| Water Supply (Safety & Reliability) Act 2008 | 390(5)          | Power, as a dam owner, to publish a copy of a notice given to the owner under subsection (2) in the gazette.                                                                                                                                                                                                                                                                                                                                                     | Chief Executive Officer | Schedule 2 - Limits and Conditions to the Exercising of Powers |
| Water Supply (Safety & Reliability) Act 2008 | 399B            | Power, as the owner of a dam to which a resource operations licence applies, to, in the circumstances set out in subsection (1), reduce the full supply level of the dam to the reduced full supply level and give notice of the reduced full supply level.                                                                                                                                                                                                      | Chief Executive Officer | Schedule 2 - Limits and Conditions to the Exercising of Powers |
| Water Supply (Safety & Reliability) Act 2008 | 399C            | Power, as the owner of a dam operating at a reduced full supply level under section 399B for more than 1 year, to give a report to the entities prescribed in subsection (2).                                                                                                                                                                                                                                                                                    | Chief Executive Officer | Schedule 2 - Limits and Conditions to the Exercising of Powers |
| Water Supply (Safety & Reliability) Act 2008 | 399B(1)         | Power to form the belief, based on the advice of a registered professional engineer, that there is an unacceptable risk of a failure of a dam if it operates at the full supply level stated in the resource operations licence for the dam.                                                                                                                                                                                                                     | Chief Executive Officer | Schedule 2 - Limits and Conditions to the Exercising of Powers |
| Water Supply (Safety & Reliability) Act 2008 | 399B(2)         | Power to reduce the full supply level of the dam to the level (the reduced full supply level) that lowers the risk of a failure of the dam to a level acceptable to the owner, having regard to the advice of the registered professional engineer.                                                                                                                                                                                                              | Chief Executive Officer | Schedule 2 - Limits and Conditions to the Exercising of Powers |
| Water Supply (Safety & Reliability) Act 2008 | 399B(4)         | Power to consider and include in a notice: (a) the reasons why it is necessary to operate the dam at the reduced full supply level; and (b) the period for which it is necessary to operate the dam at the reduced supply level.                                                                                                                                                                                                                                 | Chief Executive Officer | Schedule 2 - Limits and Conditions to the Exercising of Powers |
| Water Supply (Safety & Reliability) Act 2008 | 399C(3)(a)      | Power to decide and include in a report when the owner intends to allow the dam to return to the full supply level stated in the resource operations licence for the dam.                                                                                                                                                                                                                                                                                        | Chief Executive Officer | Schedule 2 - Limits and Conditions to the Exercising of Powers |
| Water Supply (Safety & Reliability) Act 2008 | 399C(3)(b)      | Power to consider and decide and include in a report: i. the impacts the reduced full supply level has had on the provider's customers since its reduction; ii. the likely future impacts on customers for the period for which the provider proposes to keep the dam at a reduced full supply level; and iii. the impacts the reduced full supply level has had or is likely to have on achieving the water plan outcomes for a water plan under the Water Act. | Chief Executive Officer | Schedule 2 - Limits and Conditions to the Exercising of Powers |
| Water Supply (Safety & Reliability) Act 2008 | 446(2)          | Power to make an improvement plan.                                                                                                                                                                                                                                                                                                                                                                                                                               | Chief Executive Officer | Schedule 2 - Limits and Conditions to the Exercising of Powers |

## 11.12 - Amendment to Donation on Rates and Services Charges Policy

**MEETING DETAILS:** Ordinary Council Meeting - Wednesday 25 September 2024

**AUTHOR:** Manager - Governance and Administration Services

**AUTHORISING OFFICER:** Director Corporate Services

---

### PURPOSE

To amend the Donation on Rates and Charges for Not-for-Profit Organisations Policy

### EXECUTIVE SUMMARY

The Donation on Rates and Charges for Not-for-Profit Organisations Policy was reviewed as part of the budget policies review in June 2024. However, one of the proposed changes was omitted in error in the final approved policy. This report seeks to rectify this change so the policy can be implemented as intended by Council.

### OFFICER'S RECOMMENDATION

That Council adopt the Donation on Rates and Charges for Not-for-Profit Organisations Policy as shown in **attachment 1**.

### BACKGROUND

Council recognises that not-for-profit organisations provide an invaluable service for residents of the region that need assistance, financial or otherwise to ensure either continued operation or for commencement. These organisations provide a range of socially desirable and in-need services, and sometimes supplements services available through the state systems.

Council also recognises that the demand for such services usually exceeds the resources available to such organisations. As such, Council has determined it proper to provide donations to these organisations to partially offset their Rates and Charges, so that these not-for-profit organisations can apply such funds to the delivery of their services to the community.

The Donations on Rates and Charges for Not-for-Profit Organisations Policy (**Attachment 1**) envisages donations up to between 50% and 100% of the Rates and Charges applicable to properties used by the identified organisations to deliver their services. When assessing a request for a donation, Council may consider an applicant's current financial position and ability to pay their Rates & Charges.

### DISCUSSION/CURRENT ISSUE

The following amendments are recommended and have been discussed with Councillors:

- the removal of clause 5 from the current policy
- the removal of 'definition of principal property' from the current policy
- amended of the term 'restricted liquor permit' replaced with Community Club License and Community Other License.
- the additional clause of organisations having to apply annually on the provided application form and meet all requirements

## **FINANCIAL IMPLICATIONS**

The Policy enables Council to provide concession on levied Rates and Charges in the financial year they relate to, so that Council can provide concessions on eligible Rates and Utility Charges revenue for the 2024/25 Financial Year.

### Donations on Rates and Charges for Not-for-Profit Organisations Policy (FIN\_22)

Endorsed by Council

26 June 2024

#### Purpose

Council may grant a donation, in the form of a rebate of a percentage of certain Council Rates and Charges, for particular categories of Not-For-Profit organisations.

The purpose of this Policy is to provide an administrative framework for consistently assessing requests for assistance made by Not-For-Profit organisations that offer a benefit to the residents of the Council area, to alleviate the cost of the annual rates and charges.

#### Scope

This Policy applies to all Not-For-Profit organisations within the defined categories, who may apply for a donation towards their Rates and Charges payable to Council.

#### Guiding Principles

1. In some circumstances, Council will provide a donation (i.e. a rebate) to alleviate the financial burden of Council's annual Rates and Charges on Not-For-Profit organisations.
2. Council will only provide assistance under this Policy to Not-For-Profit organisations that provide services or benefits to the residents of the Council area. All applicant organisations must submit evidence to support their application to Council as outlined in the provided application form on an annual basis by the provided due date. Any applications received after the due date will be deemed ineligible.
3. When assessing a request for a donation, Council may give consideration to an applicant's current financial position and ability to pay the annual rates. The Not-For-Profit organisation will be required to provide Council with a copy of its previous year's audited financial statements.
4. Council may grant financial assistance equivalent to a specified percentage of the Rates and Charges levied for the current financial year. The exact nature and extent of assistance will depend on the category of the Not-For-Profit organisation, determined in accordance with clause 9 and 10.
5. No assistance will be offered for other Council rates or charges that may be levied from time to time, or for any levies imposed by the State Government.
6. No assistance will be offered to political or religious organisations, or organisations that have outstanding rates and charges.
7. Where a community organisation has entered into a lease agreement with Council, a land valuation will need to be conducted by the Department of Resources in order for rates to be assigned to the property. Once Council has received the valuation and assigned rates to the property, the organisation can then apply for a donation on their rates and service charges for the current financial year.
8. No assistance will be offered retrospectively, in exception only to circumstances outlined in item 7.
9. Council will consider donations for Not-For-Profit organisations that:

- a. own, or have a term lease over, the relevant property; and
- b. use the relevant property solely or predominantly to deliver the organisations services to the community.

10. Council will consider donations for Not-For-Profit organisations that deliver the following services:

11. Council will not grant a donation for Rates and Charges where the Not-for-Profit organisation holds a liquor license or operates gaming machines on their premises. However, Council recognises that some Not-For-Profit community-based organisations with a Community Club License and/or Community – Other License, issued under the Liquor Act 1992 Queensland, experience financial difficulties affecting their ability to pay their annual rates.

- Accordingly, where a Not-For-Profit community organisation holds a Community Club License and/or Community – Other License and does not have gaming machines on their premises, Council may grant a donation.
- The maximum concession for Not-for-Profit organisations holding a Community Club License and/or Community – Other License will be half of the donation they would have received had they not held such a license.

## 11.13 - Audited Financial Statement 2023/24 and Closing Audit Report

**MEETING DETAILS:** Ordinary Council Meeting - Wednesday 25 September 2024

**AUTHOR:** Manager - Financial Services

**AUTHORISING OFFICER:** Director Corporate Services

---

### PURPOSE

To present the Audited Financial Statements for the 2023/24 Financial Year and to present the Closing Audit Report 2024 and opinion from the Queensland Audit Office.

### EXECUTIVE SUMMARY

Following the completion of the External Audit of Councils 2023/24 Annual Financial Statements, this report seeks endorsement of Council for the Final Audited Financial Statements and Closing Audit Report and opinion from the Queensland Audit Office.

### OFFICER'S RECOMMENDATION

That Council receive the Audited Financial Statements for the 2023/24 Financial Year and the 2024 Closing Audit Report from the Queensland Audit Office.

### BACKGROUND

The *Local Government Act 2009* and Local Government Regulation 2012 requires Council to compile annual financial statements in accordance with the Australian Accounting Standards and have them audited by the Queensland Audit Office (QAO) and signed off by the Auditor-General of Queensland.

### DISCUSSION/CURRENT ISSUE

The Financial Statements were signed off by the Queensland Audit Office on the 21<sup>st</sup> of August 2024 after being endorsed by the Audit and Risk Committee on the 20<sup>th</sup> August 2024.

The 2023/24 financial statements and the analysis and comments of the Queensland Audit Office are contained in the attachments to this report.

Council has reported a Net Result for the year of -\$17.8M(deficit) and a total written down value of assets of \$1.37B, an increase of \$93M as a result of the revaluation of Transport, Water and Sewerage Infrastructure assets. Council has reported an operating deficit of \$3.1M for the year ended 30 June 2024 due the timing of the payment of the federal government 'financial assistance grant' which was scheduled to be received in June 2024 but was not paid until July 2024. This payment if received would have resulted in a surplus of approximately \$3M.

Council has received an Unmodified Audit Opinion for the Annual Financial Statements 2023/24.

Council's Financial Sustainability has been assessed against the new Financial Sustainability Guideline for Local Government with 2024 being the first reporting year for these ratios.

Whitsunday Regional Council is reported at a low risk as all five -year averages are within the target ranges, irrespective of the operating surplus ratio showing a deficit for June 2024.

The new ratios are displayed in the following table including the target range:

| Type                                 | Measure                               | Target                | As at June 2024 | 5 Year     |

|                                      | Asset Consumption Ratio               | Greater than 60%      | 69.13%          | 72.61%     |
| Debt Servicing Capacity              | Leverage Ratio                        | 0 to 3 times          | 2.04 times      | 2.03 times |
| <b>Contextual ratios (unaudited)</b> |                                       |                       |                 |            |
| Financial Capacity                   | Council-Controlled Revenue            | N/A                   | 86.58%          | 83.51%     |
|                                      | Population Growth                     | N/A                   | 2.30%           | 1.88%      |

The Operating Surplus Ratio is driven by the operating result reflecting an operating deficit (\$3.1M) due to the delayed payment of the annual Financial Assistance Grant of approximately \$6M. Historically, this grant has been paid prior to 30 June 2024 with revenue recognised in the current financial year under Accounting Standards. This is the first year that the grant was received by all Queensland Councils after 30 June 2024 and therefore cannot be recognised in 2023/24. Council maintained internal reserves to accommodate this anticipated deferral of payment with the cash being released to offset the reduced revenue in 2024.

The deficit Net Result position is reflective of the operating deficit as detailed above well as significant capital expenses in 2023/24. These capital expenses relate to one-off events including the write-off of transport infrastructure assets through declared disaster works during the year (\$30M), the revaluation of Marine assets (\$8.4M) and changes to the provisions for future restoration expenditure at Councils waste landfills (\$10M).

QAO have reported one Low Risk financial reporting issue raised in relation to the timing of capitalisation of work in progress and one Internal Control deficiency. Management responses have been provided in the Closing Report and the Audit and Risk Committee accepts and considers the recommendations appropriate.

Council will continue to prioritise achieving the sustainability measures, ensuring the Financial Statement maturity levels remain strong whilst reviewing opportunities for further improvement and refinement as well as ensuring the internal control environment across the organisation remains strong.

A copy of the closing report is attached which provides additional information. All audit timeframes have been met and the final statements will be published into the Annual Report. The Community Financial Report has been developed for inclusion in the Annual Report to assist with the interpretation of the Financial Statements for period ending 30 June 2024.

These Audited Financial Statements provide a positive result for Council with receiving an unmodified audit opinion demonstrating the commitment to timeliness and the presentation of financial statements for audit.

## FINANCIAL IMPLICATIONS

The financial sustainability is addressed through the audit report and the financial performance of Council is visible in the financial reports that have been audited against accounting standards. There are no further financial impacts, and Council remains in a financially sustainable position. The reported deficits are influenced predominantly by the

timing of revenue transactions and the recognition of provisions relating to waste landfills. They do not necessarily reflect upon the financial performance but more reflect the timing of these transactions and the accounting treatment required.

## **STATUTORY/COMPLIANCE MATTERS**

The finalisation of the audited financial statements for the 2023/24 financial year will ensure that Council complies with the requirements of the local government legislation and the relevant accounting and auditing standards.

The financial sustainability assessment that is referenced in the Closing Audit Report rates Council's sustainability risk as low with all key financial ratios within the accepted guidelines. The Financial Statements have been assessed through an unmodified audit opinion to be in compliance with Australian Accounting Standards.

Local Government Regulation 2012 Section 213.

## **RISK ASSESSMENT/DEADLINES**

This Closing Audit Report references Council's financial sustainability as a low risk indicating that Council will continue to operate and manage any unforeseen financial impacts at this time.

## **STRATEGIC IMPACTS**

Maximise the organisation's financial performance, achieving a high level of customer service, productivity and efficiency through strategic direction, expert advice, and leadership. Support the organisation in ensuring appropriate compliance with legislation and to support the elected council in its decision-making processes and obligations as a local government.

### Notes to the Financial Statements

#### For the year ended 30 June 2024

---

- 1 Information about these financial statements
  - 1.1 Basis of preparation

These general purpose financial statements are for the period 1 July 2023 to 30 June 2024 and have been prepared in compliance with the requirements of the *Local Government Act 2009* and the *Local Government Regulation 2012*. Council is a not-for-profit entity for financial reporting purposes and these financial statements comply with Australian Accounting Standards and interpretations as applicable to not-for-profit entities.

These financial statements have been prepared under the historical cost convention except for the revaluation of certain classes of property, plant and equipment and investment property.
  - 1.2 Constitution

The Whitsunday Regional Council (Council) is constituted under the *Queensland Local Government Act 2009* and is domiciled in Australia.
  - 1.3 New and revised Accounting Standards adopted during the year

Council adopted all standards which became mandatorily effective for annual reporting period beginning on 1 July 2023, none of the standards had a material impact on reported positions, performance and cash flows.

The adoption of the revisions to AASB 101 Presentation of Financial Statements resulted in disclosure of material accounting policy information only rather than significant accounting policies. This means that accounting policy information is disclosed only if it relates to material transactions, other events or conditions and:

    - a) Council has changed accounting policy during the reporting period and this change resulted in a material change to the information in the financial statements.
    - b) Council chose (or was mandated to use) the accounting policy from one or more options permitted by Australian Accounting Standards
    - c) the accounting policy was developed in accordance with *AASB 108 Accounting Policies, Changes in Accounting Estimates and Errors* in the absence of an Australian Accounting Standard that specifically applies.
    - d) the accounting policy relates to an area for which Council is required to make significant judgements or assumptions in applying an accounting policy, and Council discloses those judgements or assumptions in the financial statements.
    - e) the accounting required for them is complex and users of the entity's financial statements would otherwise not understand those material transactions, other events or conditions.
  - 1.4 Standards issued by the AASB not yet effective

The AASB has issued Australian Accounting Standards and Interpretations which are not effective at 30 June 2024, these standards have not been adopted by Council and will be included in the financial statements on their effective date. None of these standards are expected to have a material impact on reported positions, performance and cash flows.
  - 1.5 Estimates and judgements

In the application of Council's accounting policies, management is required to make judgements, estimates and assumptions about carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates. The estimates and ongoing assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in future periods as relevant.

Judgements, estimates and assumptions that have a potential significant effect are outlined in the following financial statement notes:

    - Revenue recognition - note 3
    - Valuation of Investment Property - note 14
    - Valuation and depreciation of property, plant and equipment - note 15
    - Leases - note 17
    - Provisions - note 19
    - Contingent liabilities - note 24
    - Financial Instruments & Financial Risk Management - note 27
  - 1.6 Rounding and comparatives

The financial statements are in Australian dollars and have been rounded to the nearest \$1, unless otherwise stated. Comparative information has been restated where necessary to be consistent with disclosures in the current reporting period.

Council is in receipt of Volunteer Services provided to Proserpine Entertainment Centre from the community. Council partners with Queensland Corrective Services to provide beneficial works projects for the community, and rehabilitate offenders to assist with their return to society. Although the fair value of these volunteer services can be reliably measured they have not been recognised as per AASB 1058.

**1. 8 Taxation**

Income of local authorities and public authorities is exempt from Commonwealth taxation except for Fringe Benefits Tax and Goods and Services Tax (GST). The net amount of GST recoverable from the ATO or payable to the ATO is shown as an asset or liability respectively.

Council pays payroll tax to the Queensland Government on certain activities.

| Sale of goods is recognised at the point in time when the performance obligation is completed or when the service is rendered.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |      |                    |                   |
| Council generates revenues from a number of services. The performance obligation relates to the specific services which are provided to the customers and generally the payment terms are within 30 days of the provision of the service or in some cases, the customer is required to pay on arrival, for example caravan parks. There is no material obligation for Council in relation to refunds or returns. Contract revenue and associated costs are recognised by reference to the stage of completion of the contract activity based on costs incurred at the reporting date. Revenue is measured at the fair value of consideration received or receivable in relation to that activity. Where consideration is received for the service in advance it is included in other liabilities and is recognised as revenue in the period when the service is performed. |      |                    |                   |

| Where grant income arises from an agreement which is enforceable and contains sufficiently specific performance obligations, then the revenue is recognised when conformance to each performance obligations is satisfied.                                                                                                                                                                                                                                                                                                                                |      |                   |                   |
| The performance obligations are varied based on the agreement but include delivery of services and events. Payment terms vary depending on the terms of the grant, cash is received upfront for some grants and on the achievement of certain milestones for others.                                                                                                                                                                                                                                                                                      |      |                   |                   |
| Each performance obligation is considered to ensure that the revenue recognition reflects the transfer of control. Within grant agreements there may be some performance obligations where control transfers at a point in time and others which have continuous transfer of control over the life of the contract.                                                                                                                                                                                                                                       |      |                   |                   |
| Where control is transferred over time, generally the input methods being either costs incurred or time elapsed are deemed to be the most appropriate methods to reflect the transfer of benefit.                                                                                                                                                                                                                                                                                                                                                         |      |                   |                   |

| Assets arising from grants in the scope of AASB 1058 are recognised at the assets fair value when the asset is received. Council considers whether there are any related liability or equity items associated with the assets which are recognised.                                                                                                                                                                                                                                                                                                       |      |                   |                   |
| Once the assets and liabilities have been recognised, then income is recognised for any remaining asset value at the time that the asset is received.                                                                                                                                                                                                                                                                                                                                                                                                     |      |                   |                   |

| Capital grants received to enable Council to acquire or construct an item of property, plant and equipment to identified specifications, which will be under Council's control and which is enforceable, are recognised as revenue as and when the obligation to construct or purchase is completed. For construction projects, this is generally as the construction progresses in accordance with costs incurred, since this is deemed to be the most appropriate measure of the completeness of the construction project as there is no profit margin. |      |                   |                   |
| Where assets are donated or purchased for significantly below fair value, the revenue is recognised when the asset is acquired and controlled by Council.                                                                                                                                                                                                                                                                                                                                                                                                 |      |                   |                   |

| Developers pay infrastructure charges for trunk infrastructure, such as pump stations, treatment works, water & sewer mains, and water pollution control works. These infrastructure charges are not within the scope of AASB 1058 because there is no performance obligation associated with them. Consequently, the infrastructure charges are recognised as income when received.                                                                                                                                                                      |      |                   |                   |

| Physical assets contributed to Council by developers in the form of road works, stormwater, water & wastewater infrastructure, and park equipment are recognised as revenue when the development becomes "off maintenance" (i.e. Council obtains control of the assets and becomes liable for any ongoing maintenance) and there is sufficient data in the form of drawings and plans to determine the approximate specifications and values of such assets. All non-cash contributions in excess of the recognition threshold are recognised at the fair value of the contribution received on the date of acquisition. A non-current asset is also recognised if the value is in excess of the recognition threshold. |      |                        |                        |

| Cash at bank and on hand at 30 June 2024 includes a lump sum received from the State government for the future years of the State Waste Levy. Council received this advance in the 2021/22 and 2022/23 financial years and there are currently only three years remaining. This payment is to mitigate the direct impacts on households. |      |                    |                   |

| Funds held in the trust account on behalf of outside parties include those funds from the sale of land for arrears in rates, deposits for the contracted sale of land, security deposits lodged to guarantee performance and unclaimed monies (e.g. wages) paid into the trust account by Council. Council performs only a custodian role in respect of these monies and because the monies cannot be used for Council purposes, they are not considered revenue nor brought to account in the financial statements since Council has no control over the assets. |      |                   |                   |

| Term deposits in excess of 3 months are reported as investments. Investments are held with financial institutions, which are rated A-1+ and A-2 based on rating agency Standard and Poor's ratings. Whilst not capital guaranteed, the likelihood of a credit failure is assessed as low.                                                                                                                                                                                                                                                                         |      |                   |                   |

| Council applies normal business credit protection procedures prior to providing goods or services to minimise credit risk.                                                                                                                                                                                                                                                                                                                                                                                                                                        |      |                   |                   |
| Council has undertaken a comprehensive review of past records to determine an appropriate level of provision for debts that may be potentially uncollectable in the future. Based on this analysis, Council has determined the following as an appropriate basis for calculating the provision for doubtful debts.                                                                                                                                                                                                                                                |      |                   |                   |
| <ul style="list-style-type: none"> <li>• Rates &amp; Utility Charges Debtors - 0.025% of amounts outstanding past the due date</li> <li>• Infringement Debtors - 30% of amounts outstanding past the due date</li> <li>• Infringement Debtors - 100% of amounts outstanding &gt; 12 months with SPER</li> <li>• Other General Debtors - 7.5% of amounts outstanding past the due date</li> </ul>                                                                                                                                                                  |      |                   |                   |
| The collectability of receivables is assessed periodically and if there is objective evidence that Council will not be able to collect all amounts due, the carrying amount is impaired for potentially unrecoverable amounts, prior to the calculation of the provision.                                                                                                                                                                                                                                                                                         |      |                   |                   |
| The provision for Rates & Utility Charges is low because Council is empowered under the provisions of the <i>Local Government Act 2009</i> to sell an owner's property to recover outstanding rates and utility charges.                                                                                                                                                                                                                                                                                                                                          |      |                   |                   |

| Investment property is property held for the primary purpose of earning rentals and/or capital appreciation. This includes land held by council for a currently undetermined future use. Investment property does not include community housing or other property held to provide a social service.                                                     |       |                  |                  |
| Investment property is initially recognised at cost (including transaction costs) and subsequently at fair value. Where investment property is acquired for significantly below fair value it is recorded at fair value on initial recognition.                                                                                                         |       |                  |                  |

## Whitsunday Regional Council

### Notes to the Financial Statements For the year ended 30 June 2024

---

#### 15 Property, plant and equipment (continued)

##### (a) Recognition

Each class of property, plant and equipment is stated at cost or fair value less, where applicable, any accumulated depreciation and accumulated impairment loss. Individual items of plant and equipment with a value of less than \$7,500 are treated as an expense in the year of acquisition. All other items of property, plant and equipment (including assets which are treated as network assets) are capitalised.

Expenditure necessarily incurred in either maintaining the operational capacity of assets or ensuring that their original life estimates are achieved, is considered maintenance and is treated as an expense as incurred. Pre-feasibility project costs (which may involve research and development) are also treated as an expense in the year they are incurred.

Expenditure incurred in accordance with Disaster Recovery Funding Arrangements, on road assets is analysed to determine whether the expenditure is capital in nature or not. The analysis of the expenditure involves Council engineers reviewing the nature and extent of expenditure on a given asset. For example, expenditure that patches a road is generally maintenance in nature, whereas a kerb to kerb rebuild is treated as capital. Material expenditure that extends the useful life or renews the service potential of the asset is capitalised.

##### (b) Measurement

Acquisitions of assets are initially recorded at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition, including freight in, architect's fees and engineering design fees and all other establishment costs.

Property, plant and equipment received in the form of contributions, are recognised as assets and revenues at fair value.

Direct labour and materials and an appropriate proportion of overheads expenditure incurred in the purchase or construction of assets is treated as capital expenditure and is included in capital work in progress. Assets under construction are not depreciated until they are completed and commissioned, at which time they are capitalised to the appropriate property, plant and equipment asset class.

##### (c) Capital work in progress

The cost of property, plant and equipment being constructed by the Council includes the cost of purchased services, materials, direct labour and an appropriate proportion of labour on-costs.

##### (d) Depreciation

Land is not depreciated as it has an unlimited useful life. Depreciation on other property, plant and equipment assets is calculated on a straight-line basis so as to write-off the net cost or revalued amount of each depreciable asset, progressively over its estimated useful life to Council. Management believes that the straight-line basis appropriately reflects the pattern of consumption of all Council assets.

Assets are depreciated from the date of acquisition or, in respect of internally constructed assets, from the time an asset is completed and commissioned ready for use.

Where assets have separately identifiable components that are subject to regular replacement, these components are assigned useful lives distinct from the asset to which they relate. Any expenditure that increases the originally assessed capacity or service potential of an asset is capitalised and the new depreciable amount is depreciated over the remaining useful life of the asset.

The depreciable amount of improvements to or on leasehold land is allocated progressively over the estimated useful lives of the improvements to the Council or the unexpired period of the lease, whichever is the shorter.

Depreciation methods and estimated useful lives of property, plant and equipment are reviewed at the end of each reporting period and adjusted where necessary to reflect any changes in the pattern of consumption, physical wear and tear, technical or commercial obsolescence, or management intentions. The condition assessments performed as part of the annual valuation process for assets measured at current replacement cost are used to estimate the useful lives of these assets at each reporting date.

##### (e) Land under roads

Land under the road network within the Council area that has been dedicated and opened for public use under the *Land Act 1994* or the *Land Title Act 1994* is not controlled by Council but is controlled by the state pursuant to the relevant legislation. Therefore, this land is not recognised in these financial statements.

##### (f) Impairment of non-current assets

Each non-current physical and intangible asset and group of assets is assessed for indicators of impairment annually.

##### (g) Valuation

###### (i) Valuation Processes

Council's valuation policies and procedures are set by Council, based on advice of the Asset Management Steering Committee which comprises the Director of Corporate Services, Manager Financial Services, Director of Infrastructure and Asset Custodians. Revaluations are undertaken by the Revaluation Working Group with procedures reviewed annually taking into consideration an analysis of movements in fair value and other relevant information.

# Whitsunday Regional Council

## Notes to the Financial Statements For the year ended 30 June 2024

### 15 Property, plant and equipment (continued)

Land and improvements are measured at market value. Buildings and all infrastructure assets are measured on the revaluation basis, at fair value, in accordance with AASB 116 Property, Plant & Equipment and AASB 13 Fair Value Measurement. Other plant and equipment and work in progress are measured at cost.

Non-current physical assets measured at fair value are revalued, where required, so that the carrying amount of each class of asset does not materially differ from its fair value at the reporting date. This is achieved by engaging independent, professionally qualified condition assessors and valuers to determine the condition of the assets and the fair value (with the assets condition being one input) for each class of property, plant and equipment assets at least once every 5 years. This comprehensive valuation process involves the condition assessor/valuer making their own assessments of the condition of the assets at the date of inspection by either physically sighting a representative sample of Council assets across all asset classes or by referring to condition inspection information provided by another suitably qualified party.

In the intervening years between comprehensive valuations, Council reviews the asset categories for impairment, while checking against industry cost indexes for material changes in the fair value of Council's asset portfolio.

An analysis performed by management has indicated that, on average, the variance between an indexed asset value and the valuation by an independent valuer when performed is not significant and the indices used by Council are appropriate. This year, as in the past five years, Council has used the Local Government Association of Queensland Council Cost Index (LGAQ CCI) which is an indicator of cost increases across the range of services and infrastructure delivered by Local Government.

Any revaluation increment arising on the revaluation of an asset is credited to the appropriate class of the asset revaluation surplus, except to the extent it reverses a revaluation decrement for the class previously recognised as an expense. A decrease in the carrying amount on revaluation is charged as an expense to the extent it exceeds the balance, if any, in the revaluation surplus of that asset class.

On revaluation, accumulated depreciation is restated with the change in the carrying amount of the asset and any change in the estimate of remaining useful life.

Separately identified components of assets are measured on the same basis as the assets to which they relate.

#### Recognised fair value measurements

Council measures and recognises the following assets at fair value on a recurring basis:  
Investment properties

- Property, plant and equipment
  - Land and Improvements
  - Buildings and Other Structures
  - Transport Infrastructure
  - Water Infrastructure
  - Sewer Infrastructure
  - Marine Infrastructure

In accordance with AASB 13 fair value measurements are categorised on the following basis:

- Fair value based on quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1)
- Fair value based on inputs that are directly or indirectly observable for the asset or liability (Level 2)
- Fair value based on unobservable inputs for the asset and liability (Level 3)

The following table categorises fair value measurements as either level 2 or level 3 in accordance with AASB 13. Council does not have any assets or liabilities measured at fair value which meet the criteria for categorisation as level 1.

The fair values of the assets are determined using valuation techniques which maximise the use of observable data, where it is available, and minimise the use of entity specific estimates. If all significant inputs required to fair value of an asset are observable, the asset is included in level 2. If one or more of the significant inputs is not based on observable market data, the asset is included in level 3. This is the case for Council infrastructure assets, which are of a specialist nature for which there is no active market for similar or identical assets. These assets are valued using a combination of observable and unobservable inputs.

The table presents Council's assets and liabilities measured and recognised at fair value at 30 June 2024.

#### 16 Contract balances

Where the amounts billed to customers are based on the achievement of various milestones established in the contract, the amounts recognised as revenue in a given period do not necessarily coincide with the amounts billed to or certified by the customer.

When a performance obligation is satisfied by transferring a promised good or service to the customer before the customer pays consideration or before payment is due, Council presents the work in progress as a contract asset, unless the rights to that amount of consideration are unconditional, in which case Council recognises a receivable.

When an amount of consideration is received from a customer / fund provider prior to Council transferring a good or service to the customer, Council presents the funds which exceed revenue recognised as a contract liability.

#### 17 Leases

##### Council as a lessee

Where Council assesses that an agreement contains a lease, a right-of-use asset and lease liability is recognised on inception of the lease. Council does not separate lease and non-lease components for any class of assets and has accounted for lease payments as a single component.

The right-of-use asset is measured using the cost model where cost on initial recognition comprises: the lease liability, initial direct costs, prepaid lease payments, estimated cost of removal and restoration, less any lease incentives received. The right-of-use is depreciated over the lease term on a straight-line basis and assessed for impairment in accordance with the impairment of asset accounting policy.

The lease liability is initially recognised at the present value of the remaining lease payments at the commencement of the lease. The discount rate is the rate implicit in the lease, however where this cannot be readily determined then the Council's incremental borrowing rate for a similar term with similar security is used.

##### Exceptions to lease accounting

Council has applied the exceptions to lease accounting for both short-term leases (i.e. leases with a term of less than or equal to 12 months) and leases of low-value assets. Council recognises the payments associated with these leases as an expense on a straight-line basis over the lease term.

##### Leases at significantly below market value / Concessionary leases

Council has elected to measure the right-of-use asset arising from the concessionary leases at cost which is based on the associated lease liability at initial recognition.

#### 17 Leases (continued)

##### Terms and conditions of leases

###### Buildings

Council has two building leases for the Cannonvale Library and the Cannonvale Customer Service Centre. These leases are each for 2 years and both leases include a fixed increase after the first year.

###### Land

Council leases ten land assets from the Department of Natural Resources, Mining and Energy. Five of these land leases have terms of between 20 and 100 years, while five have no term i.e. can be cancelled with reasonable notice.

#### 17 Leases (continued)

##### (c) Liabilities not recognised - extension options

For building leases, Council includes extension options which can be exercised at Council's discretion, at each reporting date Council assesses whether it is reasonably certain that the extension options will be exercised based on current operations and Council strategy.

There are no potential future lease payments which are not included in the lease liability as the exercise of the option has been assessed as not reasonably certain.

##### (d) Amounts included in the statement of comprehensive income related to leases

The following amounts have been recognised in the statement of comprehensive income for leases where Council is the lessee:

##### (e) Leases at significantly below market value - Concessionary / peppercorn leases

Council has a number of leases at significantly below market for land and buildings which are used for:

Euri Creek Cattle Yards  
Bowen Tourist Information Centre (Big Mango)  
Dingo Beach Transfer Station  
Mt Rooper Reservoir  
Dingo Beach Telecommunication Facility  
Inyd Robert Jetty  
High Tide Area  
Water Licence No 577241  
Shute Harbour Road, Hamilton Plains (Water Supply)  
Black Street Riordanvale (Telecommunications)

The leases are generally between 2 and 100 years and require payments between \$100 and \$190,000 per annum. The use of the right-to-use asset is restricted by the lessors to specified community services which Council must provide, these services are detailed in the leases.

Council does not believe that any of the leases in place are individually material.

| A provision is made for the cost of restoration in respect of the quarry where it is probable the Council will be liable, or required, to incur such a cost on the cessation of use of this facility. The provision is measured at the expected cost of the work required, discounted to current day values using the interest rates attaching to Commonwealth Government guaranteed securities with a maturity date corresponding to the anticipated date of the restoration.                                                                                                                                                                                                                                                                                                                                                                    |      |                   |                   |
| The provision represents the present value of the anticipated future costs associated with the closure of the quarry, reclamation and rehabilitation of these sites. The calculation of this provision requires assumptions such as application of environmental legislation, site closure dates, available technologies and engineering cost estimates. These uncertainties may result in future actual expenditure differing from amounts currently provided. Because of the long-term nature of the liability, the most significant uncertainty in estimating the provision is the costs that will be incurred. The provision recognised is reviewed annually and updated based on the facts and circumstances available at the time.                                                                                                          |      |                   |                   |
| Management estimates that the restoration will occur in 2042.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |      |                   |                   |
| The provision is the present value of the estimated cost of restoring the Foxdale Quarry site to a usable state at the end of its useful life. The projected cost is \$2,092,292 and this cost is expected to be incurred in 2042.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |      |                   |                   |

| A provision is made for the monitoring and future remediation activities at currently operating as well as closed landfill sites, where it is probable that Council will be liable for undertaking such activities and incurring such costs at a future date. The provision is measured at the expected cost of the work required, discounted to current day values using an appropriate cost of capital figure.                                                                                                                                                                                                                                                                                                                                                                                                                                  |      |                   |                   |
| The provision represents the present value of the anticipated future costs associated with the monitoring and remediation of the landfill sites within the region. The calculation of this provision requires assumptions such as application of environmental legislation, site closure dates, available technologies and engineering cost estimates. These uncertainties may result in future actual expenditure differing from amounts currently provided. Because of the long-term nature of the liability, the most significant uncertainty in estimating the provision is the costs that will be incurred in the future. Management estimates that costs will be incurred annually over future years between 2025 and 2080. The provision will be reviewed annually and updated based on the facts and circumstances available at the time. |      |                   |                   |

| Borrowings are initially recognised at fair value plus any directly attributable transaction costs. Subsequent to initial recognition these liabilities are measured at amortised cost.                                                                                                                                                                                                                                                                                                                                                                              |      |                    |                    |
| In accordance with the <i>Local Government Regulation 2012</i> Council adopts an annual debt policy that sets out Council's planned borrowings for the next nine years. Council's current policy is to only borrow for capital projects and for a term no longer than the expected life of the asset. Council also aims to comply with the Queensland Treasury Corporation's borrowing guidelines and ensure that sustainability indicators remain within acceptable levels at all times. All borrowing costs are expensed in the period in which they are incurred. |      |                    |                    |

| The asset revaluation surplus comprises adjustments relating to changes in value of property, plant and equipment that do not result from the use of those assets. Net incremental changes in the carrying value of classes of non-current assets since their initial recognition are accumulated in the asset revaluation surplus.                                                                                                                                                                                                                                  |      |                    |                    |
| Increases and decreases on revaluation are offset within a class of assets.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |      |                    |                    |
| Where a class of assets is decreased on revaluation, that decrease is offset first against the amount remaining in the asset revaluation surplus in respect of that class. Any excess is treated as an expense.                                                                                                                                                                                                                                                                                                                                                      |      |                    |                    |
| When an asset is disposed of, the amount reported in surplus in respect of that asset is retained in the asset revaluation surplus and not transferred to retained surplus.                                                                                                                                                                                                                                                                                                                                                                                          |      |                    |                    |

| The Council is a member of the Queensland local government workers compensation self-insurance scheme, Local Government Workcare. Under this scheme Council has provided a bank guarantee to cover bad debts which may remain should the self insurance licence be cancelled and there was insufficient funds available to cover outstanding liabilities. Only the Queensland Government's workers compensation authority may call on any part of the guarantee should the above circumstances arise.                                                       |      |                    |                    |

| Council is a member of the local government mutual liability self-insurance pool, LGM Queensland. In the event of the pool being wound up or is unable to meet its debts as they fall due, the trust deed and rules provide that any accumulated deficit will be met by the individual pool members in the same proportion as their contribution to the total pool contributions in respect to any year that a deficit arises. At 30 June 2023 the Financial Statements reported an accumulated surplus and it is not anticipated any liability will arise. |      |                    |                    |

| Council contributes to the LGIA Super Regional Defined Benefits Fund (the scheme), at the rate of 12% for each permanent employee who is a defined benefit member. This rate is set in accordance with the LGIA Super trust deed and may be varied on the advice of an actuary. The Regional Defined Benefits Fund is a complying superannuation scheme for the purpose of the Commonwealth Superannuation Industry (Supervision) legislation and is also governed by the Local Government Act 2009. The scheme is managed by the LGIA super trustee as trustee for LGIA super trading as Brighter Super.                                   |            |              |              |
| The scheme is a pooled defined benefit plan and it is not in accordance with the deed to allocate obligations, plan assets and costs at the council level.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |            |              |              |
| Any amount by which the scheme is over or under funded may affect future benefits and result in a change to the contribution rate obligations, but has not been recognised as an asset or liability of Council.                                                                                                                                                                                                                                                                                                                                                                                                                             |            |              |              |
| Technically Council can be liable to the scheme for a portion of another local governments' obligations should that local government be unable to meet them. However the risk of this occurring is extremely low and in accordance with the LGIA super trust deed changes to Council's obligations will only be made on the advice of an actuary.                                                                                                                                                                                                                                                                                           |            |              |              |
| The last completed actuarial assessment of the scheme was undertaken as at 1 July 2021. The actuary indicated that "At the valuation date of 1 July 2021, the net assets of the scheme exceeded the vested benefits and the scheme was in a satisfactory financial position as at the valuation date." The measure of vested benefits represents the value of benefit entitlements should all participating employees voluntarily exit the scheme. The Council is not aware of anything that has happened since that time that indicates the assets of the scheme are not sufficient to meet the vested benefits, as at the reporting date. |            |              |              |
| No changes have been made to prescribed employer contributions which remain at 12% of employee salary or wages and there are no known requirements to change the rate of contributions.                                                                                                                                                                                                                                                                                                                                                                                                                                                     |            |              |              |
| The next triennial actuarial review is not due until 1 July 2024.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |            |              |              |
| The most significant risks that may result in LGIA super increasing the contribution rate, on the advice of the actuary, are:                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |            |              |              |
| Investment risk - The risk that the scheme's investment returns will be lower than assumed and additional contributions are needed to fund the shortfall.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |            |              |              |
| Salary growth risk - The risk that wages or salaries will rise more rapidly than assumed, increasing vested benefits to be funded.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |            |              |              |

Notes to the Financial Statements  
For the year ended 30 June 2024

27 Financial instruments and financial risk management  
(a) Financial assets and financial liabilities

Council has exposure to the following risks arising from financial instruments:

- credit risk
- liquidity risk
- market risk

Risk management framework

Council is responsible for the establishment and oversight of the risk management framework, together with developing and monitoring risk management policies.

Council's Audit and Risk Committee approves policies for overall risk management, as well as providing oversight of Council's credit, liquidity and market risks.

Council's risk management policies are established to identify and analyse the risks faced, to set appropriate limits and controls and to monitor these risks and adherence against limits. Council aims to manage volatility to minimise potential adverse effects on the financial performance of Council.

Council's Audit and Risk Committee oversees how management monitors compliance with the Council's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by Council. The audit committee is assisted in its oversight role by the internal audit function. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

Credit risk

Credit risk is the risk of financial loss if a counterparty to the financial instrument fails to meet its contractual obligations. These obligations arise principally from Council's investments and receivables from customers.

Exposure to credit risk is managed through regular analysis of credit counterparty ability to meet payment obligations.

Investments in financial instruments are required to be made with Queensland Treasury Corporation (QTC) or similar State and Commonwealth bodies or financial institutions in Australia, in line with the requirements of the *Statutory Bodies Financial Arrangements Act 1982*.

No collateral is held as security relating to the financial assets held by Council.

The carrying amounts of financial assets at the end of the reporting period represent the maximum exposure to credit risk for Council.

Liquidity risk

Liquidity risk is the risk that Council will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset.

Council's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to Council's reputation.

Exposure to liquidity risk

Council is exposed to liquidity risk through its normal course of business and through its borrowings with QTC.

Council manages its exposure to liquidity risk by maintaining sufficient cash deposits and undrawn facilities, both short and long term, to cater for unexpected volatility in cash flows. These facilities are disclosed in Note 20. The following lines of credit were available at the end of the reporting period:

#### (a) Financial assets and financial liabilities (continued)

The following table sets out the liquidity risk in relation to financial liabilities (excluding lease liabilities) held by Council. It represents the remaining contractual cashflows (principal and interest) of financial liabilities at the end of the reporting period, excluding the impact of netting agreements.

|                          | 0-1 year   | 1 to 5 years | Over 5 years | Total contractual cash flows | Carrying amount |

The outflows in the above table are not expected to occur significantly earlier or for significantly different amounts than indicated in the table.

#### Market risk

Market risk is the risk that changes in market indices, such as interest rates, will affect Council's income or the value of its holdings of financial instruments.

#### Interest rate risk

Council is exposed to interest rate risk through investments with QTC and other financial institutions. Council has access to a mix of variable and fixed rate funding options through these institutions so that interest rate risk exposure can be minimised.

#### Sensitivity

Sensitivity to interest rate movements is shown for variable financial assets and liabilities based on the carrying amount at reporting date.

The following interest rate sensitivity analysis depicts what effect a reasonably possible change in interest rates (assumed to be 1%) would have on the net profit and total community equity, based on the carrying values at the end of the reporting period. The calculation assumes that the change in interest rates would be held constant over the period.

|                           | Net carrying amount | Effect on Net Result |             | Effect on Equity |             |

In relation to the QTC loans held by the Council, the following has been applied:

QTC Fixed Rate Loan - financial instruments with fixed interest rates which are carried at amortised cost are not subject to interest rate sensitivity.

#### (b) Fair value

The fair value of trade and other receivables and payables is assumed to approximate the value of the original transaction, less any allowance for impairment.

#### Measurement of fair value

The valuation technique used in measuring other financial liabilities is discounted cash flows. This valuation model considers the present value of expected payments, discounted using a risk-adjusted discount rate.

#### 28 National competition policy

A "business activity" of a local government is any activity that involves trading in goods or services.

The Code of Competitive Conduct (CCC) must be applied to the following business activities

##### (a) A building certifying activity that

- (i) involves performing building certifying functions within the meaning of the Building Act, section 8; and
- (ii) is prescribed under a regulation\*.

\*Section 38 of the *Local Government Regulation 2012* lists the local government's whose activities are prescribed building certifying activities

##### (b) A roads activity, other than a roads activity for which business is conducted only through a sole supplier arrangement, that involves

- (i) the construction or maintenance of state controlled roads for which the local government submits an offer to carry out work in response to a tender invitation.
- (ii) construction or road maintenance on another local government's roads which the local government has put out to tender.

Each local government may elect to apply a Code of Competitive Conduct (CCC) to any other identified business activities. However, for any with current expenditure of \$340,000 or more, the local government must decide, by resolution each year, whether to apply the CCC to that activity.

In general, applying the competitive code of conduct means that the competitive neutrality principle is applied to the business activity.

Under the competitive neutrality principle, an entity that is conducting a business activity in competition with the private sector should not enjoy a net advantage over competitors only because the entity is in the public sector.

The competitive neutrality principle may be applied by commercialisation or full cost pricing. This includes removing any competitive advantage or disadvantage, where possible, and charging for goods and services at full cost.

In addition, the cost of performing community service obligations, less any revenue received from carrying out those obligations, must be treated as revenue for the business activity.

A community service obligation is an obligation the local government imposes on a business activity that is not in its commercial interest. For example, giving a concession to pensioners.

A local government's financial statements must contain an activity statement for each business activity to which the CCC applies.

## Whitsunday Regional Council

### Notes to the Financial Statements For the year ended 30 June 2024

#### 28 National competition policy (continued)

The Council applies the competitive code of conduct to the following activities:

Whitsunday Coast Airport  
Foxdale Quarry  
Shute Harbour Marine Terminal  
Waste Services  
Water Supply & Sewerage Services  
Holiday Parks \*

This requires the application of full cost pricing, identifying the cost of community service obligations (CSO) and eliminating the advantages and disadvantages of public ownership within that activity.

The CSO value is determined by Council, and represents an activity's cost(s) which would not be incurred if the primary objective of the activities was to make a profit. The Council provides funding from general revenue to the business activity to cover the net cost of providing non-commercial community services.

The following table summarises the financial results for the business activities, including competitive neutrality adjustments if applicable.

The following activity statements are for activities subject to the competitive code of conduct:

## INDEPENDENT AUDITOR'S REPORT

To the councillors of Whitsunday Regional Council

### Report on the audit of the financial report

#### Opinion

I have audited the financial report of Whitsunday Regional Council.

The financial report comprises the statement of financial position as at 30 June 2024, the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, notes to the financial statements including material accounting policy information and the certificate given by the Mayor and Chief Executive Officer.

In my opinion, the financial report:

- a) gives a true and fair view of the council's financial position as at 30 June 2024, and of its financial performance for the year then ended; and
- b) complies with the *Local Government Act 2009*, the Local Government Regulation 2012 and Australian Accounting Standards.

#### Basis for opinion

I conducted my audit in accordance with the *Auditor-General Auditing Standards*, which incorporate the Australian Auditing Standards. My responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial report section of my report.

I am independent of the council in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to my audit of the financial report in Australia. I have also fulfilled my other ethical responsibilities in accordance with the Code and the *Auditor-General Auditing Standards*.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

#### Other information

The councillors are responsible for the other information.

The other information comprises the information included in the entity's annual report for the year ended 30 June 2024, but does not include the financial report and our auditor's report thereon.

At the date of this auditor's report, the available other information in Whitsunday Regional Council's annual report for the year ended 30 June 2024 was the current year financial sustainability statement, current year financial sustainability statement - contextual ratios and long-term financial sustainability statement.

My opinion on the financial report does not cover the other information and accordingly I do not express any form of assurance conclusion thereon. However, as required by the Local Government Regulation 2012, I have formed a separate opinion on the current year financial sustainability statement.

In connection with my audit of the financial report, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report and my knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work I have performed, I conclude that there is a material misstatement of this information, I am required to report that fact. I have nothing to report in this regard.

#### **Responsibilities of the councillors for the financial report**

The councillors are responsible for the preparation of the financial report that gives a true and fair view in accordance with the *Local Government Act 2009*, the Local Government Regulation 2012 and Australian Accounting Standards, and for such internal control as the councillors determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error.

The councillors are also responsible for assessing the council's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless it is intended to abolish the council or to otherwise cease operations of the council.

#### **Auditor's responsibilities for the audit of the financial report**

My objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of my responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at:

[https://www.auasb.gov.au/auditors\\_responsibilities/ar4.pdf](https://www.auasb.gov.au/auditors_responsibilities/ar4.pdf)

This description forms part of my auditor's report.

#### **Report on other legal and regulatory requirements**

In accordance with s. 40 of the *Auditor-General Act 2009*, for the year ended 30 June 2024:

- a) I received all the information and explanations I required
- b) I consider that, the prescribed requirements in relation to the establishment and keeping of accounts were complied with in all material respects.

**Prescribed requirements scope**

The prescribed requirements for the establishment and keeping of accounts are contained in the *Local Government Act 2009*, and the Local Government Regulation 2012. The applicable requirements include those for keeping financial records that correctly record and explain the council's transactions and account balances to enable the preparation of a true and fair financial report.

## INDEPENDENT AUDITOR'S REPORT

To the Councillors of Whitsunday Regional Council

### Report on the Current-Year Financial Sustainability Statement

#### Opinion

I have audited the accompanying current year financial sustainability statement of Whitsunday Regional Council for the year ended 30 June 2024, comprising the statement, explanatory notes, and the certificate of accuracy given by the Mayor and the Chief Executive Officer.

In accordance with s.212 of the Local Government Regulation 2012, in my opinion, in all material respects, the current year financial sustainability statement of Whitsunday Regional Council for the year ended 30 June 2024 has been accurately calculated.

#### Basis of opinion

I conducted my audit in accordance with the *Auditor-General Auditing Standards*, which incorporate the Australian Auditing Standards. My responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the current year financial sustainability statement* section of my report.

I am independent of the council in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to my audit of the statement in Australia. I have also fulfilled my other ethical responsibilities in accordance with the Code and the *Auditor-General Auditing Standards*.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

#### Emphasis of matter – basis of accounting

I draw attention to Note 1 which describes the basis of accounting. The current year financial sustainability statement has been prepared in accordance with the Financial Management (Sustainability) Guideline 2013 for the purpose of fulfilling the council's reporting responsibilities under the Local Government Regulation 2012. As a result, the statement may not be suitable for another purpose. My opinion is not modified in respect of this matter.

#### Other Information

The councillors are responsible for the other information.

The other information comprises the information included in the entity's annual report for the year ended 30 June 2024, but does not include the financial sustainability statement and our auditor's report thereon.

At the date of this auditor's report, the available other information in Whitsunday Regional Council's annual report for the year ended 30 June 2024 was the general-purpose financial statements, current-year financial sustainability statement - contextual ratios, and the long-term financial sustainability statement.

My opinion on the current year financial sustainability statement does not cover the other information and accordingly I do not express any form of assurance conclusion thereon. However, as required by the Local Government Regulation 2012, I have formed a separate opinion on the general-purpose financial report.

In connection with my audit of the financial sustainability statement, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial sustainability statement and my knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work I have performed, I conclude that there is a material misstatement of this information, I am required to report that fact. I have nothing to report in this regard.

**Responsibilities of the councillors for the current year financial sustainability statement**

The councillors are responsible for the preparation and fair presentation of the current year financial sustainability statement in accordance with the Local Government Regulation 2012. The councillors responsibility also includes such internal control as the councillors determine is necessary to enable the preparation and fair presentation of the statement that is accurately calculated and is free from material misstatement, whether due to fraud or error.

**Auditor's responsibilities for the audit of the current year financial sustainability statement**

My objectives are to obtain reasonable assurance about whether the current year financial sustainability statement as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this statement.

My responsibility does not extend to forming an opinion on the appropriateness or relevance of the reported ratios, nor on the council's future sustainability.

As part of an audit in accordance with the Australian Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the council's internal control.
- Evaluate the appropriateness of material accounting policy information used and the reasonableness of accounting estimates and related disclosures made by the council.

I communicate with the council regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

### Financial Management Strategy

Council measures revenue and expenditure trends over time as a guide to future requirements and to make decisions about the efficient allocation of resources to ensure the most effective provision of services. Council ensures that its financial management strategy is prudent and that its long-term financial forecast shows a sound financial position whilst also being able to meet the community's current and future needs.

### Certificate of Accuracy

For the long-term financial sustainability statement prepared as at 30 June 2024

This long-term financial sustainability statement has been prepared pursuant to Section 178 of the Local Government Regulation 2012 (the Regulation).

In accordance with Section 212(5) of the Regulation we certify that this long-term financial sustainability statement has been accurately calculated.

OFFICIAL

Mr R Collins  
Mayor  
Whitsunday Regional Council

Dear Mayor

#### **Final management report for Whitsunday Regional Council**

We have completed our 2024 financial audit for Whitsunday Regional Council and issued an unmodified audit opinion on your financial statements.

The purpose of this report is to update you on any matters that have arisen since we presented our Closing Report on 16 August 2024.

#### **Reporting on issues identified after the closing report**

I can confirm that we have not identified significant issues since the presentation of our closing report to the audit and risk committee. The issues and other matters we have formally reported to management and an update on management's actions taken to resolve these issues is included as Appendix A.

Please note that under section 213 of the Local Government Regulation 2012, you must present a copy of this report at your council's next ordinary meeting.

#### **Report to parliament**

Each year, we report the results of all financial audits and significant issues to parliament.

We intend to include the results of our audit of Whitsunday Regional Council in our report to parliament Local Government 2024. We will comment on the results of our audit, any significant internal control issues, and the overall results for the sector including major transactions and events. We will discuss the proposed report content with your entity contact and continue to consult as we draft it. Formally, entities have an opportunity to comment on our report, and for these comments to be included in the final version tabled in parliament.

#### **Audit fee**

The final audit fee for this year is \$137,600, exclusive of GST. This fee is in line with the amount estimated in our external audit plan.

We would like to thank you and your staff for your engagement in the audit this year and look forward to working with your team again next year.

If you have any questions about this report or would like to discuss any matters regarding our services and engagement, please do not hesitate to contact me on 3229 5100.

Yours sincerely

### Internal control issues

This section provides an update on the significant control deficiencies we have identified in our closing report. It includes a response from management.

Our risk ratings are as follows. For more information and detail on our rating definitions, please see the webpage here: [www.qao.qld.gov.au/information-internal-controls](http://www.qao.qld.gov.au/information-internal-controls) or scan the QR code.

#### **S** Significant Deficiency

##### 24CR – 1 No reconciliation between valuation reports, asset registers and financial statements

###### Observation

When performing our reconciliation between the valuation reports, client asset registers and financial statements we identified that Council's water and sewerage assets were overstated by \$121 million.

Due to an error in the asset registers that were run post revaluation and Council not performing its own reconciliation between the valuation reports and its financial reporting system, as part of the financial statement preparation process, Council recorded a revaluation adjustment that was \$121 million overstated. Council identified that the three key causes of the above were limited resources, a non-integrated asset system (with the asset system being separate from the general ledger) and the asset register structure.

###### Implication

If Council does not perform a reconciliation between the valuation reports, asset registers and the financial statements material errors may be missed.

###### QAO recommendation

We recommend that Council update its valuation procedures to include:

- A reconciliation between the financial statements and the valuation reports at year end
- Review the asset register structure to ensure that the correct registers are extracted for the year end reconciliations.

###### Management response

Council agrees with QAO's recommendation and provides additional comments:

1. **Limited Resources** – this was driven by vacancies and multiple backfills in the Asset Management team during the revaluation process. Changes in resources and limited documentation also led to more hands being involved and potential overlap where a centralised resource would have provided a single point of view rather than multiple people involved. Bringing in external resources has helped with efficiency but may have also meant the assurance was not at the level it should have been with changing resources.
2. **Non-integrated system** – having Council's asset register (Assetic) sitting separate to what is reported in our Financial Statements through Technology One creates additional reconciliations and a probability of data not being reflected accurately without strong internal controls and oversight in place, and importing and exporting data from multiple systems always carries risk.

## 2024 Final management report

3. **Asset Register structure** – the current system does not have the ability to flag or alert parent/child asset duplicate financial fields/values so a 'wild card' was used in the asset ID. As this was the first time this approach had been used from the data continuous improvement approach, it was missed when the data extract was provided to another team to do the revaluation journals within the Technology One system. A reconciliation should have been undertaken from Technology One not just to the asset system (Assetic) but also to the Revaluation report final figure as this would have highlighted the variance reported in the financial system. Council is currently implementing a Technology One asset register later this year, to ensure we have an integrated system which will streamline our processes and have more robust controls in place. System improvements will ensure that the actions that occurred this year will not be repeated in the future.
