with the proposed Major Amendment Package and Administrative Local Government Infrastructure Plan Amendment V4.1 of the Whitsunday Planning Scheme 2017;
  - (g) provide the Minister with timestamped mapping of the proposed Planning Scheme Major Amendment V4.1;
  - (h) provide the Minister with any other material required in accordance with the requests from the First and Second Notices dated 19 July 2021 and 15 October 2021;
  - (i) endorse the proposed Planning Scheme Major Amendment V4.1 for public consultation, subject to Ministerial Approval (provided no further policy amendments are required), to commence no earlier than Monday 31 January 2022 in accordance with the Community Engagement Plan V1.2 and the Minister's Guidelines and Rules V1.1; and
  - (j) inform the community of the proposed Planning Scheme Major Amendment V4.1 prior to the public consultation period formally commencing.
- 

## **BACKGROUND**

On 11 October 2017, Council resolved to make a Major Amendment to the Whitsunday Planning Scheme 2017. Council endorsed the proposed Planning Scheme Major Amendment V4.0 ("MAV4.0") and associated documents ("Major Amendment Package") for State Interest Review ("SIR") on 24 March 2021. Since then, workshops with State Departments have been undertaken to ensure state interests are met.

## **DISCUSSION/CURRENT ISSUE**

The Department of State Development, Infrastructure, Local Government and Planning ("DSDILGP") has requested amendments to the MAV4.0 in accordance with Chapter 2, Part 4, Section 17.3 of the MGR. The MAV4.0 has been revised to appropriately address state interests, as per DSDILGP advice dated 19/07/21 & 15/10/21, refer to **Attachment 2 & 3**.

Council received advice during the State Interest Review and worked with State Departments to ensure all amendments were clear and transparent. The first revision was sent in September and a copy is attached for transparency, refer to **Attachment 6**. The final document detailing this work is called 'DSDILGP State Interest Review comments v2.2 16112021' **Attachment 4**.

The final recommended variations to the MAV4.0 are summarised in **Attachment 1**, these include policy, administrative amendments and mapping amendments to ensure state interests are met.

These amendments constitute a version update to the document and, as such, the MAV4.0 has been updated to proposed Planning Scheme Major Amendment V4.1 (MAV4.1) **Attachment 5**, to ensure no confusion.

## Additional Information

Additional information requested by DSDILGP includes the following:

- (a) A cover letter to the DSDILGP **Attachment 7**;
- (b) A complete list of all zone amendments (one zone request is not supported and was removed – Cnr Banksia Ct & Shute Harbour Rd, Cannonvale) **Attachment 8**;
- (c) An assessment of the amendment against the Mackay, Isaac and Whitsunday Regional Plan 2012 **Attachment 9**;
- (d) An amended Community Engagement Plan (V1.2) – considering revised timeframes and additional consultation, if required **Attachment 10**; and
- (e) Additional supporting information justifying amendments outlined in DSDILGP State Interest Review comments v2.2 16112021' **Attachments 11-15**.

## **STATUTORY/COMPLIANCE MATTERS**

Planning Act 2016

Ministers Guidelines and Rules 2020

State Planning Policy 2017

## **STRATEGIC IMPACTS**

Provide a consistent and transparent strategic framework and direction for the development industry and community.

## **FINANCIAL IMPLICATIONS**

Project can be managed within current budget and resources.

## **CONSULTATION/ENGAGEMENT**

Manager Strategic Planning

Manager Development Assessment

Coordinator Natural Resource Management & Climate

Department of Transport & Main Roads

Department of State Development Infrastructure Local Government & Planning

## **RISK ASSESSMENT**

The risks of not endorsing the MAV4.1 are many and varied. The immediate risks include:

1. There may be financial implications to applicants and developers from delays in the amendments to the Planning Scheme to improve workability, triggering of reporting, and deletion of unnecessary requirements for developments.
2. The Region may not evolve and adapt, if the governing document for development, the Planning Scheme, is outdated.
3. Amended hazard mapping, such as flood and landslide, must be updated to ensure the safety of our community.
4. The Planning Scheme must be updated to ensure the most up to date information is used in hazard assessment, environmental overlays and to ensure the most up to date methods are used in the development of high-risk developments near the Great Barrier Reef, e.g.: the implementation of the Healthy Waters Code to improve the quality of the stormwater in the Region.

5. The Planning Scheme requires updates to keep the document compliant with the Planning Act 2016 and relevant for the community.

### **TIMINGS/DEADLINES**

N/A

### **CONFLICT OF INTEREST DECLARATION**

Council officers contributing to the preparation and approval of this report have no conflicts of interest to declare.

### **HUMAN RIGHTS IMPACT**

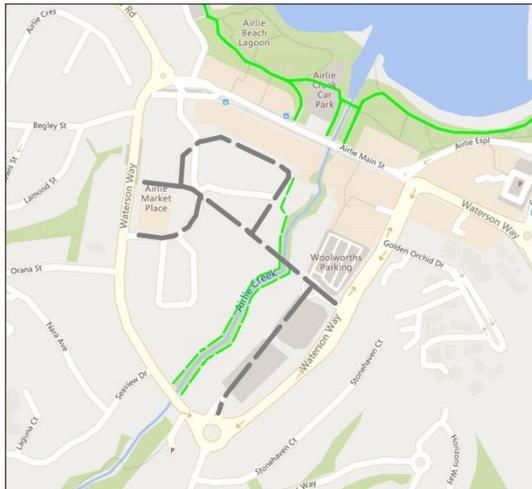

No

### **ALTERNATIVES CONSIDERED**

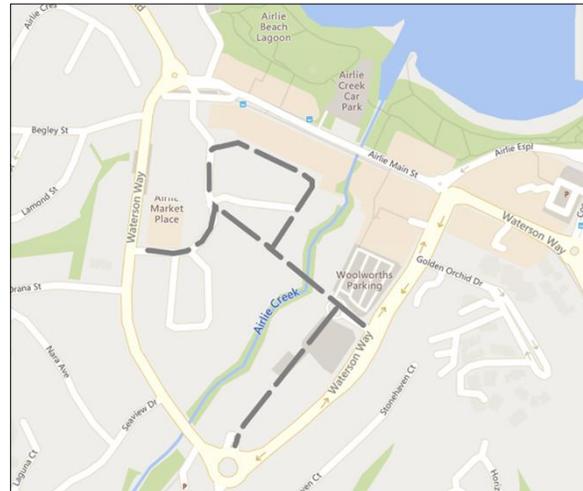

| <b>Options</b> | <b>Description</b>                            | <b>Positives</b> | <b>Negatives</b>                                                                                |
|----------------|-----------------------------------------------|------------------|-------------------------------------------------------------------------------------------------|
| Option 2       | Not endorse the proposed Major Amendment V4.1 | Nil              | Updates not endorsed to keep the Planning Scheme current, Council policy positions not adopted. |

### **Summary of Amendments as a result of the State Interest Review**

1. The Palace Hotel and the St James Church Proserpine will remain on the Heritage Overlay. The 4 other heritage items have been removed (Hook Island, Proserpine War Memorial, Proserpine Plumbing, Bowen Uniting Church).
2. The Erosion Prone Mapping under Coastal Hazards Overlay have been updated, with an overall reduction in affected areas.
3. The Airlie Beach Local Plan Transport Map will lose one arm connecting to Waterson Way to reduce the number of intersections.

Proposed V4.0

Amended V4.1

4. The Airlie Beach local plan code has been amended to remove the requirement for development fronting Waterson Way to be composed of active uses at ground level. The amendment instead encourages active uses at ground level on internal roads of Precinct C, refer to Airlie Beach Transport Map above.
5. The zone amendment request of 51RP864671 2-6 Banksia Court Cannonvale is not supported by the State (proposed Low impact industry, from Low-medium density residential zone) and will remain Low-medium density residential zone.
6. The Bushfire Hazard Overlay Code has been amended to align with SPP requirements and *Bushfire Resilient Communities 2019* document. The Bushfire Planning Scheme Policy has also been removed, as it has been replaced with guidance from the State.
7. Coastal Management District Map has been added to the Coastal Hazard Overlay, along with minor wording to the Overlay Code.
8. Requirements relating to building provisions have been removed to ensure no replication or contradiction with the Building Act in the following codes:
  - a. Airlie Beach local plan
  - b. Bowen local plan
  - c. Bushfire hazard overlay code
  - d. Flood hazard overlay code
  - e. Landslide hazard overlay code

## Attachment 13.3.1.1 Summary of Amendments to V4.0 Major Amendment

- f. Short-term accommodation and Multi-unit uses code
- g. Building work regulated under the Planning Scheme

For example:

The Queensland Development Code (QDC) MP 4.1 – Sustainable Buildings and the National Construction Code (NCC) contain the requirements for built form in relation to energy efficiency. This must not be doubled up and in the Planning Scheme.

PO6 amended as follows (original amendments in red, additional amendments in green):

~~Development considers the position and orientation of windows, balconies and outdoor areas to capture prevailing breezes and views of the natural landscapes and open spaces.~~

Development is sited and orientated to promote views of natural landscapes from balconies and common outdoor areas.

9. MSES (Matters of State Environmental Significance) and MNES (Matters of National Environmental Significance) will be added to the Strategic Framework Mapping and the Strategic Framework within the Planning Scheme.
10. Minor wording amendments to the Biodiversity, waterways and wetlands overlay code and associated administration terms to ensure consistency.
11. Prescribed tidal works requirements and Reclamation of land below tidal water assessment benchmarks have been added to the Coastal hazard overlay code
  - (a) Prescribed tidal works

Note - The State Code for assessment of Prescribed Tidal works is under Schedule 3 of *Coastal Protection and Management Regulation Act 1997*.
  - (b) Reclamation of land below tidal water (amendments in green)

PO1. Development does not involve reclamation of land below tidal water, other than for the purpose of:

    - (a) coastal-dependent development, public marine development or community infrastructure, where there is no reasonable alternative; or
    - (b) strategic ports, priority ports, boat harbors or strategic airports and aviation facilities in accordance with a statutory land use plan, or statutory master plan; or
    - (c) coastal protection works or work necessary to protect coastal resources or coastal processes.
  - AO1. No acceptable outcome.
12. Minor wording amendments to the Heritage overlay code to ensure alignment with the State Planning Policy.
13. Accommodation activities and some Entertainment activities have been taken out of Bowen local plan - Precinct B (Henry Darwin Memorial Drive) in the Table of assessment and local plan code, as per Department of Transport and Main Road requirements. Subsequently, the zone of the Precinct has reverted back to the original Waterfront and marine industry zone.
14. An Acid sulfate soils statement will be added to the Strategic Framework
15. Other mapping updates include:

## Attachment 13.3.1.1 Summary of Amendments to V4.0 Major Amendment

- (a) Zone Amendments March 2021 will be updated to remove the zone amendment request of 51RP864671 as per State requirements and point 5 above;
  - (b) Bushfire Hazard Overlay- the Bushfire Hazard Buffer will be renamed to 'Potential Impact Buffer'; and
  - (c) The Strategic Framework mapping has been updated to include MSES & MNES mapping.
16. Short-term accommodation (STA) requirements within residential dwellings have mostly been deleted and, as per State advice, a local law will be investigated. The limited controls ensure adequate waste bins and a contact detail for property management to be visible at the front of the premises.
17. Domestic outbuildings/Sheds (Class10a) will be lowered to a maximum Code assessment and additional requirements from SIR added to applicable Dwelling house/Dual Occupancy Code:
- a. Existing by Council:
    - i. Maximum combined flood area is 9% or 72m<sup>2</sup>, whichever is the least;
    - ii. Maximum length of 12 m; and
    - iii. Maximum length to width ratio is 2:1.
  - b. Included due to State advice:
    - i. Ensure adequate area on site for future dwelling house, water storage and effluent.

***Note: Outbuildings will still trigger Impact Assessment when they exceed 5.5m in height.***

### **Administrative Amendments to the Whitsunday Planning Scheme**

#### Climatic Regions

The Biodiversity, Waterways and Wetlands have a layer called 'Climatic Regions' which assisted stormwater management design directives. As these requirements have been updated as per the SPP guidance, the layer is no longer required. This layer will be deleted.

#### Reconfiguring a Lot Code – Walkable Neighbourhoods

A note is being added into the Reconfiguring a Lot Code regarding the mandatory assessment benchmarks for walkable neighbourhoods that came into effect on Monday 28 September 2020.

***'Note: Mandatory assessment benchmarks came into effect on Monday 28 September 2020, these benchmarks override some Planning Scheme outcomes for development involving reconfiguring a lot, please refer to Schedule 12 and 12A of the Planning Regulation 2017.'***

#### New Telecommunication Requirements

The Australian Parliament has passed laws that require all developers to arrange for fibre-ready pit and pipe infrastructure to be installed in proximity to building lots or building units before those developers sell or lease the building lots or units. The Parliament amended the

## Attachment 13.3.1.1 Summary of Amendments to V4.0 Major Amendment

laws in 2021 so that the pit and pipe arrangements apply to all developers, incorporated or unincorporated. These laws are contained in the Telecommunications Act 1997.

The Telecommunications in new developments (TIND) policy has two key objectives: to provide people moving into new developments with ready access to modern telecommunications, both voice and broadband; and to support a competitive and sustainable market for the provision of such infrastructure by fostering efficiency, innovation and choice.

A note will be added to the Infrastructure Code to ensure developers and owner-builders are aware of their obligations under this new requirement.

**Note- Telecommunications requirements for fibre-ready pit and pipe infrastructure are detailed under Part 20A of the *Telecommunications Act 1997* or check Council's website for further assistance.**

Administrative Amendments under the *Ministers Guidelines and Rules 2020* (Chapter 2, Part 1, Section 3) require a resolution from Council, and then publish the public notice in the Queensland Gazette and on the Council website.

Council is going over and above this by adding the Administrative Amendments to the Major Amendment advertising and publicly consult on the changes in the V4.1 Amendment Package.

Our ref: MC21/1407 MA-00052

19 July 2021

Neil McGaffin  
Director Development Services  
Whitsunday Regional Council  
PO Box 104  
PROSERPINE QLD 4800

Department of  
**State Development, Infrastructure,  
Local Government and Planning**

Dear Mr McGaffin

**Notice of advice to appropriately address state interests during the state interest review under the Minister's Guidelines and Rules (MGR)**

Thank you for your letter of 29 March 2021 advising of council's decision to make a major amendment (proposed amendment) to the Whitsunday Planning Scheme 2017 (the planning scheme) and the proposed Administrative Local Government Infrastructure Plan (LGIP) Amendment.

I note that on 29 March 2021, the state interest review commenced for the proposed amendment and paused the review on 22 April 2021.

During the pause I have determined that the proposed amendment does not appropriately address the relevant state interests and further justification / rationale is required.

In accordance with chapter 2, part 4, section 17.3 of the MGR I am taking this opportunity to advise you to consider changing the proposed amendment during the state interest review to appropriately address and integrate the following;

1. Extent of the Proposed Amendment
  - (a) Provide a complete list of land parcels that are subject to zoning changes as part of the proposed amendment.
  - (b) Provide written justification for zoning changes for each land parcel to allow for state interest consideration. A proposed zoning change is ordinarily accompanied by detailed documentation that outlines how the proposed zone fits into the overall planning framework, addresses state interests, meets the strategic intent of the scheme and the proposed zone, can be adequately serviced by infrastructure and has a site study/proposed master plan or structure plan attached.
  - (c) Provide details of any consultation undertaken with the Department of Resources in respect to any proposed zoning changes.
2. Legislation

(a) Change the proposed amendment to ensure consistency with the regulated requirements prescribed in the Planning Regulation. To assist with this assessment please refer to **Table 1**.

(b) Change the proposed amendment to alignment with Section 8(5) of the Planning Act. To assist with this assessment please refer to **Table 2**.

3. Regional Plan

Provide an assessment of the proposed amendment against the Mackay, Isaac and Whitsunday Regional Plan to ensure alignment.

4. State Interests

Change the proposed amendment by taking the actions listed for each State Interest in Table **3** and **Table 4** and summarised below.

| <b>State interest</b>                 | <b>Recommended action</b> , change in accordance with –                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

5. The Community Engagement Plan submitted as part of the State interest review should be amended to:
  - (a) Reflect the changing timeframes; and
  - (b) Acknowledge the requirements for consultation should the proposed amendment be significantly different to the version released for public consultation and additional consultation be required.
  
6. The proposed Administrative LGIP Amendment requires no action from the State, however, it is noted that you are changing the desired standards of service for the stormwater network. In order for the change to be considered an Administrative LGIP Amendment you need to be satisfied that the change meets one of the items identified in chapter 5, part 1.1 (a) to (g) of the MGR.
  
7. Compliance with Ministerial Conditions and Requests  
Provide an assessment on how the three (3) Ministerial conditions and Ministerial requests have been integrated into the planning scheme as requested in the letter dated 19 June 2017 from the Minister. To assist with this assessment please refer to **Table 5**.

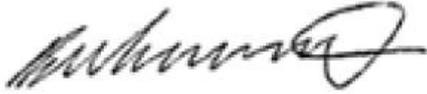

In accordance with chapter 2, part 5, section 23.1 of the MGR, I hereby give notice that the timeframe for the current action has been further paused from the day after this notice is given.

The state interest review timeframe will be paused for 100 business days to provide time for you to respond to this notice.

During this period, I encourage you to continue to engage with officers from the Planning Group to resolve any outstanding matters. I would also like to remind you that if no response is received during this period, the process will resume at chapter 2, part 4, section 17.5 of the MGR on the 8 December 2021.

I have asked for Ms Catherine Hobbs, Principal Planning Officer, Planning Group, in the Department of State Development, Infrastructure, Local Government and Planning to assist you with any further queries. You may wish to contact Ms Catherine Hobbs on telephone number (07) 4758 3412 or by email at [catherine.hobbs@dsdilgp.qld.gov.au](mailto:catherine.hobbs@dsdilgp.qld.gov.au).

Yours sincerely

Local Government and Planning**

Neil McGaffin  
Director Development Services  
Whitsunday Regional Council  
PO Box 104  
PROSERPINE QLD 4800

Dear Mr McGaffin

**Second Notice of advice to appropriately address state interests during the state interest review under the Minister's Guidelines and Rules (MGR)**

Thank you for your response on 6 September 2021 to our letter which identified the outstanding state interests for the major amendment (proposed amendment) to the Whitsunday Planning Scheme 2017 (the planning scheme) and the proposed Administrative Local Government Infrastructure Plan (LGIP) Amendment.

I have determined that the proposed amendment has not appropriately addressed the relevant state interests and further justification / rationale from Whitsunday Regional Council (the council) is required.

In accordance with chapter 2, part 4, section 17.3 of the Ministers Guiding Rules (MGR), I am taking this opportunity to advise you on how the proposed amendment may be changed during the state interest review to appropriately address state interests. This advice is detailed in items 1 – 6 below.

**1. Short – Term Accommodation (dwelling)**

Consider changing the proposed amendment to ensure consistency with the Regulated Requirements (section 16(2) of the *Planning Act 2016*) and the State Planning Policy (SPP) Guiding Principles.

**Issue i)** Proposed amendment: Code Provisions of Short-term Accommodation (Dwelling) - Extracted from Table 1 Item No 3, No 4, No 11 and No 13

**SPP Guiding Principle/s:** Efficiency and Accountability

**State Agency:** Department of State Development, Infrastructure, Local Government and Planning

**Action:** Remove or revise the code provisions relating to the Short-term Accommodation (dwelling) components. If revising the code provisions, limit the requirements to land use rather than operational matters. These operational matters should be addressed in other forms of regulation, such as local laws.

**Reasoning:** When drafting the Assessment Benchmarks, the Performance Outcomes (POs) should clearly and objectively establish what the local government seeks to achieve but they should not mandate how to achieve that desired outcome. An Accepted Outcome (AO) may specify a solution that

achieves the desired outcome. This is the local governments' preferred way, but need not be the only way, of achieving the PO.

Planning schemes should only seek to regulate land use and planning outcomes. It is considered that a number of the provisions within the Short-term Accommodation and Multi-unit Use Code are not directly related to land use planning but are day-to-day operational matters. Such matters are better suited to be regulated through alternate options such as local laws, a code of conduct, by-laws or similar.

It is recommended that the council consider these alternative options to deal with the following matters:

- Limiting noise associated with the use
- Limiting the number of occupants per bedroom
- Limiting congregation around entrance of premises
- Regulating adult entertainment on the premises
- Establishing a code of conduct for each individual premises (a standard code of conduct could be developed by the council which would apply to all such uses to assist Short-term accommodation providers).

**Attachment 1** of this letter provides examples of how short-term accommodation has been regulated by other local governments.

**Issue ii)** Proposed amendment: Level of Assessment defaulting to Impact rather than Code – Specifically Domestic Outbuildings (Dwelling House Code and Dual Occupancy Code) - Extracted from Table 1 Item No 16

**SPP Guiding Principle/s:** Efficiency and Accountability

**State Agency:** Department of State Development, Infrastructure, Local Government and Planning

**Action:**

- a) Reconsider the levels of assessment for a domestic outbuilding with a Dwelling House or Dual Occupancy.
- b) Consider how the categories of development and assessment work, specifically:
  - For Code assessable development there is no requirement for notification. However, where local government is the assessment manager for a code assessable development, it may also have regard to the common material for a development application. This may include a submission about the application that the assessment manager has accepted or any other advice or comment about the application that a person gives to the assessment manager
  - Under section 60 of the *Planning Act, 2016* the assessment manager must decide to approve the application to the extent the development complies with all the assessment benchmarks for the development.
  - The assessment manager may decide to approve the application even if the development does not comply with some of the assessment benchmarks, for example, where the decision resolves a conflict between assessment benchmarks.
  - The assessment manager may decide to refuse an application that does not comply with some, or all, of the assessment benchmarks only if compliance cannot be achieved by imposing development conditions.

**Reasoning:** The department does not support the proposed levels of assessment for a domestic outbuilding associated with a Dwelling House or Dual Occupancy. A

Domestic Outbuilding in a Residential (Low Density, Low-Medium Density or Tourist Accommodation) or Mixed use Zone, where not complying with AO1.2 of the Dwelling House Code, is Impact Assessable. Similarly, a Domestic Outbuilding associated with a Dual Occupancy in a Residential (Low Density, Low-Medium Density or Tourist Accommodation) or Mixed use Zone, where not complying with AO3.1 of the Dual Occupancy Code, is also Impact Assessable. This is deemed to be overly restrictive for a non-habitable structure, noting that sufficient evidence to justify the proposed level of assessment has not been provided.

The proposed levels of assessment are to align with the SPP Guiding Principles in *the Drafting a Planning Scheme: Guidance for Local Governments*, prepared by Queensland Treasury (Planning Group), June 2020, specifically:

a) Efficiency

Regulate development to the extent necessary, to create a land use planning and development assessment system that is responsive and not overly restrictive.

Limit content to that suited to a statutory instrument that seeks to regulate land use and planning outcomes. For example:

- ensure outcomes are those that are best delivered as result of a development assessment and are legal, reasonable, relevant and enforceable, and
- use planning scheme policies and supporting materials, if necessary, to provide further context for the planning scheme content.

b) Accountability

Establish a sound evidence base to underpin the land use planning vision and direction. This can establish credibility for future decision making and provide a reference when determining appropriate strategic outcomes, spatial allocations and assessment benchmarks.

Consider what matters are of community interest and would benefit from community input at development application stage to inform the setting of category of development and assessment.

**2. Bushfire Hazard Overlay Code, Flood Overlay Code, Landslide Hazard Overlay Code and their regulation of building assessment provisions**

Consider changing the proposed amendment to alignment with Section 8(5) of the *Planning Act, 2016*.

**Issue i)** Proposed amendment: Bushfire Hazard Overlay Code Table 8.2.6.3.1, Table 8.2.5.6.2 - Extracted from Table 2 Item No 4, No 5, No 7

**State Agency:** Department of State Development, Infrastructure, Local Government and Planning and Department of Energy and Public Works

**Action:** Align the Bushfire Hazard Overlay Code with the model code outlined in “Natural hazards, risk and resilience state interest – Bushfire, example planning scheme assessment benchmarks”.

**Reasoning:** The model code ensures that the planning scheme is not regulating building assessment provisions under the *Building Act 1975*

The model code has been drafted to meet the SPP and ensure that planning provisions provide for adequate separation between bushfire hazard sources and new or intensified development. Adoption of the model code will appropriately

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>ensure that planning for bushfire risk can also help to improve community safety and resilience and minimise the burden on emergency management systems and processes.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <p><b>Issue ii)</b> Proposed amendment: Flood Hazard Overlay Code, Table 8.2.9.3.1, Table 8.2.9.3.2- Extracted from Table 2 Item No 8<br/> <b>State Agency-</b> Department of State Development, Infrastructure, Local Government and Planning</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| <p><b>Action:</b> Review the Flood Hazard Overlay Code and how it regulates Building Work, specifically:</p> <ol style="list-style-type: none"> <li>Ensure that there is a clear link between the relevant PO and AO(s).</li> <li>Remove or amend PO1 and AO1.1, PO5 and AO5.1 and 5.2 in Table 8.2.9.3.1 as they address or conflict with the building assessment provisions regarding the location and design of buildings in flood hazard areas.</li> <li>Amend or remove PO1, AO1.2 and AO4.1 in Table 8.2.9.3.2 to specify which class of building the finished floor level provisions relate to.</li> <li>Where council considers AOs relate to matters a planning scheme can include (such as maintaining conveyance capacity across the flood plain) ensure that there is a clear relationship with the POs.</li> <li>Ensure the terminology of the planning scheme aligns with QDC MP3.5 (for example using term <i>defined flood level</i>).</li> </ol> <p><b>Reasoning:</b> To ensure that the Flood hazard overlay code does not address any building assessment provisions under the <i>Building Act 1975</i> and uses appropriate terminology.</p> |
| <p><b>Issue iii)</b> Proposed amendment: Landslide Hazard Overlay Code –Table 8.2.12.3.1- Extracted from Table 2 Item No 9<br/> <b>State Agency-</b> Department of Energy and Public Works and Department of State Development, Infrastructure, Local Government and Planning</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| <p><b>Action:</b> Review the Landslide Hazard Overlay Code to ensure it does not address any building assessment provisions under the <i>Building Act 1975</i>. In addition, ensure that the AOs are appropriate as accepted development requirements. Specifically:</p> <ol style="list-style-type: none"> <li>Remove the building assessment provisions from AO1.1 and AO1.3 unless it can be clarified that the provisions are only relevant to operational work, reconfiguring a lot and/or only to coastal hazards.</li> </ol> <p><b>Reasoning:</b> The structural integrity of a building is subject to an assessment by a building certifier as per the building assessment provisions (particularly the NCC). Planning instruments should not deal with siting of buildings within the lot, the structural design of buildings, or site works associated with a building or structure.</p>                                                                                                                                                                                                                                                               |

### 3. State interests identified in the SPP

Consider changing the proposed amendment by taking the actions listed for each State interest summarised below:

|                                                                                                                                                                                                                                                                                                                                                        |

| <p><b>Reasoning:</b> The zoning of Lot 51 on RP864671 to Low impact industry has the potential to impact on the current residential use of the adjoining property at 8 -12 Banksia Court and its ability for future residential renewal.</p> <p>This proposed change is not consistent with Policy 2 and 3(a) for Housing Supply and Diversity of the SPP. Rezoning Lot 51 on RP864671 to Low impact industry will not facilitate the development of residential land for low to moderate incomes nor is the zoning in this residential location considered appropriate.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| <p><b>Issue ii)</b> Proposed Amendment: Coastal Hazard Overlay Code – PO1, AO1.2 and PO9 - Extracted from Table 3 Item No 20, No 21<br/> <b>State Interest:</b> Coastal Environment – Policy 1<br/> <b>State agency:</b> Department of Environment and Science</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| <p><b>Action:</b> Amend AO1.2 in the Coastal Hazard Overlay Code to include coastal erosion in addition to the already mentioned storm tide inundation.</p> <p><b>Reasoning:</b> Structures are not acceptable within an erosion prone area.</p> <p><b>Action:</b></p> <ol style="list-style-type: none"> <li>a) Ensure terminology is consistent in relation to ‘inundation area’, specifically in PO9, ‘Inundation area’ should refer to ‘storm tide inundation area’.</li> <li>b) Provide clarification that ‘except in limited circumstance’ is acceptable when ‘limited circumstance’ is not defined.</li> <li>c) Amend Table 8.2.7.3.2 PO1 as follows –             <ul style="list-style-type: none"> <li><i>Development within a coastal management district:</i></li> <li>a) <i>avoids adverse impacts on coastal processes; and</i></li> <li>b) <i>maintains coastal dune height; or</i></li> <li>c) <i>for (b) where a reduction in coastal dune height cannot be avoided, mitigates risk to development from wave overtopping and storm-tide inundation.</i></li> </ul> </li> </ol> <p><b>Reasoning:</b> Table 8.2.7.3.2 only refers to coastal hazard areas. The coastal management districts can extend beyond erosion prone areas and storm tide areas. The assessment benchmarks need to protect the state interest where that can occur.</p> |
| <p><b>Issue iii)</b> Proposed Amendment: Coastal Hazard Overlay Code – Table 8.2.7.3.2 PO1(b) - Extracted from Table 3 Item No 24<br/> <b>State Interest:</b> Coastal Environment – Policy 3<br/> <b>State Agency:</b> Department of Environment and Science</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <p><b>Action:</b> Amend PO1(b) as follows –</p> <p><i>b) strategic ports, priority ports, boat harbors or strategic airports and aviation facilities in accordance with a statutory land use plan, or statutory master plan, where there is a demonstrated net benefit for the state or region and no feasible alternative exists; or</i></p> <p><b>Reasoning:</b> Reclamation is not mentioned in the new codes and the SPP requires that reclamation of land under tidal water is avoided, other than for specified purposes.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <p><b>Issue iv)</b> Proposed Amendment: Heritage Register - Extracted from Table 3 Item No 25<br/> <b>State Interest:</b> Cultural Heritage – Policy 4<br/> <b>State Agency:</b> Department of Environment and Science</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <p><b>Action:</b> Council is to demonstrate the proposed sites to be removed from the local heritage register no longer have cultural heritage significance, having regard to the</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

Department of Environment and Science (DES) guideline- *Identifying and assessing places of local significance in Queensland*.

**Reasoning:** DES do not support the request for removal of the Hook Island Observatory; Proserpine Memorial; Palace Hotel; Proserpine Plumbing building (former theatre); Bowen Church and the St James Uniting Church from the Heritage Overlay as insufficient evidence has been provided that these places no longer have cultural heritage significance.

There is no statutory authority under the *Queensland Heritage Act, 1992* (QHA) for a local government to make guidelines or a policy. The chief executive of DES may make guidelines under section 173 to provide guidance to local governments about identifying or managing local heritage places, after consultation with the Queensland Heritage Council and local governments, and they must be published on DES's website. There is one such guideline of relevance: *Identifying and assessing places of local significance in Queensland*:

[https://www.qld.gov.au/data/assets/pdf\\_file/0024/129804/gl-places-local-cultural-heritage-significance-qld.pdf](https://www.qld.gov.au/data/assets/pdf_file/0024/129804/gl-places-local-cultural-heritage-significance-qld.pdf)

The DES guideline does not support applying a criterion that a building can be removed if "irreparably damaged" for removal from a local heritage register, as an alternative to an assessment of cultural heritage significance. No guideline can be inconsistent with the provisions of an Act, and under section 119(2) of the QHA, the local government must be satisfied the place no longer has cultural heritage significance. Notwithstanding this, it is also noted that council has not established that the removed places are irreparably damaged. Comments from council on this matter which state that significant fabric could not be re-used within future structures suggests a pre-judgement that council has decided the buildings must be demolished.

Replacement of damaged fabric is a recognised *Burra Charter* process which can maintain the cultural heritage significance of a place.

The proper process if an owner does wish to demolish a heritage place, is to lodge an application for demolition, and for that application to be assessed against the relevant assessment benchmarks.

**Issue v)** Proposed Amendment: Heritage Overlay Code - Table 8.2.10.3.1 AO2.1 - Extracted from Table 3 Item No 28

**State Interest:** Cultural Heritage – Policy 5 and 6

**State Agency:** Department of Environment and Science

**Action:**

a) Amend AO2.1 as follows:

*"Where a ground-breaking activity is required within the boundary of a Heritage place that has been identified as an archaeological place:*

*(a) an archaeological investigation is undertaken by a suitably qualified and experienced archaeologist; and*

*(b) if there is potential for archaeological artefacts and if required by Council, an archaeological management plan is prepared and implemented by the archaeologist, overseen by Council, so that impacts on the archaeological significance and potential of the place are appropriately managed.*

*Note - the archaeological investigation and any necessary archaeological management plan must be carried out in accordance with PSP SC6.3*

*(Heritage)."*

- b) The note is redundant and can be removed.
- c) The citation in the Planning Scheme Policy (PSP) of the 2013 DEHP archaeological investigations guideline should be replaced with the current (2019) guideline.
- d) The citation in the PSP of the 1999 Burra Charter should be replaced with the current 2013 Burra Charter.

**Reasoning:** A02.1 should be redrafted so the methodology and defined assessment benchmark will be consistent with the current *Guideline: Archaeological investigations* (DES, 2019), available on the department website: [https://www.qld.gov.au/\\_data/assets/pdf\\_file/0030/68628/archaeological-investigations-guideline.pdf](https://www.qld.gov.au/_data/assets/pdf_file/0030/68628/archaeological-investigations-guideline.pdf)

**Issue vi)** Proposed Amendment: Heritage Overlay Code - Table 8.2.10.3.1 P03 / AO3.1 - Extracted from Table 3 Item No 29

**State Interest:** Cultural Heritage – Policy 5 and 6

**State Agency:** Department of Environment and Science

**Action:** Remove the reference to council's Local Heritage Register Policy.

**Reasoning:** There is no statutory authority under the *Queensland Heritage Act, 1992* (QHA) for a local government to make guidelines or a policy.

**Issue vii)** Proposed Amendment: Heritage Planning Scheme Policy - Archaeological management plan SC6.3.5 - Extracted from Table 4 Item No 17

**State Interest:** Cultural Heritage – Policy 5 and 6

**State Agency:** Department of Environment and Science

**Action:** SC 6.3.5.2 should describe the obligation to notify the State where there is a discovery of an archaeological artefact that is an important source of information about an aspect of Queensland's history.

**Reasoning:** There is a risk there will be a breach of the *Queensland Heritage Act, 1992* (Heritage Act) if the archaeological management plan is implemented without making this obligation clear.

SC 6.3.2.1 states that consultation may be necessary with other entities, including council and the State government. SC 6.3.5.2(1)(d) states that where there are new/unexpected finds council may need to be notified however there is no mention of the State government.

Under section 90 of the Heritage Act if there is a discovery of an archaeological artefact that is an important source of information about an aspect of Queensland's history, the chief executive of DES must be notified. It is an offence under section 90 of the Heritage Act to interfere with the artefact without the chief executive's consent.

**Issue viii)** Fit-for-purpose natural hazards risk assessment - Extracted from Table 3, Item No 33, No 48 and No 49

**State Interest:** Natural Hazards, Risk and Resilience – Policy 2

**State agency:** Department of State Development, Infrastructure, Local Government and Planning

**Action:**

(a) Section 1.2 Flood Hazard Areas

- Confirm if the Natural Hazard Risk Assessment (Dated 15/07/2021) provided to the Department on 15 July 2021 is consistent with the Australian Disaster Resilience Handbook 'Managing the floodplain' best practice approach to assessing flood and follows the flood risk assessment principles in Section 13.1.3.3 of the Integrating State Interests in a Planning Scheme (Guidance for Local Governments)
- Confirm whether the degree of refinement for the mapping and studies for the Town of Whitsunday aligns with Level 2 in 13.1.3.1 of the Integrating State Interests in a Planning Scheme (Guidance for Local Governments) – specifically, is the model calibrated?
- Clarify whether there any new properties impacted as a result of the introduction of the Medium and High Risk Flood Hazard Areas?

(b) Section 1.3 Landslide Hazard Areas

- Confirm that the Moderate and High Risk areas on the mapping are 15% or greater.
- Provide clarification for AO1.1(b)(i) in regards to determining if 'Low' or 'Very low' risk in accordance AGS 2007 as these are not terms used on the maps

(c) Section 1.4 Storm-tide Inundation Areas

Overview of hazard risk mapping amendments

- It is unclear how the term 'risk' is being used in this document. The discussion is about the hazard area, not about risk in the hazard area. Risk is the probability x consequence - the hazard area (1 in 100-year event) x the value of assets in the hazard area. When considering risk, the CHAS typically considers present day assets at a locality. This is appropriate for considering a case for downzoning or other restrictions on development in a high-risk area.
- However, risk rating in the CHAS may not be appropriate for considering future risk. That is where intensification of development is proposed at a low-risk site. In this case the value of the future development needs to be inputted into the risk calculation and a new risk rating derived. For example, in the case of up zoning of rural land (currently low risk because no development is under threat) to residential (high value assets which will change the risk rating to high). Council will need to consider if planning scheme provisions are needed to address all risk levels.
- The mapping was not approved. DES only reviewed the technical study.

Planning Scheme integration

- Land use zones have not been modified in response to the updated risk mapping, this approach is inconsistent with the SPP.
- Medium and high hazards are related to depth of water over land. Inundation and wave run-up are the type of inundation and can be any depth. This needs to be reconsidered.

- Confirm what has been determined to be wave runup. Commonly wave setup is applied up to 200m inland. Council’s consultant may have used combination wave run-up and setup level (wave effects).
- The report for this matter states that the 200m of HAT being the wave run-up areas and extents beyond this (where applicable) is identified as inundation areas and that this methodology was also applied to the State Government’s storm tide mapping. This is incorrect, the State mapping is based on depth of water over land.
- The report also recommended that the freeboard associated with each of these categories is ‘increased’ to 1m above. Possibly use ‘set at’ rather than ‘increased’.
- The overview summary does not comprehensively reflect the SPP, please identify this in the wording to avoid confusion.

(d) Section 1.5 Erosion and Permanent Inundation Areas

Mapping Source

- Note the mapping source for the Permanent inundation Region – Whitsunday Coastal Hazard Mapping Refinement 2018. Reference is made to a superseded version and contains incorrect information. Please check all Coastal Hazard documents are the final version.
- Note that the mapping source for the Erosion Mainland QSpatial – Erosion prone areas (refined by DES during State Interest Review) is in progress and requires agreement on the mapping between council and DES and then declaration of the erosion prone area under the *Coastal Protection and Management Act 1995*.
- Note that the mapping source for the Erosion Islands QSpatial – Erosion prone areas is in progress and requires agreement on the mapping between council and DES and then declaration of the erosion prone area under the *Coastal Protection and Management Act 1995*.

Overview of hazard risk mapping amendments

- Note that the refinement of the QSpatial mapping provided to council by DES is progressing.

Planning Scheme integration

- Note that the Coastal Hazard Study was reviewed by DES and accepted.
- Note that the mapping is in progress and requires agreement on the mapping between council and DES.
- The overview summary does not comprehensively reflect the SPP, please identify this in the wording to avoid confusion.

**Reasoning:** Confirmation and/or clarification is required on various matters as detailed above.

**Issue ix)** Proposed Amendment: Coastal erosion prone area mapping and Definition of Coastal hazard area - Extracted from Table 3, Item No 34 and Table 1 Item 7

**State Interest:** Natural Hazards, Risk and Resilience – Policy 1

**State Agency:** Department of Environment and Science

**Note:** The department acknowledges receipt of the Coastal erosion area mapping and will review and provide any comments if matters are outstanding.

**Action:** The proposed definition of Coastal hazard area in Schedule 1 - Definitions – SC1.2 Administrative terms requires amendment as follows:

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p><i>Coastal hazard area</i><br/> <i>An area that is:</i></p> <ul style="list-style-type: none"> <li>(a) <i>identified as wave run-up or inundation area on Coastal hazard overlay map - Storm tide inundation;</i> <ul style="list-style-type: none"> <li>(i) <i>wave run-up area is considered to affect premises 200m landward from the highest astronomical tide. It represents the peak elevation of the intermittent process of advancement and retreat of the shoreline associated with wave processes during the coastal inundation event; and</i></li> <li>(ii) <i>inundation area is located landward of the wave run-up area and is assumed to persist for a sufficient duration to cause inundation of land below this design water level;</i></li> </ul> </li> <li>(b) <i>identified as the declared erosion prone area which shows coastal erosion or permanent inundation due to sea level rise at 2100 sub category on Coastal hazard overlay map - Erosion prone areas and Permanent inundation; or</i></li> <li>(c) <i>if not identified on the Coastal hazard overlay maps, an area of land affected by the Defined Storm Tide Event (DSTE).</i></li> </ul> <p><b>Reasoning:</b> As part of the DES and council's erosion prone area mapping resolution, DES requires reference to 'declared erosion prone areas' within the administrative definition for coastal hazard area.</p> |
| <p><b>Issue x)</b> Proposed Amendment: Part 3, Strategic Framework 3.2.4.1 Strategic Outcomes (1a) - Extracted from Table 3, Item No 36<br/> <b>State Interest:</b> Natural Hazards, Risk and Resilience – Policy 4<br/> <b>State Agency:</b> Department of Environment and Science</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| <p><b>Action:</b> Amend 3.2.4.2(1a) as follows:<br/> <i>Risks to people, property, essential service uses and vulnerable uses are minimised in areas within or adjacent to natural hazard areas by avoiding the risk, <b>where the risk cannot be avoided or where it is not possible to be avoided, then mitigating the risk or removing the hazard.</b></i></p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| <p><b>Issue xi)</b> Proposed Amendment: 8.2.7 Coastal Hazard Overlay Code – Table 8.2.7.3 Assessment Benchmarks AO3.1 - Extracted from Table 3, Item No 40<br/> <b>State Interest:</b> Natural Hazards, Risk and Resilience – Policy 9<br/> <b>State Agency:</b> Department of Environment and Science</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <p><b>Action:</b> Amend AO3.2 as follows to remove undefined term:<br/> <i>Unless for Recreation activities or building extensions, development is situated wholly outside of Erosion prone and Permanent inundation areas, except where it is demonstrated that buildings or structures are:</i></p> <ul style="list-style-type: none"> <li>a) <i>part of redevelopment that intensifies the use of a site in an urban area, if the development mitigates any increase in risk to people and property from <del>adverse</del> coastal erosion impacts to an acceptable or tolerable level;</i></li> <li>b) <i>Dwelling houses in an urban area where:</i> <ul style="list-style-type: none"> <li>i. <i>landward <b>of</b> or equal to the seaward alignment of any buildings on neighbouring properties; or</i></li> <li>ii. <i>if there are no neighbouring properties, the dwelling house is at least 12m from the seaward property boundary of the site.</i></li> </ul> </li> </ul> <p><i>Note – Coastal building lines identified by State DA mapping may also apply to some development in Queens Beach and Brisk Bay triggering referral for State Assessment.</i></p>                                                                                                                                                                                                                           |

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

| <p><i>Note: See National emergency risk assessment guidelines (NERAG), and ISO 31000:2009 Risk management – principles and guidelines for acceptable or tolerable levels of Risk Management.</i></p>                                                                                                                                                                                                                                                                                                      |
| <p><b>Issue xii)</b> Proposed Amendment: 7.2.2 Bowen Local Plan Code; Table 5.9.2.5 Bowen local plan - Extracted from Table 3 Item No 52<br/> <b>State Interest:</b> Transport Infrastructure – Policy 1<br/> <b>State agency:</b> Department of Transport and Main Roads</p>                                                                                                                                                                                                                             |
| <p><b>Action:</b> Remove references to accommodation activities within the Local Plan Code and make all accommodation activities impact assessable throughout all precincts in the Tables of Assessment for the Bowen Local Plan.</p> <p><b>Reasoning:</b> Department of Transport and Main Roads (DTMR) is the leaseholder over the harbour land, DTMR does not support accommodation activities within the harbour. The planning scheme should not set the expectation that they will be supported.</p> |
| <p><b>Issue xiii)</b> Proposed Amendment: 7.2.1 Airlie Beach Local Plan Code; 7.2.1.2 Purpose and overall outcomes (2) (f) and (g); and Table 7.2.1.3.1: Benchmarks for assessable development PO2, PO7 and PO9 - Extracted from Table 4 Item No 18<br/> <b>State Interest:</b> Transport Infrastructure – Policy 6<br/> <b>State Agency:</b> Department of Transport and Main Roads</p>                                                                                                                  |
| <p><b>Action:</b> Remove references in the Purpose and overall outcomes, Section 7.2.1.2 (2) (f) and (g) and Table 7.2.1.3.1 – PO2, PO7 and PO9, specifying that active street frontages are to be located on Waterson Way.</p> <p><b>Reasoning:</b> Waterson Way has been declared a state -controlled road to act as a Main Street bypass. Active street frontages and any additional accesses to Waterson Way compromise this function. This issue should be addressed as a priority.</p>              |

4. The Community Engagement Plan submitted as part of the State interest review should be amended to:
  - (a) Reflect the changing timeframes; and
  - (b) Acknowledge the requirements for consultation should the proposed amendment be significantly different to the version released for public consultation and additional consultation be required.
5. The proposed Administrative LGIP Amendment requires no action from the State, however, it is noted that council are changing the desired standards of service for the stormwater network. In order for the change to be considered an Administrative LGIP Amendment, council need to be satisfied that the change meets one of the items identified in chapter 5, part 1.1 (a) to (g) of the MGR.
6. Compliance with Ministerial Advice Matters
 

Provide an assessment on how the advice matters provided in the Minister letter dated 19 June 2017 have been considered by council. Specifically:

  - a) The Advice requested that council reconsider the levels of assessment in the Community Facilities zone to facilitate development surrounding a strategic airport (Whitsunday Coast Airport).

The department has continued concerns that Air Services at the strategic airport are impact assessable unless undertaken by the council where it is accepted development.

To facilitate development in close proximity to the strategic airport, the department seeks to understand council's intention and progress on the Industry Investigation Area Zone to the east of the Airport.

- b) The Advice requested that council reconsider the self-assessable development assessment criteria to be clearer and offer more certainty. The department has continued concerns that the self-assessable provisions in the adopted planning scheme were ambiguous and lacked certainty. Given that the scheme has been in operation for four years, it is requested that council provide justification that the assessment development criteria for self- assessable uses do not need to be amended to be clearer and offer more certainty.

The State interest review timeframe is currently paused until 7 December 2021 to provide time for you to respond to this notice.

During this period, I encourage you to continue to engage with officers from the Planning Group to resolve any outstanding matters. I would also like to remind you that if no response is received during this period, the process will resume at chapter 2, part 4, section 17.5 of the MGR on the 8 December 2021.

I have asked for Ms Erin Lee, Principal Planning Officer, Planning Group, in the Department of State Development, Infrastructure, Local Government and Planning to assist you with any further queries. You may wish to contact Ms Erin Lee on telephone number (07) 4898 6815 or by email at [erin.lee@dsdilgp.qld.gov.au](mailto:erin.lee@dsdilgp.qld.gov.au).

Yours sincerely

ENC **Attachment 1: Examples of how other local governments are regulating short-term accommodation**

### **Attachment 1: Examples of how other local governments are regulating short-term accommodation**

---

#### Gold Coast City Council

- The Council has implemented a Local Law for the Control of Party House Noise and for Rental Accommodation
- The purpose of the Local law for Rental Accommodation is that properties used for short-term accommodation, do not detrimentally affect the residential amenity of premises in the vicinity of the rental accommodation. Licenses are not required for the operation of rental accommodation which is the provision of home-stay accommodation at premises used as a residential dwelling (other than a bed and breakfast) which—
  - (i) is occupied and continues to be occupied as the principal place of residence of at least one person; and
  - (ii) provides accommodation for up to four guests;
- When applying for a licence council requires the application material must include the proposed use of each room and the maximum number of persons to be accommodated in each bedroom.

#### Noosa Shire Council

- The Council has a proposed local law for Short Stay and Home Hosted Accommodation. The proposed local law –
  - (i) Aims to manage the potential impacts of short stay letting and home hosted accommodation on the residential amenity of permanent residents by requiring a local management framework and code of conduct for guest behaviour as well as minimum safety standards for guests.
  - (ii) A one off application and annual renewal is required for a premises used for short stay letting or home hosted accommodation
  - (iii) Exemptions are proposed for certain sites identified in Noosa Plan 2020 as visitor only. This includes the Hastings St Mixed Use Precinct, hotels, motels, backpacker accommodation and holiday houses not used for short stay letting
  - (iv) A local contact person must manage a short stay let premises, be available 24/7, be located within 20 minutes travel and respond to complaints within 30 minutes
  - (v) A code of conduct will be introduced for guest behaviour. Use of the premises must not detrimentally affect residential amenity including noise, overlooking and light spill; guests must not display unacceptable behaviour; vehicles must be stored to not cause a nuisance; pets and waste are managed; grounds kept tidy; and sleeping or camping in a tent or caravan on site is not permitted

#### Toowoomba Regional Council

- The Planning scheme states that when renting-out all or part of a home or other accommodation premises for short-term accommodation Council considers this type of land use as either *Home based business* or *Short-term accommodation*.
- A *Home based business* is where the permanent resident resides at the premises while renting part of it out for short-term accommodation. Bed and breakfasts and farm stays are examples of a *Home based business*.
- Additional to this land use type, the function and scale of operations must be in keeping with the primary use of the dwelling as a private permanent residence. Eg:
  - (i) The permanent resident must reside in the dwelling
  - (ii) The maximum number of rooms for bed and breakfast, or accommodation units in a farm stay is 6 in the *Rural zone* and 3 in other zones
  - (iii) The maximum number of overnight guests is 6 (other than in the *Rural zone* where there is no limit)
  - (iv) Meals must not be served for gain, other than to paying overnight guests

- (v) 1 additional car parking space must be provided for each room occupied by paying guests.
- Home-based businesses may require development approval and Short-term accommodation will require a development approval. Other approvals, such as placing an advertising device on the premises or a food licence may also be required.
- A Home based business as described above is considered an Accepted development subject to requirements if in one of the following zones and does not require a development approval if meeting the requirements:
  - (i) Low density residential zone
  - (ii) Low-medium density residential zone
  - (iii) Township zone
  - (iv) Rural residential zone
  - (v) Rural zone.Outside of these zones a Home based business is a Code assessable development and will require a development approval.
- *Short-term accommodation*

If the owner or lessee does not reside at the premises and rents all or part of it out for short-term accommodation, the use may be defined as *Short-term accommodation*. This type of use provides accommodation to guests for less than 3 consecutive months to tourists or travellers and may contain a manager's residence, office or recreation facilities for the exclusive use of guests.

Short-term accommodation will require a development approval. Changing to this type of use is generally Impact assessable development in a residential zones except in Low-medium density residential zone or Township zone where it is Code assessable.

#### New South Wales

- The NSW government has implemented a new state-wide (some local governments are exempt) regulatory framework for short-term rental accommodation (STRA), which includes a new planning framework, fire safety standards for STRA dwellings and a new Government-run STRA Register. The new framework compliments the mandatory Code of Conduct and changes to strata legislation made by the Department of Customer Service.
- The new STRA planning policy framework comprises new standard provisions and introduces:
  - (i) a new definition for STRA, hosted STRA and non-hosted STRA;
  - (ii) an exempt development pathway for:
    - hosted STRA in a dwelling, 365 days per year;
    - non-hosted STRA in a dwelling, 180 days per year in Greater Sydney and nominated regional NSW LGAs and 365 days per year in all other locations;and
  - (iii) an exemption of bookings of 21 consecutive days or more from day limits for non-hosted STRA.

## Tables 1 – 5 for the Whitsunday Regional Council Planning Scheme – Major Amendment 2021 – State Interest Review 19 July 2021- 15 November 2021

The Department of State Development, Infrastructure, Local Government and Planning has undertaken its assessment of the proposed Whitsunday Regional Council Planning Scheme – Major Amendment 2021. As a result of this assessment the following items in Table 1 - 5 are required to be actioned.

State Interests requiring no further action (**subject to any finalised mapping and further justification of zone changes for land parcels**): Liveable communities, Development and construction, Emissions and hazardous activities, Energy and water supply, Infrastructure integration, Strategic airports and aviation facilities and Strategic ports.

State Interests considered in this document for Council action or consideration: Housing supply and diversity, Agriculture, Mining and Extractive Resources, Tourism, Biodiversity, Coastal Environment, Cultural Heritage and Water Quality, Natural hazards, risk and resilience and Transport infrastructure.

**Table 1:** Regulated requirements prescribed in the Planning Regulation

| State Interest         | No. | Planning scheme reference                                                                  | Policy/Relevant legislation               | State Agency Recommended Action                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | Reasons for recommendation                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | Council action/response<br>(Red is existing Amendment, Green is proposed amendments due to State requirements)                                                                                                                                                                                                                                                                                                                                                                                          |

| Regulated requirements | 1.  | Zone Names Part 1<br>1.2 Table 1.2.1                                                       | Section 6 of the Planning Regulation 2017 | Review the scheme to ensure the correct terms are consistently applied throughout the scheme.<br>Specifically amend typographical errors: <ul style="list-style-type: none"> <li>From <i>Waterfront industry zone</i> to <b>Waterfront and marine industry zone</b> as per regulated requirements; and</li> <li>From <i>zone code</i> to <b>zone</b> as per the regulated requirements.</li> </ul>                                                                                                                                                                                                                                                                     | The list of Zones in table 1.2.1 in part 1 of the scheme contains some typographical errors that requires correction.<br>Table 1.2.1 refers to zone codes should just be zone. This looks to be a legacy from when the scheme was first approved.                                                                                                                                                                                                                                                                                                                                                                                               | <b>Noted, this will be amended.</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|                        | 2.  | Accepted Development Requirements – Ancillary activities Part 5<br>Table 5.5.16 Rural zone | Planning Regulation 2017                  | Food and Drink outlet and Shop are accepted development where ‘ancillary’ to rural activity, Environmental Facility or Nature Based Tourism. The scheme often has a use as accepted subject to complying with AO’s in a code. This would not be in accordance with good drafting principles but this is a pre-existing situation for the most part.<br>It is considered that the use of ‘ancillary’ is not appropriate for determining category of assessment in that it lacks sufficient clarity and certainty. It is considered that the category of assessment should be reconsidered to include more definitive parameters around the acceptability of these uses. | The table of assessment for the Rural zone (table 5.5.16) lists a Food and Drink Outlet and Shop as accepted development where ancillary to Rural Activity, Environmental Facility and Nature Based Tourism.<br>It is noted that AO1.1 of the Rural Tourism code refers to a maximum of 150m <sup>2</sup> of TUA for a food and drink outlet or shop. It is noted that that this threshold could be adopted in the TOA where associated with another use instead of referring to ‘ancillary’.<br>In the event that ancillary is still used to determine level of assessment further guidance should be prepared to interpret how to apply this. | <b>No amendment proposed.</b><br><br>‘ancillary’ defined by Oxford Dictionary as, ‘subordinate, subservient’, as sufficient to determine the level of assessment. WRC is reluctant to apply only the GFA as the definitive factor in assessment as promoting commercial uses not associated with a Rural activity or tourism use in Rural areas is not the intent of the Rural tourism code.                                                                                                            |
|                        | 3.  | Schedule 1- Definitions – SC1.2 Administrative terms                                       | Planning Regulation 2017                  | The scheme seeks to adopt the following administrative terms which either have similar meaning in the regulation or are elsewhere defined in legislation: <ul style="list-style-type: none"> <li>Average building height</li> <li>Engineering work</li> <li>Essential service uses</li> <li>Future State Transport Corridor</li> <li>Isolated Areas</li> <li>Non-tidal artificial waterway</li> <li>Short Term Accommodation (Dwelling)</li> </ul>                                                                                                                                                                                                                     | Section 8 of the Regulation states that a planning scheme may include additional administrative terms contained in schedule 4 of the Regulation, but only if the term and definition used is consistent with and does not change the effect of the administrative terms and their definitions in the Regulation.<br><br>There are also a number of new administrative terms which are proposed to be introduced through the amendment which may change the                                                                                                                                                                                      | <b>No amendment proposed.</b><br><br>The <i>average building height</i> term is required to support the building height overlay in determining an appropriate level of assessment for development on extreme slopes. Without this administrative term, development of dwellings on established residential lots on steep slopes cannot occur ‘as-of-right’, instead triggering more red tape in impact assessment. Building height precincts for these areas were considered a less desirable solution. |

|    |                                                                   |                                      |                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

There has been little to no explanation given as to the reason for the inclusion of these administrative terms and hence further explanation is requested from Council as to these matters.                                                                                                                                                                                                                                                                                                                                                | <p><i>Engineering work</i> – this form of operational works is not defined by the Regulation. It was created to ensure greater clarity on when this form of development is applied.</p> <p><i>Short-term accommodation (Dwelling)</i> – Created in-leu of no current policy direction from DSDILGP to date on holiday house style uses. The administrative term is necessary to support WRC's controls on short-term accommodation within a dwelling.</p> <p><i>Solar panel farm</i> – This administrative term was created as WRC wanted to provide streamline assessment for <i>renewable energy facilities</i> that are <i>solar panel farms</i>, excluding other forms of solar farms that may include thermal energy arrays.</p> <p><i>Essential service uses, Future transport corridor, Isolated areas, Non-tidal artificial waterway, Social housing, Stream order and Vulnerable uses</i> – these terms have been copied from the Regulation or SPP for ease of use in the Planning Scheme and are appropriately referenced to the source.</p> |
| 4. | Definitions – administrative terms                                | Planning Regulation 2017             | The scheme seeks to introduce a new administrative definition new use being <i>Short Term Accommodation (dwelling)</i> . Provide further clarification around its intended application for the scheme.                                                | It is unclear what is trying to be achieved by the inclusion of this term.                                                                                                                                                                                                                                                                                                                                                                                                                         | <p><b>No amendment proposed.</b></p> <p><i>Short-term accommodation (Dwelling)</i> – Created in-leu of no current policy direction from DSDILGP to date on holiday house style uses. The term is necessary to support WRC's controls on short-term accommodation within a dwelling.</p>                                                                                                                                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 5. | Definitions – administrative terms                                | Planning Regulation 2017             | The amendment also seeks to include a new administrative definition for 'average building height'. Provide further justification, (include examples of scenario testing) which supports why the new 'average building height' definition is required. | Rather than creating a whole new definition, it is preferable that the current building height definition only is used and that the code be amended to make allowance for those sites with significant slope.                                                                                                                                                                                                                                                                                      | <p><b>No amendment proposed.</b></p> <p><i>Average building height</i> – Required to support the building height overlay in determining an appropriate level of assessment for development on extreme slopes. Without this administrative definition, development of dwellings on lots approved on extreme slopes cannot occur 'as-of-right', instead triggering more red tape in Impact assessment. Building height precincts for these areas were considered a more complicated and tricky solution. The methodology was adapted from the Summit Preliminary Approval in Airlie Beach and scenario testing was undertaken for sites related to the development.</p> |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 6. | Schedule 1 Definitions – Administrative Definitions Table SC1.2.2 | Regulated Requirements               | Reconsider administrative definition coastal environment work                                                                                                                                                                                         | Definitions can only be added if it is not defined in other legislation.                                                                                                                                                                                                                                                                                                                                                                                                                           | <p><b>Noted, this will be amended.</b></p> <p>WRC will alter the definition in Schedule 1 and terminology in the code to be in alignment with SPP 2017 – <i>Coastal protection work means any permanent or periodic work undertaken primarily to manage the impacts of coastal erosion or storm tide inundation, including altering physical coastal processes such as sediment transport. Coastal protection work includes erosion control structures.</i></p>                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 7. | Schedule 1 Definitions – Administrative Definitions Table SC1.2.2 | Regulated Requirements / Workability | Reconsider administrative definition coastal hazard area                                                                                                                                                                                              | Definitions can only be added if it is not defined in other legislation.                                                                                                                                                                                                                                                                                                                                                                                                                           | <p><b>Noted, this will be amended.</b></p> <p>The <i>coastal hazard area</i> administrative term relates to the Coastal Hazard Overlay Map and is not defined by other legislation. The Administrative term is required to appropriately explain the Coastal hazard overlay for storm tide and erosion and will be altered to include additional overlays as required by State.</p>                                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| 10. | Level of assessment determinations           | Scheme approach and Structure                                                      | <p>The intent to facilitate innovative land uses through reductions in the level of assessment for uses in some zones is supported in principle but the scheme provisions may need some adjustment. In particular, where a level of assessment determination hinges upon whether a proposed use is “ancillary”.</p> <p>Provide further clarification how these provisions are intended to operate. It is not clear how an applicant would make a determination about whether a proposed activity is ‘ancillary’ for the purpose of determining level of assessment.</p> <p>It is noted that AO1.1 of the Rural Tourism code refers to a maximum of 150m<sup>2</sup> of TUA for a food and drink outlet or shop. It is recommended that this threshold be adopted in the table of assessment instead of referring to ‘ancillary’.</p> | Further commentary required to demonstrate alignment of strategic intent with scheme structure.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | <p><b>No amendments proposed.</b></p> <p>WRC consider ‘ancillary’ defined by Oxford Dictionary as, ‘subordinate, subservient’, as sufficient to clearly determine the level of assessment that does not involve technical issues that would require a level of professional expertise to decide. WRC are reluctant to apply only the GFA as the definitive factor in assessment as promoting commercial uses not associated with a Rural activity or tourism use in Rural areas is not the intent of the Rural tourism code.</p> <p><b>Noted, this will be amended.</b></p> <p>In the instance of micro-breweries and coffee roasting being ancillary to a Food and drink outlet in the TOA. This is proposed to be amended to <i>associated with a Food and drink outlet, Bar or Hotel</i>, as ‘ancillary’ (being subordinate) is not the intent and Bar and Hotel uses are also likely to co-exist with these innovative uses.</p>      |                                                                                                             |
| 11. | Short-term accommodation and multi-unit uses | Scheme approach and Structure- Clarity and transparency in the plan making process | <p>Council to provide further commentary in regards to the rationale for the proposed changes short-term accommodation and multi-unit dwellings (i.e. what is the existing issue that needs to be addressed) and the desired effect that these changes with respect to the regulation of land use that these changes are intended to achieve.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | <p>Further commentary required to demonstrate alignment of strategic intent with scheme structure.</p> <p>A number of changes have been made to the scheme structure around multi-unit dwellings and short-term accommodation including:</p> <ul style="list-style-type: none"> <li>the inclusion of a new use definition – Short Term Accommodation (Dwelling);</li> <li>changes to the existing multi-unit use administrative definition; and</li> <li>new provisions included in the Short-term accommodation and Multi-units uses code around the regulation of short-term accommodation (dwelling).</li> </ul> <p>There is limited justification provided as to the reason these provisions are being introduced, the intended scope of the provisions what they are trying to achieve in a broader strategic sense.</p> | <p><b>Noted, this will be amended.</b></p> <p>The Short-term accommodation (dwelling) requirements will be amended:</p> <p><b>9.3.17 Short-term accommodation and Multi unit uses code.</b><br/>PO1 will be deleted.<br/>PO2 will be deleted.<br/>PO3 will be reduced to waste storage and signage.</p> <p>WRC will investigate the benefit of a Local Law to assist in compliance and enforcement. If no testing of these provisions has taken place it is recommended that this be done to test the rigor of these provisions. |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |  | <p><b>No amendments proposed.</b></p> <p>Strategic Planning developed amendments in conjunction with the Development assessment team and undertook testing to ensure proposed amendments are functional.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 13. | Code provisions and level of assessment- Short-term accommodation (dwelling) | SPP Guiding principle – Outcome focused and positive                              | Council to amend or remove operational focused assessment benchmarks and specific outcomes and consider level of assessment.                                                                                                  | <p>The proposed code provisions around “Short Term Accommodation (dwelling)” are more regulating operational matters relating to ongoing use of the premises, rather than whether the land use is appropriate. It is considered that most of these provisions are not related to land use and are more regulating potential behavioural issues that may or may not result from the land use and would be better addressed through existing regulation, local laws or similar.</p> <p>In many circumstances, “Short Term Accommodation (dwelling)” is impact assessable. The rationale for this level of assessment should be explained and consideration given to lowering this level of assessment.</p> |  | <p><b>Noted, Short Term Accommodation requirements will be amended.</b></p> <p>See section 11 above.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 14. | Ancillary use                                                                | SPP Guiding Principle – Integrated                                                | Some clear guidance about what is and what isn't “ancillary” is required if it is determinative of level of assessment.                                                                                                       | <p>Identify the assessment process for ancillary uses and clarify how ‘ancillary’ is determined.</p> <p>Specifically, microbrewery and coffee roasting in Centre zones clarify how is a determination made as to whether they are an “ancillary” use.</p> <p>Must be ancillary to food and drink outlet, but typically a microbrewery would be associated with a bar or hotel use. Consider expanding these provisions where for a hotel or bar.</p>                                                                                                                                                                                                                                                     |  | <p><b>No amendments proposed.</b></p> <p>WRC considers ‘ancillary’ defined by Oxford Dictionary as, ‘subordinate, subservient’, as sufficient to clearly determine the level of assessment that does not involve technical issues that would require a level of professional expertise to decide.</p> <p><b>Noted, this will be amended.</b></p> <p>In the instance of micro-breweries and coffee roasting being ancillary to a Food and drink outlet in the TOA. This is proposed to be amended to <i>associated with a Food and drink outlet, Bar or Hotel</i>, as ‘ancillary’ (being subordinate) is not the intent and Bar and Hotel uses are also likely to co-exist with these innovative uses.</p> |

| 16a                                                            | Proposed amendment: Level of Assessment defaulting to Impact rather than Code – Specifically Domestic Outbuildings (Dwelling House Code and Dual Occupancy Code) - Extracted from Table 1 Item No 16 | Department of State Development, Infrastructure, Local Government and Planning | <p>a) Reconsider the levels of assessment for a domestic outbuilding with a Dwelling House or Dual Occupancy.</p> <p>b) Consider how the categories of development and assessment work, specifically:</p> <ul style="list-style-type: none"> <li>For Code assessable development there is no requirement for notification. However, where local government is the assessment manager for a code assessable development, it may also have regard to the common material for a development application. This may include a submission about the application that the assessment manager has accepted or any other advice or comment about the application that a person gives to the assessment manager</li> <li>Under section 60 of the <i>Planning Act, 2016</i> the assessment manager must decide to approve the application to the extent the development complies with all the assessment benchmarks for the development.</li> <li>The assessment manager may decide to approve the application even if the development does not comply with some of the assessment benchmarks, for example, where the decision resolves a conflict between assessment benchmarks.</li> <li>The assessment manager may</li> </ul> | <p>The department does not support the proposed levels of assessment for a domestic outbuilding associated with a Dwelling House or Dual Occupancy. A Domestic Outbuilding in a Residential (Low Density, Low-Medium Density or Tourist Accommodation) or Mixed use Zone, where not complying with AO1.2 of the Dwelling House Code, is Impact Assessable. Similarly, a Domestic Outbuilding associated with a Dual Occupancy in a Residential (Low Density, Low-Medium Density or Tourist Accommodation) or Mixed use Zone, where not complying with AO3.1 of the Dual Occupancy Code, is also Impact Assessable. This is deemed to be overly restrictive for a non-habitable structure, noting that sufficient evidence to justify the proposed level of assessment has not been provided.</p> <p>The proposed levels of assessment are to align with the SPP Guiding Principles in <i>the Drafting a Planning Scheme: Guidance for Local Governments</i>, prepared by Queensland Treasury (Planning Group), June 2020, specifically:</p> <p>a) Efficiency<br/>Regulate development to the extent necessary, to create a land use planning and development assessment system that is responsive and not overly restrictive.</p> <p>Limit content to that suited to a statutory instrument that seeks to regulate land use and planning outcomes. For example:</p> <ul style="list-style-type: none"> <li>ensure outcomes are those</li> </ul> | <p>Dwelling House Code (original amendments in red, additional amendments in green):</p> <p><b>PO1</b><br/>A Dwelling house and domestic outbuildings are of a scale, location and built form that:</p> <p>(a) contributes positively to the streetscape;<br/>(b) has a design and built form that complements the residential character of the area;<br/>(c) ensure adequate provision of area for all residential buildings and associated ancillary uses on-site; and<br/>(d) avoids negative impacts on the streetscape or adjoining properties.</p> <p><b>AO1.3</b><br/>The size and location of domestic outbuildings within a Residential zone or Mixed use zone does not compromise the on-going residential use of the site, ensuring:</p> <p>(a) where no dwelling house is on-site, adequate unencumbered area is provided for a dwelling house;<br/>(b) where reticulated water is not available, adequate unencumbered area is provided for water storage; and<br/>(c) where reticulated sewerage is not available, adequate unencumbered area is provided for effluent areas.</p> <p>Note - This may be demonstrated by providing a site plan showing that the size and location of the domestic outbuilding allows sufficient area for a future dwelling, water storage and effluent areas, while meeting all relevant setback requirements.</p> <p>Dual Occupancy Code (original amendments in red, additional amendments in green):</p> <p><b>PO3</b></p> |                                                                                                                                                                                                                                                                                                             |

|     |                     |                                      |                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

This can establish credibility for future decision making and provide a reference when determining appropriate strategic outcomes, spatial allocations and assessment benchmarks. Consider what matters are of community interest and would benefit from community input at development application stage to inform the setting of category of development and assessment.</p> | <p>Domestic outbuildings associated with a Dual occupancy are of a scale, location and built form that:</p> <ul style="list-style-type: none"> <li>contributes positively to the streetscape;</li> <li>have a design and built form that complements the residential character of the area; and</li> <li>ensures adequate provision of area for all residential buildings and associated ancillary uses onsite; and</li> <li>avoids negative impacts on the streetscape or adjoining properties.</li> </ul> <p>AO3.2<br/>The size and location of domestic outbuildings within a Residential zone or Mixed use zone does not compromise the on-going residential use of the site, ensuring:</p> <ul style="list-style-type: none"> <li>where no dwelling house is on-site, adequate unencumbered area is provided for a dwelling house;</li> <li>where reticulated water is not available, adequate unencumbered area is provided for water storage; and</li> <li>where reticulated sewerage is not available, adequate unencumbered area is provided for effluent areas.</li> </ul> <p>Note - This may be demonstrated by providing a site plan showing that the size and location of the domestic outbuilding allows sufficient area for a future dwelling, water storage and effluent areas, while meeting all relevant setback requirements.</p> |
| 17. | The Planning Scheme | SPPP Guiding Principle – Accountable | Consider revising the code provision relating the Short-term Accommodation (dwelling) to limit the code requirements to land use rather than operational matters which are better suited to other forms of non-planning related regulation. | <p>Plans should only seek to regulate land use and planning outcomes. It is considered that a number of the provisions that relate to Short Term Accommodation (dwelling) with the Short Term Accommodation an Multi unit use code are not necessarily that related to land use but are day to day operational matters that are better suited to existing regulation, local laws / a code of conduct / by-laws or similar. Such matters include:</p> <ul style="list-style-type: none"> <li>Limiting the number of occupants per bedroom</li> <li>Limiting congregation around entrance of premises</li> <li>Regulating adult entertainment on the premises</li> <li>Establishing a code of conduct for each individual premises (if anything a standard code of conduct should be developed by the council which would apply to all such uses).</li> </ul> | <p><b>Noted, Short Term Accommodation requirements will be amended.</b></p> <p>See section 11 above.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

| 4. | Bushfire hazard overlay code                           | Section 8(5) of the Planning Act 2016                                                                                                                                                                     | Review the Bushfire hazard overlay code, considering the model code outlined in "Natural hazards, risk and resilience state interest- Bushfire. Example planning scheme assessment benchmarks" to ensure the planning scheme is not regulating building assessment provisions under the <i>Building Act 1975</i> .                                                                                                                                                                                                                                                                                                                                                                                                           | The code includes building provisions that should not be addressed in the planning scheme. In reviewing the code, refer to section 3.9 of the guidance material- Integrating building work in planning schemes- Guidance for local governments (updated June 2021).<br><br>Refer also to the model code outlined in "Natural hazards, risk and resilience state interest- Bushfire. Example planning scheme assessment benchmarks"                                                                                                                                                                                                                                                                                                                                                                                                             | <b>Noted, this will be amended.</b><br><br>The amended code will be deleted and replaced with the model code from 'Natural hazards, risk and resilience – Bushfire State Planning Policy – state interest guidance material May 2021 V1.0' and add WRC Region specific requirements for bushfire fighting purposes.<br><br>The Planning Scheme Policies for Bushfire Management being <b>SC6.5.3</b> Bushfire Hazard assessment report and <b>SC6.5.4</b> Bushfire hazard management plan are deleted, as the guidance from QFES 'Bushfire Resilient Communities dated October 2019' is the most up to date requirement. |
| 5. | Bushfire Hazard Overlay Code Table 8.2.6.3.1 PO3 AO3.1 | Section 12 of the Building Regulation 2006 Australian Standard AS3959 NCC 2019 Volume 1 Part G5.2 Construction in bushfire prone areas NCC 2019 Volume 2 Part 3.10.5 Construction in bushfire prone areas | Request to remove all of PO3 and text in AO3.1 relating to bushfire defensible space and distance between buildings, specifically: <del>Buildings or building envelopes, excluding class 10 structures, are separated:</del><br>(a) <del>by at least 8m where for a material change of use; and</del><br>(b) by a bushfire defensible space on the premises that provides a buffer from hazardous vegetation by a distance that achieves a radiant heat flux level at any point on the building or envelope that does not exceed:<br>(i) 10kW/m <sup>2</sup> where involving a vulnerable use, essential service use or hazardous chemical facility use; or<br>(ii) <del>29kW/m<sup>2</sup> for all other development.</del> | These considerations are addressed in the building assessment provisions. A building certifier must determine the location and structural requirements of class 1-3 and associated 10a building or deck by working through the requirements of Australian Standard (AS) 3959. Section 12 of the Building Regulation 2006 outlines which provisions local governments may address in regard to building in bushfire prone areas.                                                                                                                                                                                                                                                                                                                                                                                                                | <b>Noted, this will be amended.</b><br><br>The amended code will be deleted and replaced with the model code from 'Natural hazards, risk and resilience – Bushfire State Planning Policy – state interest guidance material May 2021 V1.0' and add WRC Region specific requirements for bushfire fighting purposes.<br><br>The Planning Scheme Policies for Bushfire Management being <b>SC6.5.3</b> Bushfire Hazard assessment report and <b>SC6.5.4</b> Bushfire hazard management plan are deleted, as the guidance from QFES 'Bushfire Resilient Communities dated October 2019' is the most up to date requirement. |
| 6. | Bushfire Hazard Overlay Code Table 8.2.6.3.1 AO5.1     | AS2419 2005, Part 1, Section 5 NCC Volume 1 E1.3 Fire hydrants Section 31(4) of the Building Act 1975 Section 8(5) of the Planning Act 2016                                                               | Remove AO5.1 (a) and (b) or revise and ensure relevant sections are only applicable to reconfiguring a lot and operational work.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | The Australian Standard 2419: 2005 - Fire Hydrant Installations is a referenced document in the National Construction Code (NCC). The provisions address Building Assessment Provisions contained in this Standard and need to be removed as per s31 of the Building Act 1975. Refer AS2419 2005, Part 1, Section 5 which contains provisions for the proximity of hardstand areas from various water supply sources. Note that although AS 2419 only addresses requirements for class 2-9 buildings, local governments should not prescribe hardstand requirements for Class 1a buildings (dwellings) due to the scope of the Building Assessment Provisions. Refer section 32 of the Building Act 1975 for local laws, local planning instruments and local government resolutions that may form part of the building assessment provisions. | <b>Noted, this will be amended.</b><br><br>The amended code will be deleted and replaced with the model code from 'Natural hazards, risk and resilience – Bushfire State Planning Policy – state interest guidance material May 2021 V1.0' and add WRC Region specific requirements for bushfire fighting purposes.<br><br>The Planning Scheme Policies for Bushfire Management being <b>SC6.5.3</b> Bushfire Hazard assessment report and <b>SC6.5.4</b> Bushfire hazard management plan are deleted, as the guidance from QFES 'Bushfire Resilient Communities dated October 2019' is the most up to date requirement. |

| Housing supply and diversity | 1.  | Part 3 Strategic framework, 3.2 Strategic intent (2)                                                    | Policy 2 and 3              | Amend as follows:<br>“The Region’s major townships and communities have a strong and proud social identity, being sustainable and well supported through the provision of a variety of <b>social and</b> affordable housing <b>and</b> lifestyle options and appropriate community and utility infrastructure.”                                                                                                      | Paragraph (2) includes reference to affordable housing, which is supported, but it is requested that the Council also give support to a wider range of affordable housing outcomes to include social housing to better meet the provisions of the Housing Supply and Diversity State Planning Policy.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | <b>Noted, this minor wording will be amended.</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|                              | 2.  | Ch 3.2.1 Liveable communities and Housing 3.2.1.1 Strategic outcome and 3.2.1.2 Land use strategies (1) | Policy 2 and 3              | Amend 3.2.1.2 to include specific land use strategies to include additional measures to deliver social and affordable housing outcomes by encouraging housing choices and a diversity of housing types in this location.                                                                                                                                                                                             | Additional measures to deliver social and affordable housing outcomes in the land use strategies are encouraged. For example - this can be by encouraging housing choices and a diversity of housing types in these locations. (Further information is in the SPP Housing Supply and Diversity and its Guidance Material. Nearby local government areas which address affordable and social outcomes in the strategic framework are Townsville and Mackay. The recently approved Noosa Plan 2020 has also a number of strategic outcomes for housing choice).                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | <b>No amendments proposed.</b><br><br>WRC is researching affordable housing, and this will be included in a future amendment.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|                              | 3.  | s8.2.5 Building heights overlay code, Table 8.2.5.3.2, Table 8.2.5.3.3                                  | Policy 3                    | Justify changes in maximum building heights in Table 8.2.5.3.2 for Airlie Beach Precinct B (increase from 14 to 18 m), Airlie Beach Precinct E (increase from 14 to 18 m) and Airlie Beach Precinct F (decrease from 18 to 14 m). Clarify and justify changes to the slope from exceeding 15% to be between 15 to 25% in Table 8.2.5.3.3 and confirm is there is consistency with the landslide hazard overlay code. | Previously, the maximum building heights for the Airlie Beach Precincts were within Table 5.7.1 Building work, which has been moved to the Building heights overlay code Table 8.2.5.3.2. The major amendment package does not provide reasoning for changes to the heights in Precincts B, E and F of Airlie Beach.<br><br>Previously the tables of assessment (Table 5.7.1) identified maximum building heights on slopes for zones (i.e. Residential, centre, industry, recreation, environmental etc.) to be 10 above ground level where located on slopes exceeding 15%. It is noted that these provisions have been moved to the Building height overlay code and changed to be within a range of 15-25% slope in Table 8.2.5.3.3 for a number of zones and new provisions for building heights on slopes greater than 25% introduced through Table 8.2.5.3.1. The reasoning for these changes is sought when the landslide overlay code has been amended to pick up development on land with a slope of 15% or greater, consistent with the definition of landslide hazard. | <b>No amendments proposed.</b><br><br>WRC has altered the Airlie Beach precinct names in a more logical order. The building heights for each location have not varied.<br><br>Amendments to building height for slope ranges were made to create a fair and reasonable trigger for building height impact assessment on extreme slopes greater than 25%, utilising the <i>Average building height</i> methodology. This is necessary to reduce red tape on extreme slope lots (e.g. Seaview Dr), which should permit a dwelling ‘as of right’ but all are currently triggered as impact assessment under current building height provisions.<br><br>The building height overlay code trigger for impact assessment is not related to the Landslide hazard overlay code. The Landslide Hazard Overlay triggers any development triggered on the landslide hazard overlay map or over 15% slope as per the relevant TOA.<br><br>For further clarity, please see the WRC Meeting report.<br><br>Note: an administrative typographical error was identified, Precinct E will be amended from 18m to 14m as per existing building heights and Council resolution. |
|                              | 4.  | Schedule 2- Mapping                                                                                     | Policy 5                    | Provide confirmation if council has undertaken or intends to undertake a housing needs assessment and / or land                                                                                                                                                                                                                                                                                                      | The proposed amendment involves a number zoning changes including moving rural land to rural residential or low density residential.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | <b>No amendments proposed.</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

It does not appear to accommodate tourists arriving at differing times and would require the proponents (farmers) be taken away from their primary purpose of farming to drive a bus (potentially daily). It is not considered an appropriate or workable outcome. Consider additional AOs to clarify support for use of other modes of transport. | <b>Noted, this will be amended.</b><br><br>WRC will remove the reference to 'utilising mini-buses to reduce vehicular trips.'                                                                                                                                   |
| <b>Biodiversity</b>                                                 | 7. | Strategic Framework Strategic Framework Map | Policy 1 and 2                                        | Provide greater recognition Matters of National Environment Significance (MNES) and Matters of State Environmental Significance (MSES) in the strategic framework and consider representation of these matters in the strategic framework map                                                                                                                                                                                                                                                                                                                                                                                                                                                              | There is no mention of MSES or MNES in the strategic framework. Recognition of MNES and MSES is required to meet the SPP policies Mapping on the Strategic framework map, where MNES and MSES have geographical boundaries (e.g. Great Barrier Reef Marine park area) clearly identifies whether there are any in the local government area.                                                                                                                                                   | <b>Noted, this will be amended.</b><br><br>MNES and MSES will be added to the Strategic Framework mapping as one layer. MSES and MNES will also be added to the Strategic Framework (Part 3) 3.3.2 Environment and Heritage – 3.2.3.2 (6) as a new sub-section. |

| Cultural<br>Heritage | 25. | Heritage Register (under the <i>Queensland Heritage Act 1992</i> ) | Policy 4         | <p>Further justification is required identifying the reasons (and background justification) for the removal of 5 places from the 2017 planning scheme Heritage Overlay as follows:</p> <ol style="list-style-type: none"> <li>1. Hook Island Observatory;</li> <li>2. Proserpine Memorial;</li> <li>3. Palace Hotel;</li> <li>4. Proserpine Plumbing building (former theatre); and</li> <li>5. Bowen Church</li> </ol> | <p>According to the Council meeting agenda material, Hook Island Observatory is already demolished, Proserpine Memorial is to be replaced and Palace Hotel is in critical repair. It should be noted that these reasons relate to the need for development approval to demolish them not necessarily removal from the local heritage overlay and register.</p> <p>Investigation indicates that Proserpine Plumbing building (former theatre) and the Bowen Church were removed from the local heritage register because of their state of repair sometime in 2017.</p> <p>Clear reason for the action of removing these places from the heritage register is required to provide community confidence in the system of local heritage place protection.</p>                                                                                                                                                                                                                                                                    | <p><b>Noted, this will be amended.</b></p> <p>The four sites where the structures have been demolished will be removed, and the two sites where structures are still physically standing will remain on the Heritage Overlay.</p> <p>Removed</p> <ul style="list-style-type: none"> <li>• Hook Island Observatory</li> <li>• Uniting Church Bowen</li> <li>• Proserpine War Memorial</li> <li>• Proserpine Plumbing</li> </ul> <p>Remaining</p> <ul style="list-style-type: none"> <li>• Palace Hotel</li> <li>• Uniting Church Proserpine</li> </ul> <p>The mapping will be amended.</p> |
|                      | 26. | 8.2.10.3.1 PO1/AO1.1                                               | Policies 5 and 6 | <p>Amend PO1 and AO1.1 to merge the PO and AO and state no acceptable outcome is prescribed.</p>                                                                                                                                                                                                                                                                                                                        | <p>It is questionable as to whether AO1.1 is an appropriate AO given there would be many ways in which an application could demonstrate compliance with it. It may be preferable to revise the PO to incorporate concepts drawn out in the current AO (in fact the AO reads more like a PO if you then look at the codes purpose statement).</p> <p>Comments on terms used in the current AO (possible PO):<br/>“As far as practicable” is a low standard that lacks certainty and clarity.</p> <p>However, the validity of (c) as an alternative provision is recognised, with two changes. Work of minor scale can have a large impact on cultural heritage significance, therefore the standard of “minor impact on the cultural heritage significance of the local heritage place or area” is recommended instead. Secondly, using the term “economic” rather than “significant” use ensures the outcome applies only when necessary to conserve the place, and hence is more consistent with the performance outcome.</p> | <p><b>Noted, this will be amended.</b><br/>(original amendments in red, additional amendments in green)</p> <p>The AO is proposed to be retained, with exception of the below amendments:</p> <ul style="list-style-type: none"> <li>- WRC will remove ‘as far as practicable’ from AO1.1 (b);</li> <li>- WRC will amend AO1.1 (c) to:</li> </ul> <p>Only results in minor impacts on the cultural heritage significance of a place if it is necessary to maintain an economic use of the heritage place.</p>                                                                             |

|               | 29.                                                           | 8.2.10.3.1 P03 / AO3.1                                          | Policies 5 and 6 | Amend PO3 an AO3.1 to merge the PO and AO and state no acceptable outcome is prescribed.                                                                                                                                                                                       | <p>AO3.1 should be merged into PO3 (there are elements in it that should feature in the performance outcome). The notes can apply to the performance outcome. AO3.1 does not have the level of measurability required in an acceptable outcome.</p> <p>The heading to PO3 has a typo – the first ‘or’ should be ‘of’.</p> <p>Use of the word ‘altered’ means the current drafting of the performance outcome overlaps with PO1 (and its acceptable outcome). If what is really being referred to is demolition (total or substantial), maybe is the word that should be used. ‘Altered’ leads to confusion with PO1.</p> <p>The ‘Local Heritage Register Policy’ has not been provided for DES consideration and is not available online. It should be consistent with the requirements in the Heritage Act in relating to removing places from the Local Heritage Register.</p> <p>“Any other relevant justifications” is so loose it makes the other alternatives irrelevant.</p> | <p><b>Noted, this will be amended.</b></p> <p>(original amendments in red, additional amendments in green)</p> <p>Whilst WRC is reluctant to apply ‘No acceptable outcome’, in this instance it is appropriate.</p> <p>PO3 to be amended:<br/> <b>A Heritage place or part of a Heritage place must not be demolished, unless it can be demonstrated that:</b><br/> <b>(a) it is not capable of structural repair as certified by a suitably qualified professional; and</b><br/> <b>(b) repair is not feasible having regard to economic or health and safety considerations.</b></p> <p>Notes within the AO will be retained.</p> <p>Heading above PO3 will be amended to fix the typographical error.</p> <p>The <a href="#">Local heritage policy</a> is available on WRC’s website within the <a href="#">Policy section</a> and the policy is consistent with the <a href="#">QLD Heritage Act 1992</a>.</p> |

|   | 32. | Development Codes Table 9.4.2.3.1 AO2.2                | Policy 4 | Amend as follows:<br>AO2.2<br>The ESPC demonstrates that release of sediment-laden stormwater is avoided <b>during the</b> nominated design storm, and minimised when the nominated design storm is exceeded, by addressing design objectives listed below in Table 9.4.2.3.2 Stormwater management design objectives – construction phase.                                                                                                                                                                                      | AO2.1 is required to comply with Water Quality state interest and additional words correct typographic omission.                                                                                                                                                                                 | <b>Noted, this will be amended.</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| + | 33. | The planning scheme                                    | Policy 2 | Provide a comprehensive fit for purpose storm-tide inundation and erosion prone areas risk assessment to identify and achieve an acceptable outcome or tolerable level of risk for personal safety and property in accordance with the State Planning Policy 2017.                                                                                                                                                                                                                                                               | A fit for purpose risk assessment is required under the SPP 2017.<br><br>Please refer to chapter 13 of “Integrating state interest in a planning scheme- Guidance for local councils” for further information as to how to prepare this document and incorporate it into the proposed amendment. | <b>Natural Hazards Fit for purpose risk assessment has been prepared.</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|   | 34. | Coastal Erosion Area mapping                           | Policy 1 | <b>The proposed erosion prone area mapping is not accepted.</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | Several issues have been discovered the calculated distance component of the Erosion Prone Area (EPA) mapping at several locations appears to be incorrect. The mapping methodology used to generate the distances will require amendment before it can be accepted.                             | <b>Noted, this will be amended.</b><br><br>These issues have been workshopped with DES, WRC and WRC Consultants reaching a mutual resolution. Amended mapping and a technical memorandum will be uploaded to the State Portal and the memo attached (SIR Erosion Prone Tech memo 121121)                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|   | 35. | Coastal Erosion Area mapping                           | Policy 3 | Once EPA mapping is revised and approved by DES, recheck urban zoning changes to ensure future urban zones are not located in areas within an EPA and in a coastal management district.                                                                                                                                                                                                                                                                                                                                          | The draft EPA mapping appears to meet this policy requirement, however as the EPA mapping requires readjustment, this will need to be rechecked to ensure no future urban purposes are in EPA.                                                                                                   | <b>No amendments proposed.</b><br><br>There has been no increase to urban zoned land or future urban zoned land in this Major Amendment, with the exception of correcting administration errors.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|   | 36. | Part 3, Strategic Framework 3.2.4.1 Strategic Outcomes | Policy 4 | Amending the statements in 3.2.4.2 to establish the principle of only appropriate development occurring in coastal hazard areas.                                                                                                                                                                                                                                                                                                                                                                                                 | Acknowledgement of risk and appropriate development should be included in the strategic framework as per Policy 4 advice.                                                                                                                                                                        | <b>Noted, 3.2.4.2 (1) will be amended.</b><br><br>(original amendments in red, additional amendments in green)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|   | 37. | Part 3, Strategic Framework 3.2.4.2 Strategic Outcomes | Policy 3 | Amend to remove the reference to specific locations listed in land use strategy 3.2.4.2(1) as follows:<br>Risks to people and property are minimised in areas within or adjacent to natural hazard areas. <del>particularly escarpments behind Airlie Beach and Hideaway Bay (landslide); Bells Gully, Campbell Creek, Don River, and Proserpine River (flooding); and Bowen Front Beach, Cannonvale Beach, Conway Beach, Greys Bay, Rose Bay, Queens Beach, Queens Bay and Wilson Beach (coastal erosion and storm surge)</del> | Specifying locations for risk minimisation is not comprehensive enough when certain hazard mapping (such as erosion prone areas) is across the whole local government area. This should be addressed through a fit for purpose risk assessment.                                                  | a) Risks to people, property, <b>essential service uses and vulnerable uses</b> are minimised in areas within or adjacent to natural hazard areas <b>by avoiding the risk, mitigating the risk or removing the hazard.</b><br><del>particularly escarpments behind Airlie Beach and Hideaway Bay (landslide); Bells Gully, Campbell Creek, Don River, and Proserpine River (flooding); and Bowen Front Beach, Cannonvale Beach, Conway Beach, Greys Bay, Rose Bay, Queens Beach, Queens Bay and Wilson Beach (coastal erosion and storm surge).</del><br><br>WRC is reluctant to utilise the term ‘appropriate development’ as it is poorly defined. It is considered the above wording captures the essence of the requested amendment for all-natural hazard areas. |
|   | 38. | 8.2.7 Coastal hazard overlay code – 8.2.7.2            | Policy 3 | Amend the purpose of the code to include a statement:                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | Overall outcomes for the code should reflect policy 3 requirements for urban expansion not to occur in non-urban areas within erosion prone areas.                                                                                                                                               | <b>No amendments proposed</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

|  |                                                                             |          |                                                                                                                                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

|  |  |  | <p>about risk in the hazard area. Risk is the probability x consequence - the hazard area (1 in 100-year event) x the value of assets in the hazard area. When considering risk, the CHAS typically considers present day assets at a locality. This is appropriate for considering a case for downzoning or other restrictions on development in a high-risk area.</p> <ul style="list-style-type: none"> <li>• However, risk rating in the CHAS may not be appropriate for considering future risk. That is where intensification of development is proposed at a low-risk site. In this case the value of the future development needs to be inputted into the risk calculation and a new risk rating derived. For example, in the case of up zoning of rural land (currently low risk because no development is under threat) to residential (high value assets which will change the risk rating to high). Council will need to consider if planning scheme provisions are needed to address all risk levels.</li> <li>• The mapping was not approved. DES only reviewed the technical study.</li> </ul> <p>Planning Scheme integration</p> <ul style="list-style-type: none"> <li>• Land use zones have not been modified in response to the updated risk mapping, this approach is inconsistent with the SPP.</li> <li>• Medium and high hazards are related to depth of water over land. Inundation and wave run-up are the type of inundation and can be any depth. This needs to be reconsidered.</li> </ul> <ul style="list-style-type: none"> <li>• Confirm what has been determined to be wave runup. Commonly wave setup is applied up to 200m inland. Council's consultant may have used combination wave run-up and setup level (wave effects).</li> <li>• The report for this matter states that the 200m of HAT being the wave run- up areas and extents beyond this (where applicable) is identified as inundation areas and that this methodology was also applied to the State Government's storm tide mapping. This is incorrect, the State mapping is based on depth of water over land.</li> <li>• The report also recommended that the freeboard associated with each of these categories is 'increased' to 1m above. Possibly use 'set at' rather than 'increased'.</li> <li>• The overview summary does not comprehensively reflect the SPP, please identify this in the wording to avoid</li> </ul> |  | <p><b>Planning Scheme integration</b></p> <ul style="list-style-type: none"> <li>iv. WRC cannot alter zones until future iterations of CHAS adequately assess 'risk' in light of potential future engineering solutions, coastal defences or strategic coastal land use policy decisions. Hazard mapping updates inform future development of extents and depths with the overlay code managing risk in development on a case-by-case basis that is consistent with the SPP;</li> <li>v. No change proposed. Inundation and wave run-up better inform risk management responses in the overlay code through corresponding freeboard heights. The study identifies depth for development to consider. Wave run-up area is more extensive than previous 'high hazard' areas in mapping but delivers the same risk management outcomes currently used for high hazard areas, ensuring development is situated outside of this area, doesn't increase in intensity and doesn't increase the number of people calculated to be at risk.</li> <li>vi. Wave run-up is defined in the <a href="#">Coastal Hazard Mapping Refinement Report Section 2.4.1.1</a></li> <li>vii. Noted, this statement has been removed from the report;</li> <li>viii. Noted this terminology has been reflected;</li> <li>ix. Noted, added 'key principles of the SPP'</li> </ul> <p><b>Erosion Prone areas</b></p> <ul style="list-style-type: none"> <li>x. Noted;</li> <li>xi. Noted, Council will supply the most up to date erosion prone mapping once completed;</li> </ul> <p><b>Overview of hazard risk mapping amendments</b></p> <ul style="list-style-type: none"> <li>xii. All other items are noted.</li> </ul> |

| Agriculture                     | 1.  | Strategic Framework 3.2.4 Safety and resilience to hazards Page 7                                       | Policy         | Include specific wording in the Strategic Framework in relation to, in the first instance, avoiding Acid Sulphate Soils.                                                   | Department of Resources suggests including reference to Acid Sulfate Soils (ASS):<br>Low lying areas across the Whitsunday Council area contain ASS that, if exposed, can result in damage to buildings, assets, infrastructure and the local environment. The disturbance of ASS is to be avoided where possible. Where disturbance is unavoidable, the disturbance should be minimised to prevent the mobilisation and release of acid, iron and other contaminants.                                                                                                                                                                                                                                                             | <b>Noted, this will be amended.</b><br><br>Accept change, this will be incorporated within Section 3.2.4.2.                                                                                                                                                                            |
| Mining and extractive resources | 2.  | 9.3.6.2 Purpose and overall outcomes (2)(a) Page 9:41 Section 2                                         | Policy 1 and 2 | Amend as follows:<br>(a) extraction of resources occurs in a sustainable <b>responsible</b> manner,                                                                        | The issue is extractive industry by its very nature cannot be conducted sustainably.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | <b>No amendments proposed.</b><br><br>If in the future WRC intends to amend the Extractive Industry Code, these notes will be taken into consideration.                                                                                                                                |
|                                 | 3.  | Part 9 – 9.3.6 Extractive industry code Page 9:41 PO2                                                   | Policy 1 and 2 | Amend PO2 to be a similar approach to PO1.                                                                                                                                 | PO2 requires extractive industry to maintain suitable and sustainable landscaping on the site. Clarity is sought on what is meant by sustainable landscaping. If this refers to rehabilitation of the site, this should occur at the completion of all operations at a site/within a site. A rehabilitation plan will be part of the DA and/or EA. It is noted that PO1 deals with a related element of public safety where landscaping with battered banks is implemented as a safety measure. It is noted that the acceptable solution provided for PO1 is ‘the extractive industry is undertaken in accordance with an approved environmental management plan, which addresses environmental and social impacts of operations’. | <b>No amendments proposed.</b><br><br>If in the future WRC intends to amend the Extractive Industry Code, these notes will be taken into consideration.                                                                                                                                |
|                                 | 4.  | Part 9 – 9.3.6 Extractive industry code Page 9:41 PO2 to PO7 inclusive & associated acceptable outcomes | Policy 1 and 2 | Amend PO2 – PO7 to refer only to refer to operations above a certain threshold, e.g. removing in excess of 5,000 tonnes / year.                                            | PO7 requires that entry to extractive industry operational areas is restricted to authorised personnel and authorised vehicles, with the associated AO7.1 of a 2m high fence to be erected and maintained around all extractive industry operations and associated infrastructure. An issue arises if the requirement of a 2m high fence is applicable to low-impact sites.                                                                                                                                                                                                                                                                                                                                                        | <b>No amendments proposed.</b><br><br>WRC considers that any extractive industry operations, no matter the size, can pose a safety risk and should have a 2m high fence to ensure safety. Should safety be demonstrated through alternate design or siting, an applicant may meet PO7. |
|                                 | 5.  | 9.3.6 Extractive industry code Table 9.3.6.3.1 PO4                                                      | Policy 1 and 2 | Amend AO4.1 as follows:<br>Extractive industry, involving blasting or crushing, is not carried out <b>continuously</b> within 1km of any sensitive use.                    | The SPP and various environmental instruments do not require a separation distance between blasting and pre-existing uses. Section 440ZB of the Environmental Protection Act 1994 sets standards for air blast and ground vibration. If blasting is less than 1km from sensitive development, it must be designed and monitored to achieve acceptable standards of ground vibration, air blast overpressure and dust. This is addressed as AO6.3 and AO6.4.                                                                                                                                                                                                                                                                        | <b>No amendments proposed.</b><br><br>If in the future WRC intends to amend the Extractive Industry Code, these notes will be taken into consideration.                                                                                                                                |
|                                 | 6.  | Extractive Resources overlay code Table 8.2.8.3.1 AO4.1                                                 | Policy 1 and 2 | Amend AO4.1 as follows:<br>Development for an extractive industry use, <b>in a KRA separation area, does not impact on sensitive or incompatible uses outside the KRA.</b> | For consistency with principles of SPP: Mining and Extractive Resources Guideline.<br>It may be more practical to extend a quarry into a resource within a KRA separation area, that was not included in a KRA resource/processing area when drafted, for a number of possible reasons. However, it should not impact on sensitive or incompatible uses.                                                                                                                                                                                                                                                                                                                                                                           | <b>No amendments proposed.</b><br><br>If in the future WRC intends to amend the Extractive Industry Code, these notes will be taken into consideration.                                                                                                                                |

|              |     |                                                                                             |                |                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                   |

|                   | 14. | Part 8<br>Section 8.2.4<br>Biodiversity,<br>Waterways and<br>Wetland Overlay<br>Code<br>8.2.4.3 Assessment<br>Benchmarks<br>Table 8.2.4.3.2<br>Benchmarks for<br>assessable<br>development                                               | Biodiversity     | Amend Table 8.2.4.3.2 with consistent terminology, specifically:<br>1. 'protected vegetated areas' – is this regulated vegetation, remnant vegetation, native vegetation, or all of these?<br>2. 'wildlife habitat' – is it fauna and flora habitat, fauna habitat, flora habitat, habitat or all of these?<br>3. 'protected areas'- be clear what this is<br>4. 'remnant vegetation'. This term is synonymous with regional ecosystem mapping, and the Vegetation Management Act (VMA). If it is not remnant vegetation as defined in the VMA it is recommended that it be replaced with an alternative term. | Recommend the use of consistent terms throughout the planning scheme and to be consistent with terms used on relevant legislation to maximise clarity and avoid confusion. Or ensure terms are defined.                                                                                                                                                                                                                                                                                                                                                                                                                                        | <p><b>Noted, this will be amended.</b></p> <p>All references will be amended to directly refer to a map of the BWW overlay.</p> <p>'Remnant vegetation' refers to the Regulated Vegetation layers in the BWW overlay, this will be amended in each reference to be more clear.</p>                                                                                                                        |

|        |    |  | assessment to occur for the same use and identify appropriate ways in which this might be managed (such as through a combined development application for a material change of use and preliminary approval for building works). | around Airlie Beach as well as removal of the Airlie Beach Local Plan which set the building heights and urban design criteria for the Airlie Beach town centre. At the time of adoption Council was taking steps to prepare an urban design and place making strategy for Airlie Beach, which will replace the Airlie Beach Local Plan in a future reiteration of the planning scheme. This approach was considered satisfactory and as such, it was recommended the matter be identified as a priority for council to investigate when progressing a planning scheme amendment.                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                                                                                          |
| Advice | 5. |  | Consider the findings of tourism studies and streamlining levels of assessment for tourist developments.                                                                                                                         | <p>Our assessment at the time of Planning Scheme adoption indicated that the strategic framework identified existing tourism opportunities in the region and a major tourist destination (Hamilton Island), is supported by a local plan which ensures development does not compromise the ongoing operation of tourist facilities and attractions on the island.</p> <p>A number of tourism studies were undertaken after the now adopted planning scheme drafting had significantly progressed. These documents outlined the future for tourism in the region and how this can be supported, for example by benchmark levels of assessment for tourism activities and accommodation.</p> <p>Policy 1 of this state interest required that the proposed planning scheme consider the findings of the tourism studies; this was not achieved due to the timing of the release of the study findings. At the time of adoption that council was encouraged to investigate and consider as a priority when progressing a future planning scheme amendment.</p> | WRC considered findings of tourism studies and streamlining levels of assessment for tourist developments within the Major amendment, which includes a new Rural tourism code and lower levels of assessment for tourism associated developments.                                                                                                        |
| Advice | 6. |  | Revise the Multi-unit use code to expand its application as per its intent, as articulated in the tables of assessment.                                                                                                          | Our assessment at the time of Planning Scheme adoption indicated that some tourist accommodation required assessment against the Multi-unit Use Code, for example short-term accommodation which includes motel, backpackers and serviced apartments. However, the way in which the Multi-unit Use Code was drafted restricts its application to only multi-unit uses, which are defined as long-term households. While this does not adversely affect the state interest, it is an outstanding matter that council is encouraged to rectify as a priority when progressing a future planning scheme amendment. This was communicated to council in a letter on 10 April 2017.                                                                                                                                                                                                                                                                                                                                                                              | WRC revised the Multi-unit use code to expand its application to a variety of uses, as articulated in the tables of assessment. The major amendment identifies it as the Short-term accommodation and multi-unit use code, which includes revised outcomes suitable for all short- or long-term accommodation uses that trigger the code for assessment. |
| Advice | 7. |  | Reconsider the levels of assessment in the Community Facilities zone to facilitate development surrounding a strategic airport (Whitsunday Coast Airport).                                                                       | Our assessment at the time of Planning Scheme adoption indicated that the adopted planning scheme recognised the importance of existing airports                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | WRC investigated the need to reconsider levels of assessment, however, it was deemed that existing provisions are sufficient to enable expansion. Air services are accepted development if undertaken by or on behalf of Council and Council is the owner of                                                                                             |

|        |    |  |                                                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

|        |    |  |                                                                                                               | <p>(Whitsunday Coast Airport and Hamilton Island Airport) in the strategic framework and via the community facilities zone code, tables of assessment and the Airport Environs Overlay Code.</p> <p>Policy 2 of this state interest requires the proposed planning scheme to facilitate development surrounding a strategic airport. The strategic framework specifically mentions the development of an international airport (terminal and runway) and associated activities at Whitsunday Coast Airport, which is included in the community facilities zone.</p> <p>The levels of assessment in the community facilities zone identifies that activities such as air services, maintenance and repair of aircraft, freight and logistics depots, air charter businesses, flight training , that are associated with the airport are impact assessable in this zone. At the time of adoption, council was encouraged to investigate and consider the level of assessment for uses near the airport as a priority when progressing a future planning scheme amendment.</p> | <p>the Whitsunday Coast Airport (Proserpine). The Air services definition is very broad and includes ancillary activities noted in the State’s commentary that is anticipated to support airport investments in the future.</p> <p>This investigation is attached for consideration (SIR 2017 Ministerial condition iii Whitsunday Airport)</p>                                                                                                                                                                                                                                                                  |
| Advice | 8. |  | <p>Reconsider the self-assessable development assessment criteria to be clearer and offer more certainty.</p> | <p>Our assessment at the time of Planning Scheme adoption considered the development assessment criteria for self-assessable uses.</p> <p>The adopted planning scheme sought to cut red tape for activities perceived as having a low risk, by making them self-assessable. However, the self-assessable provisions in the adopted planning scheme were ambiguous and lacked certainty. For example, the Home based business code included criteria that “the home based business does not produce any offensive odour emissions beyond the site boundaries.”</p> <p>Earlier versions of the adopted planning scheme included these self-assessable criteria, they are considered acceptable - but not ideal. This was therefore considered an outstanding matter that council was encouraged to remedy as a priority, through a planning scheme amendment.</p>                                                                                                                                                                                                             | <p>WRC considered accepted development benchmarks albeit, has not made significant amendments in the Major amendment in response to this advice for reason of balancing risk vs red tape reduction. The uses that may be accepted development are generally low risk and if Council receives a complaint regarding their operation, then WRC may compliance them against the accepted development benchmarks to trigger a planning application that facilitates improved design solutions.</p> <p>This investigation is attached for consideration (SIR 2017 Ministerial condition iv Accepted Development).</p> |

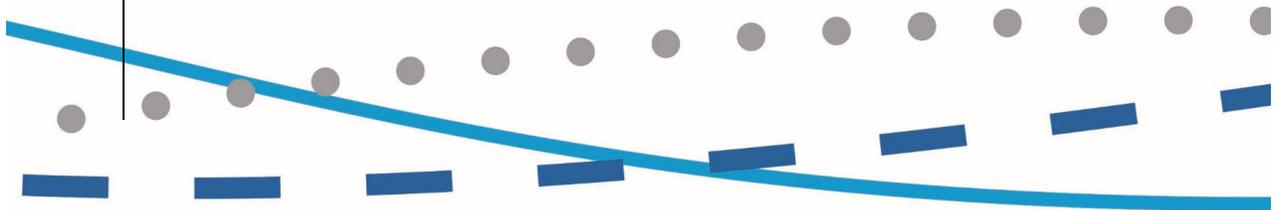

## Whitsunday Regional Council Planning Scheme

~~July 2017~~ November 2021

Version 4.10

Whitsunday Regional Council Planning Scheme – ~~November 2021~~ July 2017 (V4.01)

Whitsunday Regional Council Planning Scheme – ~~November 2021~~ July 2017 (V4.01)

## Citation and commencement

This Planning Scheme may be cited as the *Whitsunday Regional Council Planning Scheme 2017*.

A notice was published in the Government Gazette No. 58 on 30 June, 2017 for the Planning Scheme for the Whitsunday Regional Council.

The commencement date for the Planning Scheme was 3 July, 2017.

Amendments to the Planning Scheme are included at Appendix 2.

## Community statement

The Whitsunday region is a local government area located in North Queensland, approximately 1,000km north of Brisbane and 600km south of Cairns. In March 2008, Whitsunday Regional Council was formed by the amalgamation of Bowen and Whitsunday Shires. The region is a key pillar in Queensland's economy, rich in tourism, agriculture, mining and construction.

From country to coast, the Whitsunday region supports a diverse range of lifestyles that incorporates the regions key economic sectors and tropical natural environment. Major towns Collinsville, Bowen, Proserpine and Airlie Beach each have their own identity that Council seeks to develop and diversify to build a successful, stronger and more resilient region over the next 20 years. The region is spoilt for opportunity by growing links to the Asian tourist market and development of economic catalysts such as Whitsunday International Airport, Airlie Beach developments and the development of the Abbot Point Growth Gateway Project boosting regional exports. The ongoing management of the regions pristine natural environments, fertile soils and water supplies will maintain strong agricultural production in the region.

Whitsunday Regional Council seeks to accommodate these opportunities through the enhancement of existing infrastructure, developing liveable communities and encouraging innovative practices that improve efficiency and sustainability. The region is anticipated to grow by over 20,000 people up to 2036 with over 9,000 more jobs being created. This growth will be accommodated in a compact urban form to reduce impacts on the regions pristine natural environments and fertile agricultural lands. Population growth will be focused around existing centres, encouraging new modern developments that enhance the local community, build a sense of place and develop vibrant liveable communities that are attractive to permanent residents and tourists alike. Development will supplement the special opportunities afforded to the Whitsunday Region in order to maximise the growth in Tourism, Agriculture, Mining and Construction sectors.

In 2036, the Whitsundays will have a thriving economy in a diverse range of sectors that offer resiliency to the region and capitalise on the areas' privileged location alongside tropical paradise, beautiful hinterlands, fertile soils and resource rich geology. The region will attract new families, cultures and millions of visitors who flock to experience the unique Whitsunday lifestyle. Whilst the region will grow and develop, the Whitsunday lifestyle unique to each township will remain.

Editor's note—The Community statement is extrinsic material to the planning scheme.

## Strategic vision

The Whitsundays strategic vision is reflected in the *Whitsunday Regional Council Planning Scheme 2017*, which shows how we will effectively manage growth and land use in the region. This Planning Scheme is the planning framework that focuses upon capitalising upon the regions' opportunities in a sustainable manner using the following guiding principles identified within the strategic framework:

- liveable communities and housing;
- economic growth;
- environment and heritage;
- safety and resilience to hazards; and
- infrastructure;

The *Whitsunday Regional Council Planning Scheme 2017* and its strategic intent will guide growth in the region whilst maintaining a high quality of life for Whitsunday residents.

Editor's note—The Strategic vision is extrinsic material to the planning scheme.

## Part 1 About the Planning Scheme

### 1.1 Introduction

- (1) The Whitsunday Regional Council Planning Scheme 2017 (Planning Scheme) has been prepared in accordance with the *Sustainable Planning Act 2009* (the SP Act) as a framework for managing development in a way that advances the purpose of the SP Act.
- (2) The Planning Scheme was amended for alignment with the *Planning Act 2016* (the Act) by the Minister's rules under section 293 of the Act on July 3 2017.
- (3) In seeking to achieve this purpose, the Planning Scheme sets out Whitsunday Regional Council's (WRC) intention for the future development in the Planning Scheme area, over the next 20 years to 2036.
- (4) The Planning Scheme seeks to advance state and regional policies through more detailed local responses, taking into account the local context.
- (5) While the Planning Scheme has been prepared with a 20 year horizon, it will be reviewed periodically in accordance with the Act to ensure that it responds appropriately to the changes in the community at a local, regional and state level.
- (6) The Planning Scheme applies to the Planning Scheme area of WRC including all premises, roads, internal waterways and local government tidal areas and interrelates with the surrounding local government areas illustrated in **Schedule 2** (Mapping) Overview map - WRC - 01 (Local government Planning Scheme area and context).

Editor's note—State legislation may state that the Planning Scheme does not apply to certain areas, e.g. strategic port land where there is a land use plan only to the extent of any inconsistency. In accordance with the provisions of section 26 of the *Sustainable Ports Development Act 2015* a port overlay for a master planned area prevails over the Planning Scheme, to the extent of any inconsistency.

## 1.2 Planning Scheme components

- (1) The Planning Scheme comprises the following components:
- (a) about the Planning Scheme
  - (b) State Planning Provisions
  - (c) the Strategic framework
  - (d) the Local government infrastructure plan
  - (e) Tables of assessment
  - (f) the following zones and where applicable, zone precincts specified in Table 1.2.1 (Zones and zone precincts) below:

**Table 1.2.1 Zone and zone precincts**

| Zone and zone precincts                                            |
|--------------------------------------------------------------------|
| <b>Residential zones category</b>                                  |
| (a) Low density residential zone                                   |
| (b) Low-medium density residential zone                            |
| (c) Tourist accommodation zone                                     |
| <b>Centre zones category</b>                                       |
| (a) Major centre zone <del>code</del>                              |
| (b) District centre zone <del>code</del>                           |
| (c) Local centre zone <del>code</del>                              |
| (d) Neighbourhood centre zone <del>code</del>                      |
| <b>Industry zones category</b>                                     |
| (a) Low impact industry zone <del>code</del>                       |
| (b) Medium impact industry zone <del>code</del>                    |
| (c) High impact industry zone <del>code</del>                      |
| (d) Special industry zone <del>code</del>                          |
| (e) Waterfront <del>and marine</del> industry zone <del>code</del> |
| (f) Industry investigation zone <del>code</del>                    |
| <b>Recreation zones category</b>                                   |
| (a) Recreation and open space zone <del>code</del>                 |
| <b>Environmental zones category</b>                                |
| (a) Environmental management and conservation zone <del>code</del> |
| <b>Other zones category</b>                                        |
| (a) Community facilities zone <del>code</del>                      |
| (b) Emerging community zone <del>code</del>                        |
| (c) Mixed use zone <del>code</del>                                 |
| (d) Rural zone <del>code</del>                                     |
| (e) Rural residential zone <del>code</del>                         |

- (g) the Local plans specified in Table 1.2.2 (Local plans) below:

**Table 1.2.2 Local plans**

| Local plans                              |
|------------------------------------------|
| (a) <u>Airlie Beach local plan</u>       |
| (b) <u>Bowen local plan</u>              |
| (a)(c) <u>Hamilton Island local plan</u> |

(h) the Overlays specified in Table 1.2.3 (Overlays) below:

**Table 1.2.3 Overlays**

| Overlays                                                                       |
|--------------------------------------------------------------------------------|
| (a) Acid sulfate soils overlay <del>code</del>                                 |
| (b) Agricultural land overlay <del>code</del>                                  |
| (c) Airport environs overlay <del>code</del>                                   |
| <u>(d) Biodiversity, waterways and wetlands overlay</u>                        |
| <u>(e) Building heights overlay</u>                                            |
| <del>(e)(f)</del> Bushfire hazard overlay <del>code</del>                      |
| <del>(e)(g)</del> Coastal <del>hazard protection</del> overlay <del>code</del> |
| <del>(f)</del> <del>Environmental significance overlay code</del>              |
| <del>(g)(h)</del> Extractive resources overlay <del>code</del>                 |
| <del>(h)(i)</del> Flood hazard overlay <del>code</del>                         |
| <del>(i)(j)</del> Heritage overlay <del>code</del>                             |
| <del>(j)(k)</del> Infrastructure overlay <del>code</del>                       |
| <del>(k)(l)</del> Landslide hazard overlay <del>code</del>                     |
| <u>Waterway and wetlands overlay code</u>                                      |

(i) the Development codes specified in Table 1.2.4 (Development codes) below:

**Table 1.2.4 Development codes**

| Development codes                                                                                     |
|-------------------------------------------------------------------------------------------------------|
| <b>Relevant prescribed codes as specified in the Schedules of the <i>Planning Regulation 2017</i></b> |
| (a) Community residence code                                                                          |
| (b) Forestry for wood production code                                                                 |
| (c) Reconfiguring a lot (subdividing one into two lots) and associated operational works code         |
| <b>Use codes</b>                                                                                      |
| (a) Business activities code                                                                          |
| (b) Caretaker's accommodation code                                                                    |
| (c) Child care centre code                                                                            |
| (d) Dual occupancy code                                                                               |
| (e) Dwelling house code                                                                               |
| (f) Extractive industry code                                                                          |
| (g) Home based business code                                                                          |
| (h) Industry activities code                                                                          |
| (i) Market code                                                                                       |

## 1.3 Interpretation

### 1.3.1 Definitions

- (1) A term used in the Planning Scheme has the meaning assigned to that term by one of the following:
- the *Planning Act 2016* (the Act); or
  - the *Planning Regulation 2017* (the Regulation); or
  - the definitions in **Schedule 1 (Definitions)** of the Planning Scheme; or
  - the *Acts Interpretation Act 1954*; or
  - the ordinary meaning where that term is not defined in the Act, the Regulation, **Schedule 1 (Definitions)** of the Planning Scheme or the *Acts Interpretation Act 1954*.
- (2) In the event a term has been assigned a meaning in more than one of the instruments listed in subsection 1.3.1(1), the meaning contained in the instrument highest on the list will prevail.
- (3) A reference in the Planning Scheme to any act includes any regulation or instrument made under it, and where amended or replaced, if the context permits, means the amended or replaced act.
- (4) A reference in the Planning Scheme to a specific resource document or standard means the latest version of the resource document or standard.

Whitsunday Regional Council Planning Scheme – Part 1 – ~~July 2017~~ November 2021 (V4.01)

- (5) A reference to a part, section, table or schedule is a reference to a part, section, table or schedule of the Planning Scheme.

Editor's note—In accordance with Section 5(2)(a) of the *Planning Regulation 2017*, the regulated requirements apply to this Planning Scheme.

### 1.3.2 Standard drawings, maps, notes, editor's notes and footnotes

- (1) Standard drawings contained in codes or schedules are part of the Planning Scheme.
- (2) Maps provide information to support the outcomes and are part of the Planning Scheme.
- (3) Notes are identified by the title 'Note' and are part of the Planning Scheme.
- (4) Editor's notes and footnotes are extrinsic material, as per the *Acts Interpretation Act 1954*, and are identified by the title 'Editor's note' and 'Footnote' and are provided to assist in the interpretation of the Planning Scheme; they do not have the force of law.

Note—This is an example of a note.

Editor's note—This is an example of an editor's note.

Footnote<sup>1</sup>—See example at bottom of page.

### 1.3.3 Punctuation

- (1) A word followed by ';' or ', and' is considered to be 'and'.
- (2) A word followed by '; or' means either or both options can apply.

### 1.3.4 Zones for roads, waterways and reclaimed land

- (1) The following applies to a road, closed road, waterway or reclaimed land in the Planning Scheme area:
  - (a) if adjoined on both sides by land in the same zone—the road, waterway or reclaimed land is in the same zone as the adjoining land;
  - (b) if adjoined on one side by land in a zone and adjoined on the other side by land in another zone—the road, waterway or reclaimed land is in the same zone as the adjoining land when measured from a point equidistant from the adjoining boundaries;
  - (c) if the road, waterway or reclaimed land is adjoined on one side only by land in a zone—the entire waterway or reclaimed land is in the same zone as the adjoining land; and
  - (d) if the road, waterway or reclaimed land is covered by a zone, then that zone applies.

Editor's note—The boundaries of the local government area are described by the maps referred to in the *Local Government Regulation 2012*.

---

<sup>1</sup> Footnote—this is an example of a footnote.

## 1.4 Categories of development

(1) The categories of development under the Act are:

(a) accepted development;

Editor's note—A development approval is not required for development that is accepted development. Under section 44(6)(a) of the Act, if a categorising instrument does not apply a category of development to a particular development, the development is accepted development. Schedule 7 of the Regulation also prescribes accepted development.

Whitsunday Regional Council Planning Scheme – Part 1 – ~~July 2017~~ November 2021 (V4.01)

- (b) assessable development
  - i. code assessment
  - ii. impact assessment

Editor's note—A development approval is required for assessable development. Schedules 9, 10 and 12 of the Regulation also prescribe assessable development.

- (c) prohibited development.

Editor's note—A development application may not be made for prohibited development. Schedule 10 of the Regulation prescribes prohibited development.

- (2) The Planning Scheme states the category of development for certain types of development and specifies the category of assessment for assessable development in the Planning Scheme area in **Part 5 (Tables of assessment)**.

Editor's note—Section 43 of the Act identifies that a categorising instrument categorises development and specifies categories of assessment and may be a regulation or local categorising instrument. A local categorising instrument includes a Planning Scheme, a Temporary Local Planning Instrument or a variation approval.

## 1.5 Hierarchy of assessment benchmarks

- (1) Where there is an inconsistency between provisions in the Planning Scheme, the following rules apply:
  - (a) the Strategic framework prevails over all other components to the extent of the inconsistency for impact assessment;
  - (b) relevant codes as specified in Schedules 6 and 10 of the Regulation prevail over all other components to the extent of the inconsistency;
  - (c) overlays prevail over all other components (other than the matters mentioned in (a) and (b)) to the extent of the inconsistency;
  - (d) local plan codes prevail over zone codes, use codes and other development codes to the extent of the inconsistency;
  - (e) zone codes prevail over use codes and other development codes to the extent of the inconsistency; and
  - (f) provisions of Part 10 (Other plans) may override any of the above.

## 1.6 Building work regulated under the Planning Scheme

- (1) Section 17(b) of the Regulation identifies the assessment benchmarks for building work that a local planning instrument must not change the effect to the extent the building work is regulated under the building assessment provisions, unless permitted under the *Building Act 1975*.
- (2) The building assessment provisions are listed in section 30 of the *Building Act 1975*.

Editor's note—The building assessment provisions are stated in section 30 of the Building Act 1975 and are assessment benchmarks for the carrying out of building assessment work or building work that is accepted development subject to any requirements (see also section 31 of the *Building Act 1975*).

- (3) This Planning Scheme, through Part 5, regulates building work in accordance with sections 32 and 33 of the *Building Act 1975*.

Editor's note—The *Building Act 1975* permits Planning Schemes to:

- regulate, for the Building Code of Australia (BCA) or the Queensland Development Code (QDC), matters prescribed under a regulation under the *Building Act 1975* (section 32). These include variations to provisions contained in parts MP1.1, MP 1.2 and MP 1.3 of the QDC such as heights of buildings related to obstruction and overshadowing, siting and design of buildings to provide visual privacy and adequate sight lines, on-site parking and outdoor living spaces. It may also regulate other matters, such as designating land liable to flooding, designating land as bushfire prone areas and transport noise corridors;
- deal with an aspect of, or matter related or incidental to, building work prescribed under a regulation under section 32 of the *Building Act 1975*; and
- specify alternative boundary clearances and site cover provisions for Class 1 and 10 structures under section 33 of the *Building Act 1975*.

Refer to Schedule 9 of the Regulation to determine assessable development, the type of assessment and any referrals applying to the building work.

- (4) The building assessment provisions are contained in the following parts of this Planning Scheme.

**Table 1.6.1 Building assessment provisions contained in the Planning Scheme**

| Building assessment matter addressed in the Planning Scheme                                              |                                           | Relevant section of the Planning Scheme                                                                                                 |                                                          |
|----------------------------------------------------------------------------------------------------------|-------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------|
| <b>Flood hazard</b>                                                                                      |                                           |                                                                                                                                         |                                                          |
| Identification of part of the Planning Scheme area as a natural hazard management area (flood).          |                                           | Schedule 2 Flood hazard overlay maps                                                                                                    |                                                          |
| Identification of the level to which flood levels of habitable rooms of a building must be built.        |                                           | Section 8.2.8 Flood hazard overlay code                                                                                                 |                                                          |
| <b>Bushfire hazard</b>                                                                                   |                                           |                                                                                                                                         |                                                          |
| Designation of part of the Planning Scheme area as a designated bushfire prone area for the BCA and QDC. |                                           | Schedule 2 Bushfire hazard overlay maps                                                                                                 |                                                          |
| <u>Building Act 1975 reference</u>                                                                       | <u>Building Regulation 2006 reference</u> | <u>Building assessment matter addressed in the Planning Scheme</u>                                                                      | <u>Relevant section of the Planning Scheme</u>           |
| <b>Flood hazard</b>                                                                                      |                                           |                                                                                                                                         |                                                          |
| Part 32(a)                                                                                               | Section 13                                | Designation of a flood prone area for the QDC.                                                                                          | Schedule 2 Flood hazard overlay maps                     |
| Part 32(b)                                                                                               | Section 13                                | Declaration of the defined flood level.                                                                                                 | Definition of defined flood level in Schedule 1          |
| Part 32 (b)                                                                                              | Section 13                                | Declaration of the finished floor level for habitable buildings in the flood hazard area.                                               | Part 8.2.9 - Flood hazard overlay code - Table 8.2.9.3.1 |
| <b>Bushfire hazard</b>                                                                                   |                                           |                                                                                                                                         |                                                          |
| Part 32 (a)                                                                                              | Section 12                                | Designation of a bushfire prone area for the BCA or the QDC.                                                                            | Schedule 2 Bushfire hazard overlay maps                  |
| <b>Amenity and aesthetic provisions</b>                                                                  |                                           |                                                                                                                                         |                                                          |
| Part 33 (2)                                                                                              | Section 10                                | Amenity and aesthetics provisions for a dwelling house or a class 10 building or structure located on the same lot as a dwelling house. | Part 9.3.5 -Dwelling house code – Table 9.3.5.2.1        |

Whitsunday Regional Council Planning Scheme – Part 1 – ~~July 2017~~ November 2021 (V4.01)

Editor's note—A decision in relation to building work that is assessable development under the Planning Scheme should only be issued as a preliminary approval under section 83(b) of the *Building Act 1975*.

Editor's note—In a development application, the applicant may request preliminary approval for building work. The decision on that development application can also be taken to be a referral agency's response under section 56 of the Act, for building work assessable against the *Building Act 1975*. The decision notice must state this.

## 1.7 Local government administrative matters

~~(1) There are no local government administrative matters for the Planning Scheme. For the purpose of the Whitsunday Planning Scheme 2017, pursuant to 276(1)(c) of the Act, the whole of the Planning Scheme area is identified as a 'party house' restriction area.~~  
~~(2)(1)~~

Table 2.3.1 Delegated referral agency jurisdictions

Whitsunday Regional Council Planning Scheme – Part 2 – ~~July 2017~~November 2021 (V4.01)

## Part 2 State Planning Provisions

### 2.1 State Planning Policy

The Minister has identified that State Planning Policy ~~April 2016~~July 2017 is reflected in the Planning Scheme in the following ways:

#### State interests in the State Planning Policy are appropriately reflected

##### Liveable communities and housing

- Liveable communities;
- Housing supply and diversity.

##### Economic growth

- Agriculture;
- Development and construction;
- Mining and extractive resources;
- Tourism.

##### Environment and heritage

- Biodiversity;
- Coastal environment;
- Cultural heritage;
- Water quality.

##### Safety and resilience to hazards

- Emissions and hazardous activities;
- Natural hazards, risk and resilience (Flood, Bushfire, Landslide, Coastal).

##### Infrastructure

- Energy and water supply;
- Infrastructure Integration;
- Transport infrastructure;
- Strategic airports and aviation facilities;
- Strategic Ports.

#### State interests in the State Planning Policy not integrated

None

#### State interests in the State Planning Policies not relevant to Whitsunday Regional Council

None

| Whitsunday Regional Council Planning Scheme – Part 2 – ~~July 2017~~November 2021 (V4.01)

Editor's note–In accordance with section 8(4)(a) of the Act the State Planning Policy applies to the extent of any inconsistency.

## 2.2 Regional plan

The Minister has identified that the Planning Scheme, specifically the Strategic framework, appropriately advances the Mackay Isaac Whitsunday Regional Plan 2012, as it applies in the Planning Scheme area.

## 2.3 Referral agency delegations

Schedule 10 of the Regulation identifies referral agencies for certain aspects of development. The following referral agencies have delegated the following referral agency jurisdictions to Whitsunday Regional Council:

**Table 2.3.1 Delegated referral agency jurisdictions**

| Column 1<br>Application involving                                            | Column 2<br>Referral agency and type | Column 3<br>Referral jurisdiction |
|------------------------------------------------------------------------------|--------------------------------------|-----------------------------------|
| There are no delegated referral agency jurisdictions for the Planning Scheme |                                      |                                   |

Editor's note - For the above listed referral agency delegations, the applicant is not required to refer the application to the referral agency listed under Schedule 10 of the Regulation because the local government will undertake this assessment role.

## 2.4 Regulated requirements

The Minister has identified that the regulated requirements prescribed in the Planning Regulation 2017 dated 1 September 2017 are appropriately reflected in full in the Planning Scheme.

Editor's note – Section 16(3) of the Act states that the contents prescribed by the Regulation apply instead of a local planning instrument, to the extent of any inconsistency.

## Maps in Part 3

Strategic framework map –SFM– 01:05 (Strategic framework map)

## Part 3 Strategic framework

### 3.1 Preliminary

- (1) The Strategic framework sets the policy direction for the Planning Scheme and forms the basis for ensuring appropriate development occurs in the Planning Scheme area for the life of the Planning Scheme.
- (2) Mapping for the Strategic framework is included in Schedule 2 (Mapping).
- (3) For the purpose of describing the policy direction for the Planning Scheme, the Strategic framework is structured in the following way:
  - (a) the Strategic intent;
  - (b) the following five themes that collectively represent the policy intent of the Planning Scheme:
    - (i) Liveable communities and housing;
    - (ii) Economic growth;
    - (iii) Environment and heritage;
    - (iv) Safety and resilience to hazards; and
    - (v) Infrastructure;
  - (c) the Strategic outcome proposed for development in the Planning Scheme area for each theme; and
  - (d) the Land use strategies for achieving these outcomes.
- (4) Although each theme has its own section, the Strategic framework in its entirety represents the policy intent of the Planning Scheme. Zones organise the Planning Scheme area in a way that facilitates the location of preferred or acceptable land uses.

## 3.2 Strategic intent

- (1) In 2036 and beyond, the Whitsundays is a prosperous, liveable and sustainable region where people live, work, play and invest. The region, extending over 23,862 square kilometres, will be built on the integration of the unique attributes and competitive advantages of Airlie Beach, Bowen, Collinsville, Proserpine and their surrounds as shown in Strategic framework map - SFM - 01:05 (Strategic framework maps).
- (2) The Region's major townships and communities have a strong and proud social identity, being sustainable and well supported through the provision of a variety of social and affordable housing ~~and~~ lifestyle options and appropriate community and utility infrastructure. Risks to the community (including life and property) from hazardous activities and natural hazards are appropriately mitigated or avoided, ensuring disaster management response capabilities and capacities are supported.
- (3) The major townships of the Region operate as a network of centres, each maintaining relatively strong levels of growth supported by the ongoing strengthening and development of the key economic sectors of agriculture, mining and tourism and associated development and construction activities. The strength of these industry sectors will continue to be supported by maintaining and protecting the resources and values upon which these sectors rely, promoting business innovation and increasing accessibility to robust road, rail, port and aviation facilities.
- (4) The promotion and protection of the Region's cultural heritage and unique aquatic, coastal and inland environmental values continues as developmental and environmental pressures increase cumulatively. All matters of ecological, environmental and scenic value (including key urban gateways, views and vistas) are valued and preserved, ensuring the health and resilience of the regions overall biodiversity.

### 3.2.1 Liveable communities and housing

#### 3.2.1.1 Strategic outcome

- (1) The life-enriching (educational, health, cultural and recreational) capacities and resilience of the community and community infrastructure are enhanced or restored for present and future generations in a way which supports the region's settlement pattern and hierarchy of centres.

#### 3.2.1.2 Land use strategies

- (1) The settlement pattern of the Region ensures that urban uses are primarily located within the established urban areas of Airlie Beach, Bowen, Collinsville and Proserpine with greater densities focused around higher order Centre zones of each township and major public transport corridors. New residential expansion will occur in Cannon Valley (to the west of Airlie Beach), Mount Bramston and Mount Gordon (to the south of Bowen) and Moongunya Springs (to the north of Collinsville).
- (2) Limited Accommodation activities and low order Community and convenience Business activities are located within the settlements of Brisk Bay, Conway Beach, Dingo Beach, Gumlu, Guthalungra, Hideaway Bay, Shutehaven, Merinda, Mt Coolon and Wilson Beach.
- (3) The community of each major urban area will be supported by a hierarchy of centres. The highest order, Major centres are provided at Paluma Road/Galbraith Avenue (Cannonvale), Herbert Street (Bowen) and Main Street (Proserpine). Communities of the Region are further serviced by a series of lower order, smaller scale centres. Business activities are only located outside of centres if they cannot be practically

located within nominated centres due to their nature, scale, effects or necessary relationship to other activities or particular features, resources or infrastructure.

- (4) Primary and/or secondary schools are co-located with existing facilities in Bowen, Cannonvale, Collinsville, Gumlu, Hamilton Island, Hayman Island and Proserpine, with new facilities in Cannon Valley and Mount Gordon and higher order educational facilities, such as a secondary boarding school and a tertiary educational facility located within the established urban area of Proserpine.
- (5) A regionally significant health facility is located in Proserpine with supporting health facilities in Airlie Beach, Bowen, Cannonvale, Collinsville and Hamilton Island.
- (6) Urban uses are only located away from identified urban areas if they cannot be practically located within the existing settlement pattern due to their nature, scale, effects or necessary relationship to other activities or particular features, resources or infrastructure.
- (7) Rural residential areas will continue to occur on the fringes of urban areas and will generally not expand into adjacent rural areas.
- (8) Non-resident workers accommodation is only utilised for the workforce associated with the construction phase of a project. This form of accommodation activity is not to be utilised for workers associated with the operational phase of a project. Accommodation activities for an operational workforce are to be integrated into existing urban areas.

### 3.2.2 Economic growth

#### 3.2.2.1 Strategic outcome

- (1) The economic resilience, wealth creating and employment generating capacities of the Region's key sectors are protected and enhanced for present and future generations.

#### 3.2.2.2 Land use strategies

- (1) Agricultural land (including stock routes) and existing Rural activities are protected and diversified with Rural activities being intensified in areas to the west of Collinsville, along the Bowen River, west and south-west of Proserpine and between Gumlu and Bowen. Land based marine aquaculture is promoted within Aquaculture Development Areas and protected from incompatible development. The long-term viability of this agricultural land is enhanced through sustainable land management practices, the use of new technology and the improvement and expansion of supporting infrastructure, such as water storage and irrigation infrastructure.

- ~~(2)~~ Rural activities are located outside the existing and proposed urban and environmental areas with only Business and Industry activities that support or supplement the primary Rural activity being located within rural areas. Development in rural areas does not create unacceptable biosecurity risks, such as the spread of pest and weed species, to current or future potential agriculture within our Region.

- ~~(2)~~~~(3)~~ The integrity and functionality of the mining and extractive resource industry, including within the Abbot Point and Galilee Basin State Development Areas, are maintained and protected to reduce potential conflict with incompatible uses.

- ~~(3)~~~~(4)~~ Major industrial expansion is appropriately accommodated where the scale, intensity and nature of the Industry activity can be adequately supported. New expansion will predominantly occur within the Abbot Point State Development Area, around the Delta

intersection, between Collinsville and the mines to the south, east of Proserpine and within the vicinity of the Whitsunday Coast Airport.

~~(4)~~(5) Bulk loading and supporting multi-commodity port facilities are established at the Port of Abbot Point. High impact industry is primarily located adjacent to Port of Abbot Point within the Abbot Point State Development Area, particularly where Industry activities value-add to commodities being exported or imported through the Port of Abbot Point.

~~(5)~~(6) Marine industry servicing the fishing and recreational boating fleet of Central and North Queensland is primarily located within the Bowen Boat Harbour with limited facilities of a smaller nature and scale located at ~~Abel Point~~ Coral Sea Marina and Port of Airlie. A public passenger ferry facility servicing the Whitsunday Islands is primarily located at the Port of Airlie with supplementary facilities at ~~Abel Point~~ Coral Sea Marina and Shute Harbour. Commercial vessels supporting the tourism industry predominately operate from Coral Sea Marina and Port of Airlie, with opportunity for expansion within Shute Harbour. A freight (barge) facility servicing the Whitsunday Islands is primarily located at Shute Harbour.

~~(6)~~(7) Tourism ~~accommodation and ancillary Business activities development are primarily is~~ located within the established island resorts ~~at on~~ Daydream, Hayman, Hook, Long, Dent and South Molle Islands. A new major regional function facility is located within Airlie Beach. New or expanded tourist accommodation and ancillary Business activities are located at Airlie Beach, Bowen Front Beach, Bowen Marina, Funnel Bay, Hamilton Island, Horseshoe Bay, Murray Bay, Rose Bay, Stone Island and Shute Harbour with ~~limited n~~ nature-based tourism at the northernmost point of Cape Gloucester, Lake Proserpine surrounds and in rural areas where appropriate. Tourism development is. A major regional function facility is located adjacent to the Airlie Beach Main Street and Esplanade area. ~~Tourism accommodation and related activities are~~ only located away from these areas if their nature, scale and effects are ~~small~~ minor and they have a necessary relationship to other activities or ~~particular natural features~~ areas of high natural amenity. Tourism development supports drive tourism routes and focuses tourism support and services in existing towns to provide economic diversity, choice and enhanced visitor experience.

### 3.2.3 Environment and heritage

#### 3.2.3.1 Strategic outcome

- (1) ~~The~~ The cultural heritage of the Region, including the Ngaro, Gia, Juru, Jangga, Birriah peoples and early European settlements, is preserved and treasured. Ecological systems, including air, soil, water, flora and fauna habitats are conserved or enhanced through development to ensure sustainability for future generations. cultural heritage and life supporting capacities of air, ecosystems, soil and water are conserved, enhanced or restored for present and future generations and biological resilience is protected.

#### 3.2.3.2 Land use strategies

- (1) The key ecological values of the Great Barrier Reef, Brigalow Belt, Central Queensland Coast and Einasleigh Uplands and the fauna and flora they support are protected. The protection of key endangered species such as the Black-throated Finch (White-rumped subspecies), Leatherback Turtle, Loggerhead Turtle, Olive Ridley Turtle and Proserpine Rock-wallaby and the habitat on which they rely continues to be enhanced as development and environmental pressures increase.
- (2) The core landscape values within the Region are protected and, if practical, enhanced with connectivity between matters of environmental significance where possible. The core landscape values include the urban gateways to Airlie Beach, Bowen, Collinsville, Proserpine and the Whitsunday Coast Airport, as well as the significant

visual backdrops as viewed from major scenic routes of the Bowen Development Road, Bruce Highway, Lascelles Avenue, Shute Harbour Road and the boating routes along the coastline and throughout the Whitsunday Islands.

- ~~(3)~~ Development, within Ngaro Country around the Town of Whitsunday and Islands, Gia Country around Proserpine and Gloucester surrounds, Juru Country around Bowen and Gumlu surrounds, Jangga Country around Mount Coolon surrounds and Birriah Country around Collinsville surrounds is designed sympathetically in response to cultural traditions and protected areas and, where possible, development incorporates local Aboriginal art and storytelling.
- ~~(4)~~ Places and objects of Aboriginal cultural significance, such as sites for story telling or other cultural activities, scarred trees, stone extraction sites, ceremonial sites, fireplaces, ochre, axe grinding grooves, rock art, fish traps, graves, old growth vegetation, including culturally significant flora and fauna, shell middens, artefact scatters and traditional foods are appropriately preserved for current and future generations to maintain important connections to Country, lore and ancestry.
- ~~(5)~~ All places of cultural significance that reflect historic traditions, culture and early settlement forms ~~Places of cultural significance~~ are appropriately preserved and promoted to enhance community identity and maintain important connections to the past for the benefit of current and future generations.
- ~~(3)~~~~(6)~~ Future urban development is planned and managed to avoid or mitigate adverse impacts on MSES and MNES.

### 3.2.4 Safety and resilience to hazards

#### 3.2.4.1 Strategic outcome

- (1) The safety of the community, property and infrastructure is protected and enhanced for present and future generations and the community's resilience to hazards is enhanced.

#### 3.2.4.2 Land use strategies

- (1) Risks to people, ~~and property,~~ essential service uses and vulnerable uses are minimised in areas within or adjacent to natural hazard areas by avoiding the risk, mitigating the risk or removing the hazard, ~~particularly escarpments behind Airlie Beach and Hideaway Bay (landslide); Bells Gully, Campbell Creek, Don River, and Proserpine River (flooding); and Bowen Front Beach, Cannonvale Beach, Conway Beach, Greys Bay, Rose Bay, Queens Beach, Queens Bay and Wilson Beach (coastal erosion and storm surge).~~
- ~~(2)~~ Community health and safety, sensitive land uses and the natural environment are appropriately planned and managed to avoid or mitigate potential adverse impacts of emissions (air, noise and odour) and hazardous activities, whilst ensuring the long-term viability of such activities (Industry and Recreation activities).
- ~~(2)~~~~(3)~~ Low lying areas across the Whitsunday Council area contain ASS that, if exposed, can result in damage to buildings, assets, infrastructure and the local environment. Where disturbance is unavoidable, the disturbance should be minimised to prevent the mobilisation and release of acid, iron and other contaminants.

### 3.2.5 Infrastructure

#### 3.2.5.1 Strategic outcome

Whitsunday Regional Council Planning Scheme – Part 3 – ~~November 2021~~July-2017 (V4.01)

- (1) The service-supporting capacities of infrastructure are coordinated, efficient and orderly. Infrastructure provision and operation are financially sustainable.

### 3.2.5.2 Land use strategies

- (1) An international airport (runway and terminal), remote mine operations centre, air freight and supporting education and Industry activities are located within the vicinity of the Whitsunday Coast Airport, with a secondary regional airport (runway and terminal) at Hamilton Island. Smaller scale and supplementary facilities are provided at Bowen, Collinsville, Flametree and Mount Coolon Airports.
- (2) Existing road and rail corridors are protected and operate efficiently. New road connections are established from Cannonvale to Gregory-Cannon Valley Road as a parallel network to Shute Harbour Road, from Collinsville to Proserpine and between Abbot Point State Development Area and the North-West Minerals Province. New railway connections are established from Abbot Point State Development Area to the North Bowen Basin, the Galilee Basin State Development Area and the North-West Minerals Province.
- (3) Significant power generation facilities are established and expanded near Collinsville (base-load power station) and the Burdekin Falls Dam (hydro-electric) connecting to the north-south transmission lines which traverse the Region. Large scale Renewable energy facilities are promoted in rural areas around existing and future major electrical infrastructure in the Region, where they do not affect quality agricultural land for present and future productivity. Small scale renewable energy facilities are only located in rural areas where functioning as ancillary power generation to support a primary use. Existing transmission corridors are protected and new corridors are provided from the Collinsville Power Station to the Galilee Basin and the North-West Minerals Province. Gas pipeline(s) are established from gas fields in the Bowen Basin to the Collinsville Power Station and, where practical, new development aligns with existing or future linear corridors.
- (4) The water resource catchments of the Bowen River Weir, Burdekin Falls Dam, Peter Faust Dam (Lake Proserpine) and the potential water resource catchments of the Andromache River and Urannah Creek are protected for future use. Water pipelines are established from Lake Dalrymple and the Burdekin River to Bowen and Abbot Point State Development Area, and from the Bowen River catchment to the Galilee Basin State Development Area.

## Part 4 Local government infrastructure plan

### 4.1 Preliminary

- (1) This local government infrastructure plan (LGIP) has been prepared in accordance with the requirements of the *Planning Act 2016*.
- (2) The purpose of the local government infrastructure plan is to:
  - (a) integrate infrastructure planning with the land use planning identified in the Planning Scheme;
  - (b) provide transparency regarding a local government's intentions for the provision of trunk infrastructure;
  - (c) enable a local government to estimate the cost of infrastructure provision to assist its long term financial planning;
  - (d) ensure that trunk infrastructure is planned and provided in an efficient and orderly manner; and
  - (e) provide a basis for the imposition of conditions about infrastructure on development approvals.
- (3) The local government infrastructure plan:
  - (a) states in Section 4.2 (Planning assumptions) the assumptions about future growth and urban development including the assumptions of demand for each trunk infrastructure network;
  - (b) identifies in Section 4.3 (Priority infrastructure area) the prioritised area to accommodate urban growth up to 2031;
  - (c) states in Section 4.4 (Desired standards of service) for each trunk infrastructure network the desired standard of performance;
  - (d) identifies in Section 4.5 (Plans for trunk infrastructure) the existing and future trunk infrastructure for the following networks:
    - (i) water supply;
    - (ii) sewerage;
    - (iii) stormwater;
    - (iv) transport; and
    - (v) parks and land for community facilities.
  - (e) provides a list of supporting documents that assist in the interpretation of the local government infrastructure plan in the Editor's note – Extrinsic material at the end of Section 4.

## 4.2 Planning assumptions

- (1) The planning assumptions state the assumptions about:
  - (a) population and employment growth; and
  - (b) the type, scale, location and timing of development including the demand for each trunk infrastructure network.
- (2) The planning assumptions together with the desired standards of service form a basis for the planning of the trunk infrastructure networks and the determination of the priority infrastructure area.
- (3) The planning assumptions have been prepared for:
  - (a) the base date 2016 and the following projection years to accord with future Australian Bureau of Statistics census years:
    - (i) mid 2021;
    - (ii) mid 2026;
    - (iii) mid 2031; and
    - (iv) Ultimate development.
  - (b) the LGIP development types in column 2 that include the uses in column 3 of Table 4.2.1; and
  - (c) the projection areas identified on Local government infrastructure map – PAM – 01:06 (Projection area map) in Schedule 3—Local government infrastructure plan mapping and tables.

- (4) Details of the methodology used to prepare the planning assumptions are stated in the extrinsic material.

#### 4.2.1 Population and employment growth

- (1) A summary of the assumptions about population and employment growth for the Planning Scheme area is stated in Table 4.2.1.1 Population and employment assumptions summary.

**Table 4.2.1.1 Population and employment growth assumptions summary**

| Column 1<br>Description | Column 2<br>Assumptions |        |        |        |                         |
|-------------------------|-------------------------|--------|--------|--------|-------------------------|
|                         | Base date<br>2016       | 2021   | 2026   | 2031   | Ultimate<br>development |
| Population              | 36,380                  | 38,380 | 41,680 | 44,970 | 66,460                  |
| Employment              | 16,959                  | 18,246 | 19,534 | 20,821 | 22,109                  |

- (2) Detailed assumptions about growth for each projection area and LGIP development type category are identified in the following tables in Schedule 3 Local government infrastructure plan mapping and tables:
- (a) for population, Table SC3.1.1—Existing and projected population; and
  - (b) for employment, Table SC3.1.2—Existing and projected employees.

#### 4.2.2 Development

- (1) The developable area is represented by zones relating to urban uses excluding the Environmental zones category identified on Zone maps ZM – 01:29 and not affected by the protected areas identified on Environmental significance overlay maps ES– 01:29.
- (2) The planned density for future development is stated in Table SC3.1.3 in Schedule 3—Local government infrastructure plan mapping and tables.
- (3) A summary of the assumptions about future residential and non-residential development for the Planning Scheme area is stated in Table 4.2.2.1 Residential dwellings and non-residential floor space assumptions summary.

**Table 4.2.2.1 Residential dwellings and non-residential floor space assumptions summary**

| Column 1<br>Description                          | Column 2<br>Assumptions |         |         |         |                         |
|--------------------------------------------------|-------------------------|---------|---------|---------|-------------------------|
|                                                  | Base date<br>2016       | 2021    | 2026    | 2031    | Ultimate<br>development |
| Residential dwellings                            | 16,995                  | 17,958  | 19,556  | 21,164  | 30,378                  |
| Non-residential floor space (m <sup>2</sup> GFA) | 622,199                 | 674,471 | 726,735 | 779,003 | 831,274                 |

- (4) Detailed assumptions about future development for each projection area and LGIP development type are identified in the following tables in Schedule 3 Local government infrastructure plan mapping and tables:
- (a) for residential development, Table SC3.1.4; and
  - (b) for non-residential development, Table SC3.1.5.

#### 4.2.3 Infrastructure demand

- (1) The demand generation rate for a trunk infrastructure network is stated in Column 4 of Table SC3.1.3 in Schedule 3 Local government infrastructure plan mapping and tables.
- (2) A summary of the projected infrastructure demand for each service catchment is stated in:
- (a) for the water supply network, Table SC3.1.6;
  - (b) for the sewerage network, Table SC3.1.7;
  - (c) for the stormwater network, Table SC3.1.8;
  - (d) for the transport network Table SC3.1.9; and
  - (e) for the parks and land for community facilities network, Table SC3.1.10.

#### 4.3 Priority infrastructure area

- (1) The priority infrastructure area identifies the area prioritised for the provision of trunk infrastructure to service the existing and assumed future urban development up to 2031.
- (2) The priority infrastructure area is identified on Local government infrastructure plan map – PAM – 01:06 (Projection area map).

#### 4.4 Desired standards of service

- (1) This section states the key standards of performance for a trunk infrastructure network.
- (2) Details of the standard of service for each trunk infrastructure network is identified in the extrinsic material.

#### 4.4.1 Water supply network

- (1) Ensure drinking water complies with the National Health and Medical Research Council (NHMRC) Australian Drinking Water Guidelines and Whitsunday Regional Council's Drinking Water Quality Management Plan.
- (2) Collect, store, treat and convey potable water from source to consumers in accordance with the *Water Act 2000*.
- (3) Minimise non-revenue water loss.
- (4) Design the water supply network in accordance with Council's adopted standards identified in the Planning Scheme, including the Equivalent Demands detailed in SC6.8 Whitsunday Regional Council development manual Planning Scheme policy, to provide:
  - (a) average day consumption (AD) – 500 l/EP/day;
  - (b) Mean Day max Month (MDMM) 1.5 x AD;
  - (c) Peak Day (PD) 2.25 x AD;
  - (d) Peak Hour (PH) 1/12 x PD;
  - (e) minimum and maximum supply pressure of 220 kPa and 800 kPa at each property boundary; and
  - (f) fire flow for residential (15 l/s for 2 hours), industrial and commercial (30 l/s for 4 hours) development.
- (5) Design water systems to meet the requirements of the *Water Supply (Safety and Reliability) Act 2008* and Water Services Association of Australia (WSAA) guidelines.

#### 4.4.2 Sewerage network

- (1) Provide a reliable network that collects, stores, transports, treats and releases sewerage from premises.
- (2) Design the sewerage network in accordance with:
  - (a) Council's adopted standards identified in the Planning Scheme;
  - (b) WSAA guidelines;
  - (c) the *Water Act 2000*;
  - (d) all Environmental Protection Agency (EPA) licence conditions;
  - (e) key design parameters identified in Table 4.4.2.1; and
  - (f) Equivalent Demands detailed in SC6.8 Whitsunday Regional Council development manual Planning Scheme policy.

**Table 4.4.2.1 Key design parameters for the sewerage network**

| Column 1<br>Infrastructure item | Column 2<br>Design parameters                                                                                                                                                                                                                                                                                                                                                 |

**4.4.3 Stormwater network<sup>1</sup>**

- (1) Collect and convey stormwater flows for both major 100 year flood events and minor low flow year flood events as per the specific land use requirements from existing and future land use in a manner that protects life and does not cause nuisance or inundation of property.
- (2) Design the stormwater network to comply with Council's adopted standards identified in the Planning Scheme, which generally accord with the Queensland Urban Drainage Manual or the Transport and Main Roads Road Drainage Design Manual.
- (3) Design road crossing structures to provide an appropriate level of flood immunity for a 50 and 10 year flood events for major and minor roads respectively in accordance with Council's adopted standards identified in the Planning Scheme.
- (4) Meet water quality objectives for receiving waters at all times.
- (5) Design the water quality system to achieve the minimum reductions in mean annual loads from unmitigated development ~~identified in Table 4.4.3.1~~ in accordance with ~~Department of State Development, Infrastructure and Planning State Planning Policy – April 2016 July 2017 and WRC Stormwater Design Guideline.~~

**Table 4.4.3.1 – Minimum reductions in mean annual loads from unmitigated development**

| Central QLD (north) <sup>1</sup> | 75                                  | 60               | 40             | 90                    |
| Western QLD <sup>2</sup>         | 85                                  | 60               | 45             | 90                    |

**Notes:**

- ~~1. Applies to development for urban purposes with population centres greater than 3000 persons.~~
- ~~2. Applies to development for urban purposes with population centres greater than 25,000 persons.~~
- ~~3. Excludes development that is less than 25% impervious.~~
- ~~4. In lieu of modelling, the default bio-retention treatment area to comply with load reduction targets for all Queensland regions is 1.5% of the contributing catchment area.~~
- ~~5. Regions defined by State Planning Policy mapping.~~

<sup>1</sup> Drainage elements that form an inherent part of road infrastructure such as culverts and bridge structures can be included with road infrastructure planning.

#### 4.4.4 Transport network

##### 4.4.4.1 Roads

- (1) Provide a functional urban hierarchy that supports settlement patterns, commercial and economic activities, and freight movement.
- (2) Design the road network to comply with the following:
  - (a) adopted standards identified in the Planning Scheme;
  - (b) AUSTRROADS guides;
  - (c) the Department of Transport and Main Roads Interim Guide to Road Planning and Design Practice;
  - (d) maximum road volume to capacity ratios identified in Table 4.4.4.1.1; and
  - (e) maximum degree of saturation for intersections identified in Table 4.4.4.1.2.

**Table 4.4.4.1.1 Maximum volume to capacity ratios for the road network**

| Column 1<br>Infrastructure item | Column 2<br>Design parameters |                 |
|---------------------------------|-------------------------------|-----------------|
|                                 | Residential                   | Non-residential |
| Arterial                        | 0.8                           | 0.8             |
| Sub-arterial                    | 0.8                           | 0.8             |
| Major collector                 | 0.8                           | 0.8             |
| Arterial (state-controlled)     | 0.8                           | 0.8             |

**Table 4.4.4.1.2 Maximum degree of saturation for road intersections**

| Column 1<br>Road network item | Column 2<br>Maximum degree of saturation |
|-------------------------------|------------------------------------------|
| Traffic signals               | 0.9                                      |
| Roundabout                    | 0.9                                      |
| Priority controlled           | 0.8                                      |

##### 4.4.4.2 Footpaths and cycle ways

- (1) Plan cycle ways and footpaths to provide a safe, attractive and convenient network that links residential areas to major activity nodes and public transport interchanges, thereby encouraging walking and cycling as acceptable travel alternatives.
- (2) Design cycle ways (including on-road cycle ways) and footpaths to comply with council's adopted standards identified in the Planning Scheme.

##### 4.4.4.3 Public transport

- (1) Ensure development accommodates the integration of public transport services.
- (2) Provide bus stops including bus bays, shelters, seating and bus information systems in accordance with adopted standards identified in the Planning Scheme

#### 4.4.5 Public parks and land for community facilities network

- (1) Provide an accessible network of parks, open space, and community facilities that meets the needs of residents and visitors in accordance with the rate of provision identified in Table 4.4.5.1 and accessibility standards outlined in Table 4.4.5.2.
- (2) Ensure land for public parks and community facilities has:
  - (a) minimum land size as identified in Table 4.4.5.3;
  - (b) configuration, slope, and acceptable level of flood immunity in accordance with Table 4.4.5.3 and adopted standards identified in the Planning Scheme; and
  - (c) embellishments to complement the type and purpose of the public park as identified in Table 4.4.5.4.

**Table 4.4.5.1 Rate of land provision for public parks and community facilities**

| <p>1. Shade structures should be structures teams can stand under, not shade sails.</p> <p>2. Only to be provided in certain district recreation parks based on popularity, location and type of use.</p> |                             |          |                         |                |

## 4.5 Plans for trunk infrastructure

- (1) The plans for trunk infrastructure identify the trunk infrastructure networks intended to service the existing and assumed future urban development at the desired standard of service up to 2031.

### 4.5.1 Plans for trunk infrastructure maps

- (1) The existing and future trunk infrastructure networks are shown on the following maps in Schedule 3—Local government infrastructure plan mapping and tables:
  - (a) Local government infrastructure plan map – PFTI WN – 01:06 (Water network plans for trunk infrastructure map);
  - (b) Local government infrastructure plan map – PFTI SN – 01:05 (Sewerage network plans for trunk infrastructure map);
  - (c) Local government infrastructure plan map – PFTI SWN – 01:05 (Stormwater network plans for trunk infrastructure map);
  - (d) Local government infrastructure plan map – PFTI TN – 01:05 (Transport network plans for trunk infrastructure map); and
  - (e) Local government infrastructure plan map – PFTI PCFN – 01:06 (Parks and land for community facilities network plans for trunk infrastructure map).
- (2) The State infrastructure forming part of transport trunk infrastructure network has been identified using information provided by the relevant State infrastructure supplier.

### 4.5.2 Schedules of works

- (1) Details of the existing and future trunk infrastructure networks are identified in the electronic Excel schedule of works model which can be viewed here:  
<http://www.whitsunday.qld.gov.au/390/Infrastructure-Planning-and-Charges>
- (2) The future trunk infrastructure is identified in the following tables in Schedule 3—Local government infrastructure plan mapping and tables:
  - (a) for the water supply network, Table SC3.2.1;
  - (b) for the sewerage network, Table SC3.2.2;
  - (c) for the stormwater network, Table SC3.2.3;
  - (d) for the transport network, Table SC3.2.4; and
  - (e) for the parks and land for community facilities network, Table SC3.2.5.

**Editor's note – Extrinsic material**

The below table identifies the documents that assist in the interpretation of the Local government infrastructure plan and are extrinsic material under the *Statutory Instruments Act 1992*.

## Part 5 Tables of assessment

### 5.1 Preliminary

The tables in this part identify the category of development, and the category of assessment and assessment benchmarks for assessable development in the Planning Scheme area.

### 5.2 Reading the tables

The tables identify the following:

- (1) the category of development:
  - (a) prohibited;
  - (b) accepted, including accepted with requirements; and
  - (c) assessable development, that requires either code or impact assessment;
- (2) the category of assessment - code or impact - for assessable development in:
  - (a) a zone and, where used, a precinct of a zone;
  - (b) a local plan and, where used, a precinct of a local plan; and
  - (c) an overlay where used;
- (3) the assessment benchmarks for assessable development, including:
  - (a) whether a zone code or specific provisions in the zone code apply (shown in the 'assessment benchmarks' column);
  - (b) if there is a local plan, whether a local plan code or specific provisions in the local plan code apply (shown in the 'assessment benchmarks' column);
  - (c) if there is an overlay;
    - (i) whether an overlay code applies (shown in the tables in Section 5.10); or
    - (ii) whether the assessment benchmarks as shown on the overlay map (noted in the 'assessment benchmarks' column) applies;
  - (d) any other applicable code(s) (shown in the 'assessment benchmarks' column);
- (4) any variation to the category of assessment (shown as an 'if' in the 'category of assessment' column) that applies to the development.

Note—Development will only be taken to be prohibited development under the Planning Scheme if it is identified as prohibited development in Schedule 10 of the Regulation.

Editors note—Examples of matters that can vary the category of assessment are gross floor area, height, numbers of people or precinct provisions.

## 5.3 Categories of development and assessment

### 5.3.1 Process for determining the category of development and the category of assessment for assessable development

The process for determining a category of development and category of assessment is:

- (1) for a material change of use, establish the use by reference to the use definitions in Schedule 1;
- (2) for all development, identify the following:
  - (a) the zone or zone precinct that applies to the premises, by reference to the zone map in Schedule 2;
  - (b) if a local plan or local plan precinct applies to the premises, by reference to the local plan map in Schedule 2 (Mapping); and
  - (c) if an overlay applies to the premises, by reference to the overlay map in Schedule 2 (Mapping);
- (3) determine if the development is accepted development under Schedule 6 of the Regulation;

Editors note—Schedule 6 of the Regulation prescribes development that a Planning Scheme can not state is assessable development where the matters identified in the schedule are met.

- (4) determine if the development is assessable development under Schedule 10 of the Regulation by reference to section 5.7 Regulated categories of development and assessment—building work and categories of assessment prescribed by the Regulation.
- (5) if the development is not listed in the tables in section 5.4 Regulated categories of development and categories of assessment prescribed under Schedule 6 of the Regulation, determine the initial category of assessment by reference to the tables in:
  - section 5.5 Categories of development and assessment—Material change of use
  - section 5.6 Categories of development and assessment—Reconfiguring a lot
  - section 5.7 Categories of development and assessment—Building work
  - section 5.8 Categories of development and assessment—Operational work
- (6) a precinct of a zone may change the categories of development or assessment and this will be shown in the 'category of assessment' column of the tables in sections 5.5, 5.6, 5.7 and 5.8;
- (7) if a local plan applies refer to the table(s) in section 5.9 Categories of development and assessment—Local plans, to determine if the local plan changes the category of development or assessment for the zone;
- (8) if a precinct of a local plan changes the category of development or assessment this is to be shown in the 'category of development and assessment' column of the table(s) in section 5.9;
- (9) if an overlay applies, refer to section 5.10 Category of development and assessment—Overlays, to determine if the overlay further changes the category of development or assessment.

### 5.3.2 Determining the category of development and categories of assessment

- (1) A material change of use is assessable development requiring impact assessment:
    - (a) unless the Tables of assessment state otherwise;
    - (b) if a use is not listed or defined; and
    - (c) unless otherwise prescribed in the Act or the Regulation.
  - (2) Reconfiguring a lot is assessable development requiring code assessment unless the Tables of assessment state otherwise or unless otherwise prescribed in the Act or the Regulation.
  - (3) Building work and operational work are accepted development, unless the Tables of assessment state otherwise or unless otherwise prescribed in the Act or the Regulation.
  - (4) Where an aspect of development is proposed on a premises included in more than one zone, local plan or overlay, the category of development or assessment ~~for that aspect is the highest category under each of the applicable only relates to the part of the premises affected by that zones, local plans or overlays.~~
  - (5) Where development is proposed on a premises partly affected by an overlay, the category of development or assessment for the overlay only relates to the part of the premises affected by the overlay.
  - (6) For the purposes of Schedule 6, Part 2 Material change of use section (2)(2)(d)(i) or (ii) of the Regulation, an overlay does not apply to the premises if the development meets the acceptable outcomes that form the requirements for accepted development in the relevant overlay code.
  - (7) If development is identified as having a different category of development or assessment under a zone than under a local plan or an overlay, the highest category of development or assessment applies as follows:
    - (a) accepted development subject to requirements prevails over accepted development;
    - (b) code assessment prevails over accepted development where subject to requirements and accepted development; and
    - (c) impact assessment prevails over code assessment, accepted development where subject to requirements and accepted development.
  - (8) Despite subsections 5.3.2(4) and (7) above, a category of assessment in a local plan overrides a category of assessment in a zone and a category of assessment in an overlay overrides a category of assessment in a zone or local plan.
  - (9) Provisions of Part 10 (Other plans) may override any of the above.
  - (10) The category of development prescribed under Schedule 6 of the Regulation overrides all other categories of development or assessment for that development under the Planning Scheme to the extent of any inconsistency.
- Editor's note—Schedule 7 of the Regulation also identifies development that the State categorises as accepted development. Some development in the schedule may still be made assessable under the Planning Scheme.
- (11) Despite all of the above, if development is listed as prohibited development under Schedule 10 of the Regulation, a development application cannot be made.

Note—Development is to be taken to be prohibited development under the Planning Scheme only if it is identified in Schedule 10 of the Regulation.

### **5.3.3 Determining the requirements for accepted development and assessment benchmarks and other matters for assessable development**

- (1) Accepted development does not require a development approval and is not subject to assessment benchmarks. However, certain requirements may apply to some types of development for it to be accepted development. Where nominated in the Tables of assessment, accepted development must comply with the requirements identified as acceptable outcomes in the relevant parts of the applicable code(s) as identified in the relevant column.
- (2) Accepted development that does not comply with one or more of the nominated acceptable outcomes in the relevant parts of the applicable code(s) becomes code assessable development, unless otherwise specified.
- (3) The following rules apply in determining assessment benchmarks for each category of development and assessment.
- (4) Code assessable development:
  - (a) is to be assessed against all the assessment benchmarks identified in the assessment benchmarks column;
  - (b) that occurs as a result of development becoming code assessable pursuant to subsection 5.3.3(2), must:
    - (i) be assessed against the assessment benchmarks for the development application, limited to the subject matter of the required acceptable outcomes that were not complied with or were not capable of being complied with under subsection 5.3.3(2); and
    - (ii) comply with all required acceptable outcomes identified in subsection 5.3.3(1), other than those mentioned in subsection 5.3.3(2);
  - (c) that complies with:
    - (i) the purpose and overall outcomes of the code complies with the code; and
    - (ii) the performance or acceptable outcomes complies with the purpose and overall outcomes of the code;
  - (d) is to be assessed against any assessment benchmarks for the development identified in section 26 of the Regulation.

Editors Note—Section 27 of the Regulation identifies the matters code assessment must have regard to.

- (5) Impact assessable development:
  - (a) is to be assessed against all identified assessment benchmarks in the assessment benchmarks column (where relevant);
  - (b) assessment is to have regard to the whole of the Planning Scheme, to the extent relevant; and
  - (c) is to be assessed against any assessment benchmarks for the development identified in section 30 of the Regulation.

| Whitsunday Regional Council Planning Scheme – Part 5 – [November 2021-July 2020](#) (V4.01)

Note—The first row of each table of assessment is to be checked to confirm if there are assessment benchmarks that commonly apply to general scenarios in the zone, local plan or overlay.

Editor's note—Section 31 of the Regulation identifies the matters that impact assessment must have regard to.

## 5.4 Regulated categories of development and categories of assessment prescribed by the Regulation

For the development specified in the 'use', 'zone' or 'development' columns, the categories of development and assessment are prescribed.

**Table 5.4.1 Development under Schedules 6 of the Regulation: Material change of use**

| Material change of use |                                                                                                                                                                                                                   |                                                                                                                                                                                      |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Use                    | Categories of assessment                                                                                                                                                                                          | Assessment benchmarks                                                                                                                                                                |
| Community residence    | Accepted subject to requirements<br>Editors note—Refer to the material change of use tables for category of assessment for community residence that do not comply with the requirements for accepted development. | Editors note—requirements for community residence development that may not be made assessable under a Planning Scheme are set out in Schedule 6, Part 2 section 6 of the Regulation. |

**Table 5.4.2 Regulated categories of development and categories of assessment: Reconfiguring a lot**

| Reconfiguring a lot                                                                       |                                                                                                                                                                        |                                                                                                                                                                                                              |
